Credentials

Username : live@mailinator.com , Password : Test@123

LOGIN / SIGN IN

Once a program is created/ published via the Smart Setup the demo credentials for accessing the App & Dashboard both will be received.

After successful login the user will be directed to the Dashboard Overview page where the user can see the Dynamic Indicators & Charts. There is also a filter option to view data for a particular state or district.

Dashboard

Prevent TB

The comprehensive dashboard for Prevent TB initiative facilitates real-time monitoring of individual TB and LTBI clients. The innovative representation with interactive charts, maps, real-time alerts, and client line listing helps the program to leverage data for prompt action and effective policy.

OVERVIEW PAGE

The Overview page has following Dynamic features/ modules:

1. TBI & TB Pathway - Indicators to show value of how many Registered, Referred, Tested & Treatment Initiated.
2. Hotspot Details/ Map - To view the exact location from where the contact case was registered.
3. TBI & TB Cascade - Representation of data in form of charts.
4. Filters – To view data of a particular state, district

PATHWAY

Pathway contains the overview of the patients registered and their break up at different stages of cascade of care for both TB & TBI

ANALYSIS PAGE

The Analysis page will have Dynamic Charts of all the Data variables/ options which are already pre-defined in the system & if there are any variable options added via the smart setup then those would also display here in form of charts.

ALERTS PAGE

The Alerts which can be seen in the Mobile Application by the ORW user, the same alert list with details will also be visible to the Dashboard user.

The screenshot shows the 'Prevent TB' application interface. On the left is a navigation sidebar with icons for Overview, Pathway, Analysis, Map, Alert, and Linelist. The main content area is titled 'Alert' and contains a table with the following data:

UIC	Client Type	Given Name	Family Name	Age	Registration Date	By User	TB Testing Referral Alert	TB Treatment Referral Alert	TB Re-testing Alert	TBI Treatment Referral Alert	TBI Testing Referral Alert	TBI Re-testing Alert
