

WHO Chemical Risk Assessment Network

Community of Trainers (CoT)

Department of Environment, Climate Change and Health

Webinar

Training Courses on Toxicology, Risk Assessment in Food Safety & Exposure Assessment

- The Community of Trainers (CoT) for human health risk assessment is a forum of institutions and trainers in the WHO Network involved in training.
- The objective of the CoT webinars is to share experience and lessons learned from providing training in chemical risk assessment and to inspire and support new trainers.
- At each webinar trainers present e.g. the outline of their training, specific training material (e.g. case studies) and learning activities. Webinar participants have the opportunity to discuss and share experiences.

Programme

- Introduction - Kersten Gutschmidt, WHO
- Post Graduate Education in Toxicology - Karin van Ede, Wageningen University, The Netherlands
- Better Training for Safer Food (BTSF). Course in Chemical Risk Assessment - Stylianos Koulouris, European Food Safety Authority (EFSA), European Commission
- Graduate Training Course on Exposure Assessment – David MacIntosh, Harvard T.H. Chan School of Public Health, Boston, United States
- Discussion
