- Webinar 4 -
Person-centred HIV prevention monitoring

This webinar focusses on how the collection of individual-level data across HIV prevention programmes is an opportunity to monitor how well programmes are meeting the prevention needs of individuals and inform the prioritization of prevention interventions at the individual and programme levels.

Chaired by Annette Gerritsen (WHO)

Presentations (60 min)
- Technical overview of the Consolidated guidelines on person-centered HIV strategic information
  Shona Dalal (WHO)
- Overview of person-centred HIV prevention monitoring
