

HEALTH FINANCING PROGRESS MATRIX 2.0

Accelerating progress to UHC

LAUNCH EVENT

ORGANIZED JOINTLY BY:

WHO Department of Health Systems Governance & Financing
WHO Department of Delivery for Impact

The first standardized assessment of the quality of a country's health financing policies and institutions, and their implementation.

Nineteen evidence-based benchmarks capture what matters in health financing to make progress towards UHC.

Provides a single framework to focus and coordinate multiple stakeholder inputs; also allows easy tracking of progress over time.

Provides regular, timely and clear recommendations, with action-oriented priorities for policy makers. A global database facilitates learning between countries.
