# Part 6: Templates and Forms Overview

### In this Part

This Part covers the following topics

Topic	See Page
Section 1: Planning and Set Up Templates	6-1-1
Section 2: Forms for STEPS Field Work	6-2-1
Section 3: Reporting Templates (Fact Sheet, Data Book	6-3-1
and Country Report Templates)	

## **Section 1: Planning and Set Up Templates**

### **Overview**

#### Introduction

This section includes some document templates that can be used during the stage that involves planning and preparing a STEPS survey.

## Intended audience

This section is primarily designed to be used by those fulfilling the following roles:

- STEPS Survey Coordinator
- STEPS Coordinating Committee

### In this section

This section contains the following topics.

Topic	See Page
STEPS Implementation Plan	6-1-2
Budget Template	6-1-7
Ethical Approval Form	6-1-10

## **STEPS Implementation Plan**

## **Executive Summary**

Introduction	
<b>Current</b> situation	
Goals	
Scope and methods	
Resources	
Budget	
Current Sit	uation
Introduction	
Previous NCD risk factor surveys	Specify if an NCD risk factor survey has already been conducted in this country.
Data availability	Specify NCD risk factor data availability in this country.
Infrastructure and capacity	Specify if there is already an infrastructure (human capacity, equipment, other) on which STEPS could be built.
Rationale	Specify the rationale for conducting NCD risk factor surveillance. (See Part 1, Section 1, Rationale for Surveillance).

### **Goals and Objectives**

## Introduction Goals Identify the planned goals or use for the information gathered. For example, as a contribution to ongoing data collection to: • Describe the current levels of risk factors for NCDs in this population • Track the direction and magnitude of trends in risk factors • Plan or evaluate a health promotion or preventive campaign • Collect data from which to predict likely future demands for health services. **Objectives** Specify objectives that support gathering 'essential' information only. **Scope and Methods** Introduction Overview of Specify the scope of the survey to be conducted over time, ie Step 1, Step 2 scope and Step 3, plus coverage of core, expanded and optional items. Geographical Identify geographical coverage. coverage Sampling Identify the sample size and sample frame that will be used. Describe the sampling methodology. **Timeframe** Describe the broad timeframes. Sustainability Specify if STEPS sustainability can be assured and plans for future surveys.

and future surveys

## Organization of field work

Number of field staff	Describe the number and roles of the field staff as well as the composition of the field teams.
Logistics of field work	Describe the logistics of the field work, in particular, where, when and how Step 3 measurements will be organized, and how the information will be recorded and matched with Step 1 and 2 data.
Equipment	Specify the equipment to be used for electronic data collection, as well as for Step 2 and 3.

Training of field staff and pilot test

Describe how the training of the field staff and the pilot test will be organized.

## **Data management**

Data management and analysis Describe organization of compiling the final dataset, data management, analysis and reporting.

una unarysis	
Resources	
Introduction	
Personnel required	Specify required resources in terms of all personnel required for the surveillance.
Equipment	Specify required resources in terms of all equipment required for the surveillance.
Facilities	Specify required resources in terms of all facilities required for the surveillance.

Resources already committed	Describe resources that have already been committed or which are expected, including support from WHO.
Resources required from other organizations	Specify resources required from other organizations involved.
Action Pla	n
Introduction	
Plan	Provide a chart of the main tasks with estimated start dates and timeframes for completion of each phase.
Communic	cation Strategy and Publicity
Introduction	
Publicity plan	Specify methods for informing and involving community leaders and community groups in the STEPS survey project.

## **Reporting and Disseminating Results**

Introduction		
Reporting	Describe to whom and how the results will be reported and d	isseminated.
Budget		
Introduction		
Budget	Provide a detailed budget that includes:  • total funds required for each year planned to implement all as identified in the scope,  • source of funds, and • funding gap.	STEPS activities
	Item	USD

### **Budget Template**

### Budget template

The items and subline items that should be covered in the calculation of a realistic and detailed budget are listed in the Budget Template below. However, items or subline items may need to be added or removed as the template is adapted to the local context.

