

WHO Scientific strategies from
recent outbreaks to help prepare for
Pathogen X

29-30 August 2022

Oyewale TOMORI

Frugal innovations or newly developed products?

- **Diagnostics as a global good?**
- **Crosscutting approaches?**
- **A totally new approach?**

It has to be a combination of both cross-cutting and new approaches for global good

Frugal innovations or newly developed products?

Focus- Laboratory systems

- **Create an enabling environment to fully utilize what exists**
 - **Learn from success of global network of laboratories for polio, yellow fever**
 - **Learn from failure of regional network for genomic sequencing**
- **Contribute nationally to global diagnostic pool, and collaborate for global good**
 - **Rockefeller Foundation Arbovirus Laboratory Network**

Frugal innovations or newly developed products?

Focus- Laboratory systems

- **Expectation of contributions from endemic zone, not wait for solutions from non-endemic zones**
- **Why should a nation wait for WHO to declare a PHEIC before taking action, , the emergency starts in the household,...community,..town,..region,..country, before...**
- **Equity is not a RIGHT, but a FIGHT.**
- **CONTRIBUTE to the EQUITY you want to CONSUME**
