REHABILITATION SUPPORT IN EMERGENCIES

NEEDS ASSESSMENT
Rapid assessment of the rehabilitation needs generated by an emergency, including the number and type of injuries needing rehabilitation and the impact on rehabilitation services.

MAPPING
Mapping of existing capacity to meet rehabilitation needs, and the identification of any critical gaps.

COORDINATION
Support to coordinate rehabilitation activities, including strengthening referral pathways and ensuring appropriate coverage and quality of rehabilitation services.

TECHNICAL ADVICE AND RESOURCES
Providing technical advice including to affected Member States and all relevant stakeholders and developing, adapting or promoting technical resources and guidelines to ensure a safe and effective rehabilitation response.

TRAINING AND CAPACITY BUILDING
Provide capacity building support to Member States and key stakeholders to manage a response or technical training in clinical or operational areas for national rehabilitation responders.

RESPONSE AND RECOVERY STRATEGY
Support from the onset of an emergency to ensure rehabilitation needs are considered and continue to be included in strategic planning that bridges response and recovery.
