

JOIN US FOR THE LAUNCH OF THE WHO

Rehabilitation COMPETENCY FRAMEWORK

Webinar

26 February, 2021

12:45-14:00 CET

ABOUT

Join us on 26 February for the virtual launch of the WHO Rehabilitation Competency Framework (RCF)! Competency frameworks are a key mechanism for ensuring the knowledge, skills and behaviours of the workforce align with the needs of populations and are a critical tool in workforce strengthening. The RCF is an important resource for the rehabilitation community and marks a key milestone in the efforts to address the profound rehabilitation workforce challenges Member States face. It will be foundational to much of our future work in this field.

The launch event will convene some of the world's leading health workforce experts, along with members of the international team that supported the development the RCF, to deliver a rich agenda. Participants will gain an understanding of the role and potential of the RCF in addressing workforce challenges faced in rehabilitation, and learn how it can be used in real world scenarios to bring us closer to the vision of Rehabilitation 2030: That everyone who needs rehabilitation has access to timely, quality services.

AGENDA

The agenda will include:

- ✓ The **importance of competency frameworks as a tool for workforce strengthening**, presented by **Prof. James Buchan**, Editor-in-chief of the *Human Resources for Health* journal
- ✓ An **introduction to the RCF**, as well as to the guides for how it can be adapted and adopted, and used to develop rehabilitation curricula, provided by **Ms Jody-Anne Mills**, WHO Rehabilitation Programme
- ✓ A round table focused on **how the RCF can be put into practice**, chaired by **Mr James Campbell**, Director the WHO Health Workforce Department

- ✓ Q&A
