

**Abbreviated Biosketch for Proposed Members of the Guideline Development Group for developing recommendations for testing *P. knowlesi* and use of rapid antigen tests for detection of *P. malariae*, and *P. ovale*.**

Title:	PD Mag. Dr.
First name:	Hans-Peter
Last name:	Fuehrer
Current position:	Group Leader – Vectors and VBDs
Affiliation*:	Vetmeduni Vienna
Country:	Austria
<p>Bio:</p> <p>I am parasitologist and medical/veterinary entomologist. I am head of the <b>vector and vector-borne pathogen group</b> at the Institute of Parasitology - <b>Vetmeduni Vienna</b>, Austria. Our main research focus is set on mosquitoes and mosquito-borne pathogens including malaria parasites and filarioid helminths like <i>Dirofilaria immitis</i> and <i>D. repens</i>. I was laboratory head at the Malaria Research Initiative Bandarban (MARIB) from 2008-2012 and spent several years in Bangladesh working with malaria but also other vector-borne pathogens. My research focus in malaria research is set on <i>Plasmodium ovale</i> spp. and <i>P. malariae</i>.</p>
