

Implemented ICF Update Proposals 2013

Language Version: English

Introductory note

The following document lists the officially approved ICF updates for the implementation year 2013.

The columns “Proposal ID & Update type” and “Affected code” are taken from the WHO ICF Update Platform as accessible by registered users at the following web address

<https://extranet.who.int/icfrevision/nr/loginICF.aspx>

The column “Original Version” contains the ICF original version of the text as per Microsoft Excel ICF data-base, available at WHO upon request of the WHO-FIC Collaborating Centres.

The column “update version” presents the updated text as approved by the Update and Revision Committee and ratified by the WHO-FIC Council during 2012.

The following convention has been adopted to highlight changes between the approved version and the original ICF text: blue underlines for all additions and red strikethroughs for all deletions.

Please note that, following the discussion at URC level, the approved ICF proposals may substantially differ from the original submitted proposals which are accessible in the above linked WHO ICF Update Platform.

Many update proposals come from the derived classification ICF-CY. For the translation of these updates into other language versions, the translated derived classification, if available, may be taken into consideration as good reference.

Proposal ID & update type	Affected Code	Original version	Update version
ID # 13 Major: Addition of a new code	S3200 Teeth		S32000 Primary dentition S32001 Permanent dentition S32008 Teeth, other specified S32009 Teeth, unspecified
