

WHO Essential Medicines List REQUEST :

Respected sir,

I am [REDACTED] and my Father name is [REDACTED]. I am 19 years old and I am studying B.A psychology. We are requesting you to add medicine "RISDIPLAM" in the EML. I am suffering from problem "Spinal Muscular Atrophy". It is a genetic disorder which can cause decreased muscle power. Can't walk or stand and also can't do the basic need activities myself. "RISDIPLAM" medicine can improve the life much better. Many people with "SMA" have much "LOWER LIFE EXPECTENCY". It is very "EFFICIENT" for those SMA types who have "LESS LIFE EXPECTENCY" can be improved so much high life and can lead a "NORMAL LIFE EXPECTENCY". This can only be achieved by the medicine "RISDIPLAM" which has so much highest price no middle class man can buy. This is a request from everyone who is suffering from "SMA". By adding "RISDIPLAM" in "ESSENTIAL MEDICINES LIST" can save many lives.

THANK YOU.
