

MASS CASUALTY- INTERAGENCY INTEGRATED TRIAGE TOOL

TRIAGE CATEGORIES

Assessment					
When detailed assessment is delayed, repeat triage with Mass Casualty - IITT.					
Assessment includes evaluation of ABCDE conditions and high risk vital signs.					
Conduct further triage as needed based on patient assessment or clinicial concern.					

High Risk Vital Signs					
	>12 yrs	5-12 yrs	1-4 yrs	<1 yr	
RR	<10, >30	<10, >30	<20, >40	<25, >50	O2 Sat <92%
HR	<60, >130	<70, >140	<80, >160	<90, >180	Any evidence of poor perfusion
					AVPU other than A
