

WHO Global Sepsis Webinar:

Global Sepsis Coordination and WHO resources

An overview of the WHO global coordination of activities, guidelines, and other resources on sepsis

Please join us on Thursday, 25th April 2024, 1:00-2:30pm CET

Objectives

- To showcase the ongoing activities on sepsis across different WHO programmes and their impact
- To discuss and share experiences from the panellists and the audience about tackling sepsis at the local and global level and how coordination as well as collaboration of different stakeholders are essential in conducting effective action
