

Immunization, Vaccines and Biologicals

SAGE meeting of 9 - 11 November 2010

Declaration of Interests

All SAGE members participating in the meeting updated their declaration of interest ahead of the meeting. Other meeting participants do not take part in the decision-making and are thus not required to complete a declaration of interest.

Six members reported relevant interests, which were assessed not to constitute a conflict of interest. It was concluded that all members could take part in full in all of the discussions. All the reported relevant interests are summarized below:

Zulfiqar A Bhutta

- Received in 2007 and in 2009 travel reimbursements from Sabin Institute for participation in two meetings as a member of the Pneumococcal Awareness Council of Experts (PACE). This interest was assessed as personal, non-specific and financially insignificant*.

Juhani Eskola

- Receives consultancy fees for membership in Novartis Data Safety Monitoring Board for typhoid vaccines. This interest was assessed as personal, specific and financially insignificant*.
- Receives consultancy fees for membership in Novartis Data Safety Monitoring Board for meningococcal vaccines. These interests were assessed as personal, non-specific and financially insignificant*.
- Received in 2009 consultancy fees for participation in Novartis Pneumococcal Vaccine Advisory Group. These interests were assessed as personal, non-specific and financially insignificant*.
- His organization the National Institute for Health and Welfare of Finland has a large joint research programme with GlaxoSmithKline on pneumococcal vaccines. This interest was assessed as non-personal, non-specific and financially significant*.

J Peter Figueroa

- His unit receives a research grant from Merck to conduct a small clinical trial of an anti-retroviral drug on HIV for which he is the principal investigator. All the funds from this research grant go into expenses to cover the cost of the trial and he receives no payment for his contribution. This interest was assessed as non-personal, non-specific and financially significant*.

Xiaofeng Liang

- Received in 2010 a travel grant from sanofi pasteur and PAREXEL to attend the Global Meningococcal Initiative's (GMI) scientific secretariat's meeting. This interest was assessed as personal, non-specific and financially insignificant*.

- His institution receives funding from ten Chinese vaccine manufacturers for conducting a clinical trial on H1N1 vaccines for which he is the principal investigator. This interest was assessed as non-personal, specific and financially significant*.

Malik Peiris

- His research unit received during 2007-2010 funding from Crucell, Combinatorx, DIVA Solutions, Baxter and GlaxoSmithKline to conduct research in influenza viruses and vaccines. These interests were assessed as non-personal, specific and financially significant*.
- Received in 2009 consultancy fees from GlaxoSmithKline in pandemic preparedness. This interest was assessed as personal, specific and financially insignificant*.
- Received in 2009 travel grant from GlaxoSmithKline to attend the 3rd Vaccine Global Congress. This interest was assessed as personal, non-specific and financially insignificant*.

Claire-Anne Siegrist

- Her university receives funding from sanofi pasteur, NasVax Ltd and DBV Technologies for conducting research in vaccine adjuvants and seroepidemiology of pneumococcal infections. Until 2008, her university also received research funding from GlaxoSmithKline to study pertussis antibodies. These interests were assessed as non-personal, non-specific and financially significant*.
- Developed and owns the Viavac immunization management software destined to support Swiss health care professionals to follow the official immunization recommendations. Her ownership in the enterprise generates royalties of less than 10,000 USD per annum. This interest was assessed as personal, non-specific and financially significant*.
- Received in 2007-2010 partial travel grants from sanofi pasteur and Wyeth to attend two scientific meetings on pneumococcal vaccines. These interests were assessed as personal, non-specific and financially insignificant*.
- Until 2009, received a small honoraria from GlaxoSmithKline for vaccinology training of pediatricians. This interest was assessed as personal, non-specific and financially insignificant*.

Piyanit Tharmaphornpilas

- Received in 2010 a travel grant from sanofi pasteur to attend the 8th Asia-Pacific Travel Health Conference. This interest was assessed as personal, non-specific and financially insignificant*.
- Received in 2009 an honorarium from GlaxoSmithKline for speaking in the Rotavirus Expert Forum. This interest was assessed as personal, non-specific and financially insignificant*.
- Received in 2009 a travel grant from a joint venture of the Thai Government Pharmaceutical Organization - Merieux Biological Product, to attend the Influenza Vaccines for the World conference. This interest was assessed as personal, specific and financially insignificant*.

* According to WHO's Guidelines for Declaration of Interests (WHO expert), an interest is considered "personal" if it generates financial or non-financial gain to the expert, such as consulting income or a patent. "Specificity" states whether the declared interest is a subject matter of

the meeting or work to be undertaken. An interest has "financial significance" if the honoraria, consultancy fee or other received funding, including those received by expert's organization, from any single vaccine manufacturer or other vaccine-related company exceeds 10,000 USD in a calendar year. Likewise, a shareholding in any one vaccine manufacturer or other vaccine-related company in excess of 1,000 USD would also constitute a "significant shareholding".
