

HeRAMS

Country Implementations

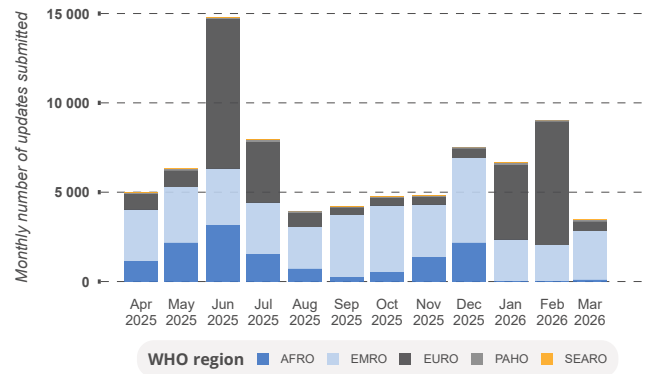

SNAPSHOT MARCH 2026

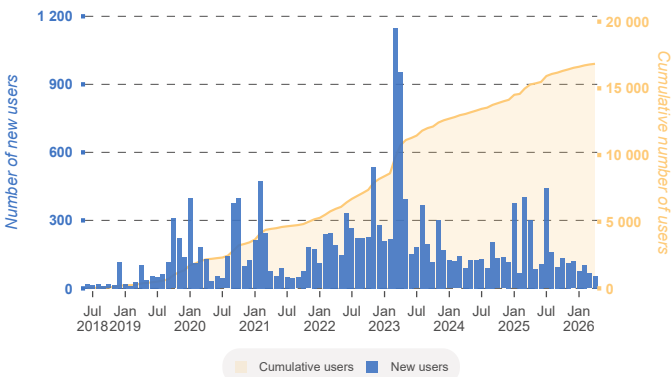

HSDU MONITORING

Since April 2025, one new project was initiated in Benishangul-Gumuz region of Ethiopia. Across all projects, a comprehensive baseline, including information on the availability of essential health services, has been established for over **65 000 HSDUs**. Furthermore, the continuous monitoring approach has resulted in the submission of **over 75 000 new HSDU updates** over the last 12 months.

Number of HSDU updates submitted by month and WHO region

Evolution of the HeRAMS platform user community

USER COMMUNITY

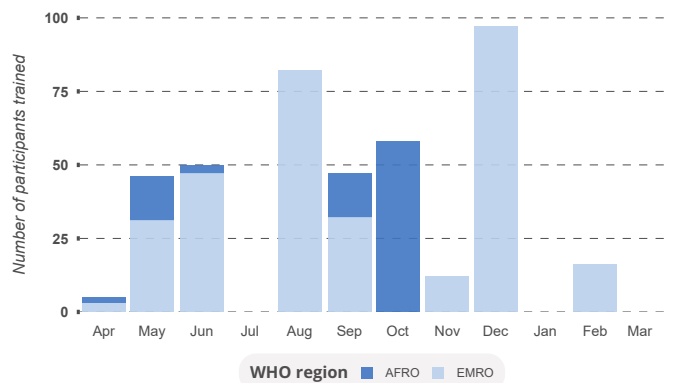

In the last 12 months, the HeRAMS platform has seen continuous growth, with over 1800 new users joining. This represents a 12% increase in the total user community, bringing the cumulative number of registered users close to 17 000.

CAPACITY BUILDING

Over the last 12 months, 20 training events were conducted across 5 countries, reaching close to 500 participants. Through a mix of on-site, online, and hybrid formats, key informants and project administrators were trained in the HeRAMS methodology, equipping them to contribute and use data effectively.