An excel tool with integrated formula and examples is available on the WHO STEPS website, and on request from the WHO STEPS team.

## Use of the template

For each subline item, the following information should be listed in a table:

- quantity or number required (units)
- unit cost (in local currency)
- unit cost (converted to USD)
- total cost (in USD)
- responsible organization
- comments.

	Phase 1 – STEPS Planning and Preparation	
Line item	Subline item	Cost
Personnel	Preparation of the STEPS implementation plan	
	Sample design development	
	Adaptation of the STEPS Instrument and testing	
	Transportation costs	
STEPS	Accommodation (for out-of-town participants)	
Implementation	Venue	
workshop (3 days) or	Food/refreshments	
planning meetings	Audio-visual equipment	
	Supplies and stationary	
Cumulian and complete	Translation costs	
Supplies and services	Communication costs	
Subtotal		
	Phase 2 – STEPS Field Work	
	Trainers	
	IT specialist/Data Manager	
	Translators if required during the training	
Personnel	Salary or per diem for interviewers (including mapping and listing, and data collection)	
	Salary or per diem for field team supervisors (including mapping and listing, and data collection)	
	Salary or per diem for Step 3 data collectors (blood	
	testing) and lab technician (urine testing)	
	Honoraria for field guides or village councilors	
	Salary or per diem for drivers	
	Salary or per diem for additional staff hired for the survey	

T * *4	Phase 2 – STEPS Field Work, continued	<u> </u>
Line item	Subline item	Cost
	Transportation costs for training	
<b>.</b>	Venue of the training	
Data collector's	Accommodation of the training participants	
training	Meals and refreshments during the training	
	Photocopying/printing of training materials, forms for	
	field work and show-cards	
	Transportation costs (bus, train, planes etc.)	
	Vehicle Rental for the household mapping and listing	
	Vehicle Rental for the pretest	
Transportation	Vehicle Rental for the full survey data collection - Field	
	Teams	
	Vehicle Rental for the full survey data collection -	
	Monitoring	
	Petrol	
	Android devices for data collection with cables	
	External battery packs	
	Laptops for data checks	
	Carry bags for equipment	
	Devices for height and weight measurement	
	Constant tension tape	
	Digital blood pressure monitor	
Survey equipment	Devices for blood testing	
our vey equipment	Test strips for blood testing	
	Lancets, capillary tubes for collection of the right	
	amount of blood, cotton balls, gloves, disposable	
	containers	
	Containers for urine samples	
	Carrier boxes for transport of urine samples	
	Spare batteries for equipment	
	Transport of urine samples to laboratory	
Additional costs for	Urine sample analysis	
urine analysis	·	

Line item	Subline item	Cost
Phase 3 – STEPS Data Management, Analysis and Report writing		
	Trainers	
	IT specialist/Data Manager and Analysis Team	
Personnel	Technical focal points for report writing and proof reading	
	Layout of the report	
	Translators	
	Transportation costs for workshop	
D-41	Venue of the workshop	
Data analysis and	Accommodation of the workshop participants	
reporting workshop	Meals and refreshments during the workshop	
	Supplies and stationary	
	Report/Fact Sheet layout and printing	
Data dissemination	Translation of the Fact Sheet and Report	
	Costs related to an official Fact Sheet/release event	
Subtotal		
Phase 4 – Ap	plication and Program Planning Workshop (Data to Ac	tion)
Line item	Subline item	Cost
Personnel	Workshop organizers	
reisonnei	Workshop participants	
	Transportation costs for workshop	
	Venue of the workshop	
Application and	Accommodation of the workshop participants	
Program Planning	Meals and refreshments during the workshop	
Workshop	Supplies and stationary	
	Communication costs	
	Workshop report printing and layout	
Subtotal		
GRAND TOTAL		

