

Tony Manderson

Members of the WHO Expert Advisory Panel on The International Pharmacopoeia and Pharmaceutical Preparations serving the INN Expert Group

Biography

Dr Tony Manderson is currently the Head of the Cell & Tissue Therapy Unit at the Therapeutic Goods Administration in Australia. The Unit is responsible for policy and evaluation of human cell and tissue-based products (known as biologicals), including gene-modified cell therapies. He first joined the TGA in 2007 and has worked in different areas, including the evaluation and testing of vaccines, regulation of blood and plasma-derived medicines, and most recently the regulation of blood, HPCs and human cell and tissue-based therapies (biologicals). Prior to this, Dr. Manderson worked as a research scientist at Imperial College in London and the Institute of Molecular Biosciences in Brisbane, with a focus on complement biology, autoimmunity and macrophage biology, after obtaining his PhD in Immunology from the Australian National University in Canberra, Australia.
