Evaluation of QualityRights training on mental health, human rights and recovery: PRE-training questionnaire

In order to evaluate the effectiveness and quality of this training, we need your help! Please answer the following questionnaire before starting the training. You will be asked to respond a second time after having finished the course. This will provide us with important information about how to improve the learning experience.

Please note that this completed questionnaire will remain anonymous and will be kept confidential.

1. Optional personal identification

If you feel comfortable, please provide your name.

First Name __________________________________________

Last/Family Name ______________________________________

What is your age? _________________________

To which gender do you most identify?

☐ Female

☐ Male

☐ Prefer not to answer

☐ Not listed _________________________

☐ Lawyer  
☐ Human rights advocate  
☐ Policy Maker / Analyst  
☐ Academia  
☐ Administration/Management  
☐ Other (please specify): ________________________________

---

\(^1\) Some people may not be familiar with the term psychosocial disability. In this context the term is being used to refer to people who self-identify in different ways including “people who have received a psychiatric diagnosis”, “people with mental health conditions”, “people with mental disorders” or “mental illness”, “service users”, “psychiatric survivors” or “consumers.”
4. Please indicate your level of agreement with the following statements. 
Select only one option for each statement.
