Country Implementations

SNAPSHOT JUNE 2026

HSDU MONITORING

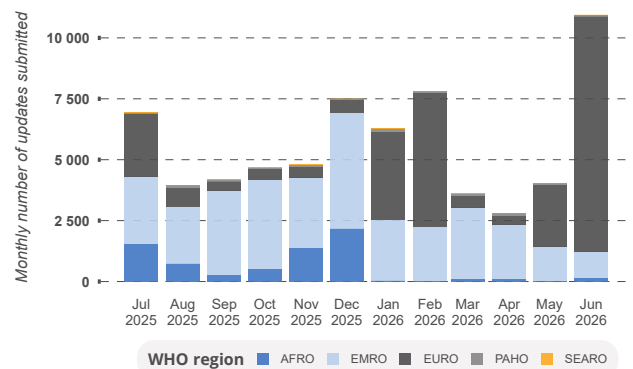

65 088
HSDUs with
completed baseline

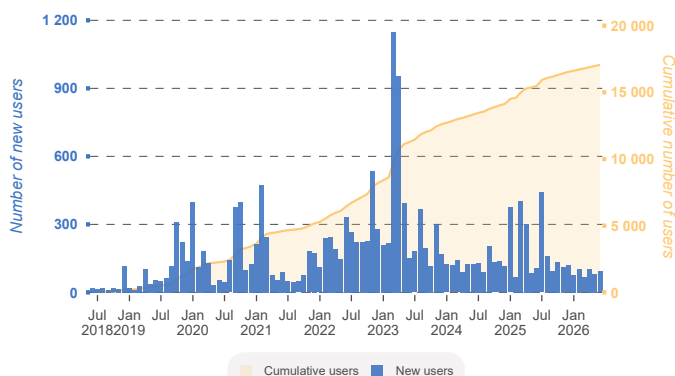

67 536
Updates
submitted²

Since July 2025, one new project has been initiated in the Benishangul-Gumuz region of Ethiopia. Across all projects, a comprehensive baseline, including information on the availability of essential health services, has been established for close to 70 000 HSDUs. Furthermore, the continuous monitoring approach has resulted in the submission of **over 65 000 new HSDU updates** over the last 12 months.

Number of HSDU updates submitted by month and WHO region

Evolution of the HeRAMS platform user community

USER COMMUNITY

1584
New platform
users

17 064
Cumulative
platform users

In the last 12 months, the HeRAMS platform has seen continuous growth, with close to 1600 new users joining. This represents a 10% increase in the total user community, bringing the cumulative number of registered users close to 17 100.

CAPACITY BUILDING

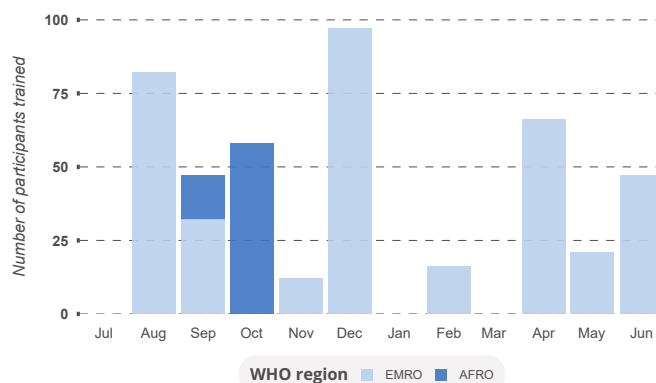

14
Training
events

446
Participants
trained

Over the last 12 months, 14 training events were conducted across 4 countries, reaching over 400 participants. Through a mix of on-site, online, and hybrid formats, key informants and project administrators were trained in the HeRAMS methodology, equipping them to contribute and use data effectively.

Number of participants trained by month and WHO region
