

Abbreviated Biosketch for Proposed Members of the Guideline Development Group

Title:	Professor
First name:	Ahmadali
Last name:	Enayati
Current position:	Head department
Affiliation*:	Department of Vector Biology and Control, School of Public Health, Mazandaran University of Medical Sciences, Iran.
Country:	Iran
<p>Bio: Serving as a university professor for more than 25 years and currently as the Head Department of Vector Biology and Control at my institution, I have been trained as a Medical Entomologist at Tehran University of Medical Sciences and further for my PhD at Liverpool School of Tropical Medicine, UK with the main research and teaching interests in vector control and insecticide resistance especially in malaria vectors. I have the experience of dealing with research including systematic reviews of evidence during my research carrier and especially while I served for more than 8 years as the vice chancellor for research at my home institute. I also earned experience regarding malaria control and elimination by being a member of the Independent National Malaria Elimination Advisory Committee in Iran, a malaria endemic country that is at the final stages of elimination. As a WHO advisor for many years, I visited several malaria endemic countries and attended several consultancy meetings through which I gained national and international experiences in the field.</p>
