COVID-19 in children

Wednesday, 19 August 2020, 13:00 hrs (IST)

The first webinar in the series will cover the epidemiology, clinical presentation and management of paediatric COVID cases and the importance of setting up a hospital registry in the countries to understand the clinical profile & outcomes of paediatric COVID in South-East Asia. This will help standardise the case management and contribute to quality of care and better understanding of the disease itself.

Key discussion points

- Epidemiology, clinical management of mild-moderate paediatric COVID cases
- Intensive care of paediatric COVID cases
- Paediatric COVID registry
