HSDU MONITORING

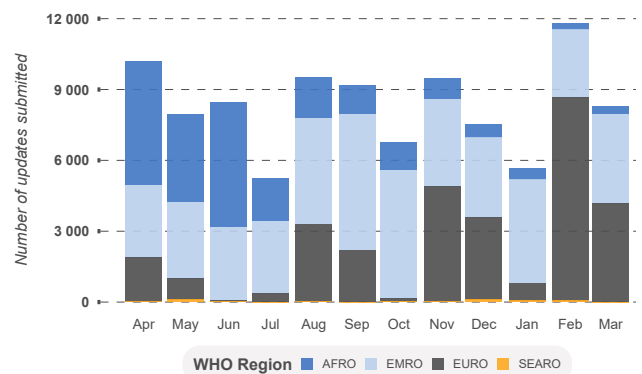

56 371
HSDUs with
completed baseline

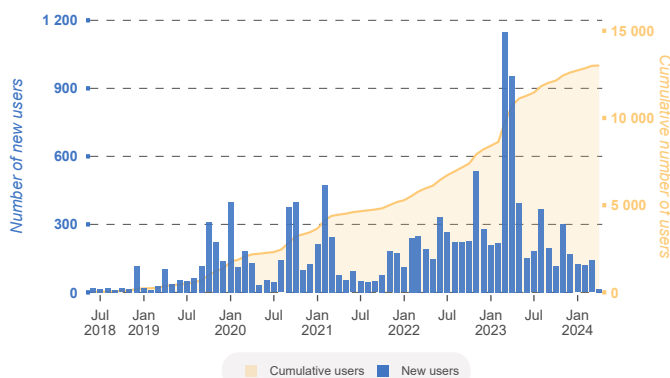

100 018
Updates
submitted²

Since April 2023, five new projects were initiated in Georgia, Haiti, Libya, Niger, and occupied Palestinian territory (Gaza). Across all active projects, a thorough baseline, including information on the availability of essential health services, has been established for more than 56 000 HSDUs. Furthermore, the continuous monitoring approach has resulted in the submission of **over 100 000 new HSDU updates** over the last 12 months.

Number of HSDU updates submitted by month and WHO region

Evolution of the HeRAMS platform user community

USER COMMUNITY

3211
New platform
users

13 007
Cumulative
platform users

In the last 12 months, the HeRAMS platform has seen significant growth, with over 3000 new users joining. This represents a notable 33% increase in the total user community, bringing the cumulative number of registered users to over 13000.

CAPACITY BUILDING

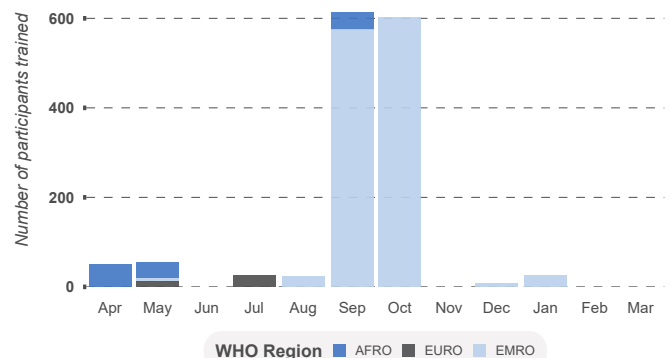

19
Training
events

1475
Participants
trained

Over the last 12 months, a total of 19 training events were conducted across 13 countries, reaching close to 1500 participants. Through a mix of on-site, online, and hybrid formats, key informants were trained in the HeRAMS methodology, equipping them to contribute and use data effectively.

Number of participants trained by month and WHO region

COUNTRY OVERVIEW

Country	Status	Master plan	Descriptive reports published	Accessibility models	HSDUs ¹	Number of HSDU updates submitted ²
Afghanistan	✓	⚙️	report	✓	4743	7754
