**MENTAL HEALTH SYSTEM GOVERNANCE**

**Mental health policy / plan**
- Stand-alone policy or plan for mental health: No
  - (Year of policy / plan): 
- Stand-alone policy or plan for child mental health: No
  - (Year of policy / plan): 
- Stand-alone policy or plan for adolescent mental health: No
  - (Year of policy / plan): 
- Stand-alone strategy/policy/plan for suicide prevention: No
  - (Year of strategy/policy/plan): 

**Mental health legislation**
- Stand-alone law for mental health: Yes
  - (Year of law): 2001
- Law is in line with human rights covenants (self-rated 5-points checklist score; 5 = fully in line): Not applicable
  - (Year of law): 
- The existence of a dedicated authority or independent body to assess compliance of mental health legislation with international human rights: No
  - A dedicated authority body does not exist
- Indicators available: Indicators not available

**RESOURCES FOR MENTAL HEALTH**

**Mental health financing**
- The government’s total expenditure on mental health as % of total government health expenditure: 0.04%
MENTAL HEALTH ATLAS 2020

Member State Profile

Insurance for mental health

How the majority of persons with mental health conditions pay for mental health services

Persons pay at least 20% towards the cost of services

How the majority of persons with mental health conditions pay for psychotropic medicines

Persons pay at least 20% towards the cost of medicines

The care and treatment of persons with mental health conditions (psychosis, bipolar disorder, depression) is included in national health insurance or reimbursement schemes in your country

Yes

Mental health workers in child and/or adolescent mental health services:

Child and/or adolescent psychiatrists - -

Total mental health workers in child and adolescent mental health services - -

MENTAL HEALTH SERVICE AVAILABILITY AND UPTAKE (Mental health services include care for mental health, neurological and substance use disorders)

Integration of mental health into primary health care

Integration of mental health into primary care is considered functional (self-rated 5 points checklist score; ≥ 4 = functional integration)²

Outpatient care (total facilities)

Mental health outpatient facilities attached to a hospital

3 729 Number of visits made by service users in the last year in mental health outpatient facilities attached to a hospital

"Community-based / non-hospital" mental health outpatient facility

624 Number of visits made by service users in the last year in "Community-based / non-hospital" mental health outpatient facility

Other outpatient facility (e.g. Mental health day care or treatment facility)

- Number of visits made by service users in the last year in other outpatient facility (e.g. Mental health day care or treatment facility)

Total number of outpatient facilities specifically for children and adolescents

2 Number of visits made by service users in the last year in outpatient facility specifically for children and adolescents

Inpatient care (total facilities)

Mental hospitals

11 Mental hospital beds / annual admissions

Psychiatric units in general hospitals

800 General hospital psychiatric unit beds / annual admissions

Community residential facilities

578 Community residential beds / annual admissions

Inpatient facilities specifically for children and adolescents

3 Child and adolescent specific inpatient beds / annual admissions

Mental hospitals

Total number of admissions

- Inpatients staying less than 1 year

Admissions that are involuntary

- Inpatients staying 1-5 years

Follow-up of people with mental health condition discharged from hospital in the last year (discharged persons seen within a month)

26%-50% Inpatients staying more than 5 years

Percentage of inpatients staying less than 1 year in the total number of inpatients

- Inpatients receiving timely diagnosis, treatment and follow-up for physical health conditions (e.g. cancer, diabetes or TB) 51%-75%

Community based mental health services²

Total number of community-based mental health facilities

1 202 Number of community-based mental health facilities per 100 000 population

Treated prevalence of psychosis and by sex

Treated cases of psychosis (inpatient and outpatient)

Total cases Male Female

**Endnotes**

3. Value represent DALY rate per 100,000 and for mental disorders only.
4. WHO, 2019. Global Health Observatory. [http://www.who.int/gho/en/](http://www.who.int/gho/en/). Suicide mortality rates are computed using standard categories, definitions and methods are reported to facilitate comparisons over time and between countries and may not be the same as official national estimates.
5. Output of research on mental health: The annual published research output in peer-reviewed and indexed journals is used as a proxy for the amount (and quality) of mental health research that is being conducted or is related to a given country.
6. Policy/plan compliance with human rights instruments self-rated 5 points checklist items: 1) Policy/plan promotes transition towards mental health services based in the community (including mental health care integrated into general hospitals and primary care); 2) Policy/plan pays explicit attention to respect of the rights of people with mental health conditions and psychosocial disabilities as well as at-risk populations; 3) Policy/plan promotes a full range of services and supports to enable people to live independently and be included in the community (including rehabilitation services, social services, educational, vocational and employment opportunities, housing services and supports, etc.); 4) Policy/plan promotes a recovery approach to mental health care, which emphasizes support for individuals to achieve their aspirations and goals, with mental health service users driving the development of their treatment and recovery plans; 5) Policy/plan promotes the participation of persons with mental health conditions and psychosocial disabilities in decision-making processes about issues affecting them (e.g., policies, laws, service reform, service delivery). (5 = fully in line)
7. Law compliance with human rights instruments self-rated 5 points checklist items: 1) Law promotes transition towards community-based mental health services (including mental health integrated into general hospitals and primary care); 2) Law promotes the rights of people with mental health conditions and psychosocial disabilities to exercise their legal capacity; 3) Law promotes alternatives to coercive practice; 4) Law provides for procedures to enable people with mental health conditions and psychosocial disabilities to protect their rights and file appeals and complaints to an independent legal body; 5) Law provides for regular inspections of human rights conditions in mental health facilities by an independent body (79% of responding countries). (5 = fully in line)
8. Integration of mental health in primary care self-rated 5 points checklist items: 1) guidelines for mental health integration into primary health care are available and adopted at the national level; 2) pharmacological interventions for mental health conditions are available and provided at the primary care level; 3) psychological interventions for mental health conditions are available and provided at the primary care level; 4) health workers at primary care level receive training on the management of mental health conditions; 5) mental health specialists are involved in the training and supervision of primary care professionals. (5 = fully in line)
9. Community-based mental health services are defined as services that are provided in the community, outside a hospital setting. Data for this indicator include countries’ reported number of community based outpatient facilities (e.g. community mental health centres), other outpatient services (e.g. day treatment facilities) and mental health community residential facilities for adults.
10. Functional mental health promotion and prevention programmes self-rated 3 points checklist items: 1) Dedicated financial & human resources; 2) A defined plan of implementation; and 3) Documented evidence of progress and/or impact. (≥ 2 = functioning programme)
