

# Health and environment scorecard Philippines

## Extent of the problem

### Air pollution

**5x** the WHO air quality guideline value for PM<sub>2.5</sub>

**53%** of population without clean fuels and technology for cooking

## Health impact

**32%** of deaths from stroke and ischaemic heart disease caused by air pollution<sup>1</sup>

<sup>1</sup> Air pollution causes many other diseases and adverse health outcomes, stroke and ischaemic heart disease have been chosen for this country scorecard

## Policies

Existence of legal standards for PM<sub>2.5</sub>

Compliant with WHO Air Quality Guidelines

Existence of national policy on household energy

NO DATA

### WASH

**53%** of population without safe drinking water<sup>2</sup>

**39%** of population without safe sanitation<sup>2</sup>

<sup>2</sup> Operationalised as using safely managed drinking water and sanitation services

**49%** of deaths from diarrhoea caused by unsafe drinking water, sanitation and inadequate personal hygiene

## Financial resources available for implementation of national plans

Drinking water

<50% of what is needed

<50% of what is needed

Sanitation

<50%-75% of what is needed

<50% of what is needed

Hygiene

50%-75% of what is needed

### Climate change

Number of 'warm spell' days<sup>3</sup> in 2050 under a high emissions scenario

**85** days

<sup>3</sup> A 'warm spell' day is a day when maximum temperature, together with that of at least the 6 consecutive previous days, exceeds the 90th percentile threshold for that time of the year. High emissions scenario RCP8.5 - Representative Concentration Pathway 8.5.

Analysis conducted by the Climatic Research Unit and Tyndall Centre for Climate Change Research, University of East Anglia, 2015

**14x** more heat deaths in 2050 compared to 1961-1990 period under a high emissions scenario<sup>4</sup>

Deaths per 100,000 people in the 65+ age group

<sup>4</sup> High emissions scenario RCP8.5 - Representative Concentration Pathway 8.5

Existence of national health and climate change plan or strategy

## Extent of the problem

### Chemicals

International Health Regulations (IHR) capacity score for chemical events

IHR capacity score of **80%** for chemical events<sup>5</sup>

<sup>5</sup> Key informants report on attainment of a set of attributes for chemical events (core capacity 12) using a standard WHO instrument

## Health impact

**1** out of 100,000 children under five die from poisonings every year

Philippines compared to regional values:

**Ranking:** 11<sup>th</sup> of 21 countries in the Western Pacific region

## Policies

Existence of legal limit on lead paint

Existence of a poison centre

Party to the Minamata Convention on Mercury

### Radiation

International Health Regulations (IHR) capacity score for radiation emergencies

IHR capacity score of **40%** for radiation emergencies<sup>6</sup>

<sup>6</sup> Key informants report on attainment of a set of attributes for radiation emergencies (core capacity 13) using a standard WHO instrument

Less than **1** out of 100,000 people die from melanoma and other skin cancers every year

Less than **1** out of 100,000 people die from residential radon every year

Existence of standards on electromagnetic fields

Existence of regulation of artificial tanning devices/sun beds

Existence of national radon regulations for dwellings

NO DATA

### Occupational health

Percentage of informal employment in total employment

NO DATA

**11%** of the working age population exposed to long working hours (≥55 hours/week)

**34** out of 100,000 people of working age die from diseases due to occupational risks every year

Philippines compared to regional values:

**Ranking:** 21<sup>st</sup> of 21 countries in the Western Pacific region

**3** out of 100,000 people of working age die from injuries due to occupational risks every year

Philippines compared to regional values:

**Ranking:** 15<sup>th</sup> of 21 countries in the Western Pacific region

Existence of programmes for occupational health and safety of health workers

**1 of 3** key international labour conventions on occupational safety and health ratified

**C155**

Occupational safety and health

**C161**

Occupational health services

**C187**

Promotional framework
