Joint Advocacy Statement by the World Rehabilitation Alliance Regarding the Morocco Earthquake

Members of World Rehabilitation Alliance (WRA) are deeply concerned by news from Morocco following the devastating 6.8 magnitude earthquake that struck at 23:11pm on Friday 8th September. Our thoughts are with those affected and with all local responders.

Amidst ongoing lifesaving efforts, the early rehabilitation needs of those injured & support for those with pre-existing disabilities will be significant. Locally led coordination efforts are underway. Our members are monitoring the situation & ready to support if needed.
