Call for Expression of Interest: Review and compilation of data to monitor progress towards achieving targets set in WHO General Program of Work 13 (GPW 13) and Sustainable Development Goal 3 (SDG 3)

Type: Individual Contract

Duration: 45 days

Starting date: May 2022

Duty Station: Male', Maldives

Reporting: Medical Officer, WHO Maldives

Project: Review and compilation of documented information at national and selected stratified levels for targets and indicators for Sustainable Development Goals (SDG 3) and the WHO General Program of Work 13 (GPW 13)

Terms of Reference

OBJECTIVE

The main objective of this consulting assignment is to review and update health related targets and indicators from the Sustainable Development Goals (SDGs) and WHO GPW 13 indicators

The specific objectives of the assignment will be to:

a.) Conduct a desk review of the WHO GPW indicators, SDG 3 and health related goals
b.) Review targets and indicators updated in the SDG annual report of Maldives and understand actual data requirement, capacity of data collection, availability, and tracking
c.) Analyze the indicators in terms of availability to monitor the GPW/SDGs progress. Identify the disaggregated level, source of the data and responsible agency to collect the data.
d.) Compilation of the available information at national and selected stratified levels based on a template that is provided by WHO Country Office

SCOPE OF WORK

The contractual partner will be responsible for providing the final revised GPW 13 / SDGs targets and indicators to WHO Maldives which should be based on the relevancy to country context, data availability and from data tracking perspective.

Specifically, the consultant will perform the following tasks:

a) Conduct a desk review of the GPW 13, SDG3 and other health related SDG targets and indicators and identify relevant indicators and their data sources for the country context
b) Collate data for the period of 2015-2021 from reliable sources and suggest alternative sources of data for the selected indicators as required.
c) Preparation of final consolidated database (2015-2021) and sharing it with WHO for feedback. The consultant will incorporate all the relevant gaps that are identified in the database
d) Submission of final report to the WHO along with compiled indicators and baseline values at national and selected stratified levels.

SPECIFIC REQUIREMENTS

Qualifications:
- Required: Advanced degree in health systems or health related field
- Desirable: Qualifications in health statistics or data analysis

Experience:
- Required: Minimum of 2 years’ experience in health statistics, project data management or health related field evaluation
- Required: SDG 3 related work experience

Skills / Technical skills and knowledge:
- Expertise in health sector or health systems strengthening
- Strong analytical skills with conceptual understanding

Language requirements:
- English and Dhivehi – fluency

APPLICATION

Interested individuals are requested to submit their CVs/profiles along with a financial proposal for the project to sewhomav@who.int (total file size less than 10MB) by 30th April 2022.

Note: This EOI is open to only individual consultants