## **Ethical Approval Form**

## **General Information**

Introduction						
Survey tile	The title of the proposed survey is:					
	[Country name] STEPS NCD Risk Fact	or Survey.				
Key personnel	A STEPS coordinating committee has been set up to oversee and manage th planning, preparation and implantation of the proposed survey and includes the following people.					
	Name	Organization and qualifications				
Dates	The proposed survey dates are:					
	Phase	Dates				
	Start Date					
	Completion Date					
	Survey duration (including planning,	6 - 9 months				
	field work, analysis and reporting)					

## **Scientific Assessment**

Introduction		
Scientific basis		
Summary of report		

### **Survey Scope**

## Introduction

#### Goals

Identify the planned goals or use for the information gathered. For example, as a contribution to ongoing data collection to:

- Describe the current levels of risk factors for NCDs in this population
- Track the direction and magnitude of trends in risk factors
- Plan or evaluate a health promotion or preventive campaign
- Collect data from which to predict likely future demands for health services

#### **Objectives**

Specify objectives that support gathering 'essential' information only.

## Overview of scope

Specify the scope of survey to be conducted i.e. Step 1, Step 2 and Step 3, plus coverage of core, expanded and optional items.

#### Sampling

Identify the sample size and sample frame that will be used. Describe the sampling methodology.

## Geographical coverage

Identify geographical coverage of the survey.

#### Resources

Describe resources that:

- are required,
- have already been committed, and
- are expected, including support from WHO.

## Cultural/ethical issues

Describe any aspects of the survey that might raise specific cultural or ethical issues.

## Reporting and use of results

Describe:

- To whom and how the results will be reported and disseminated;
- Any restrictions on results;
- Confidentiality of personal identification information;
- Use of results once the survey is complete;
- Methods for informing and involving community leaders and community groups in the STEPS survey project.

Continued on next page

## Survey Scope, Continued

### Budget

Provide a detailed budget that includes:

- total funds required for each year planned to implement all STEPS activities as identified in the Scope;
- source of funds;
- funding gap.

Item	USD

## **Declarations**

Introduction	
Declaration by principal investigator	The information supplied in this application is, to the best of my knowledge and belief, accurate. I have considered the ethical issues involved in this research and believe that I have adequately addressed them in this application I understand that if the protocol for this research changes in any way I must inform the Research Ethics Review Committee.
	Name: Signature:
	Date:
Declaration by head of department	I have read the application and believe it to be scientifically and ethically sound. I approve the research design. I give my consent for the application to be forwarded to the Ethics Committee.
	Name:
	Signature:
	Date:
	<b>Note:</b> Where the head of department is also one of the investigators, the head of department declaration must be signed by the appropriate Dean, or relevant

senior officer.

### Section 2: Forms for STEPS Field Work

### **Overview**

### Introduction

This section includes some document templates that can be used during the STEPS Field Work.

### In this section

This section contains the following forms for use during the survey.

Topic	See Page
Notification of WHO STEPS Survey Visit	6-2-2
Script for Data Collectors	6-2-3
Interview Tracking Form	6-2-4
Participant Information Form (Step 1, 2 and 3)	6-2-5
Consent Form 1 (Steps 1 and 2)	6-2-8
Consent Form 2 (Step 3)	6-2-9
Participant Feedback Form (Step 2)	6-2-10
Participant Feedback Form (Step 3)	6-2-11
BMI Classification Chart	6-2-13
Step 3 Appointment Card	6-2-14
Instructions for Spot Urine Collection (Step 3)	6-2-15
Fasting Instructions (Step 3)	6-2-17
Step 3 Registration Form	6-2-18

## **Notification of WHO STEPS Surveillance Visit**

Notif	ication of WHO STEPS	Survey Visit					
Today Ministry of Health employees visited your household to conduct a survey of people between the ages of 18 to 69 on health issues. We will try to return on the date indicated below. If this is not convenient, please contact us to make a suitable time for the survey.							
Date of Visit							
Household Number							
Next Visit	Day/Date:	Time:					
Contact							
[name of country] Ministry of Health, [address]

**Notification of WHO STEPS Survey Visit** 

### **Script for Data Collectors**

My name is \_\_\_\_\_ and this is\_\_\_\_\_. We are employees of the <Ministry of Health>and we are working in a team to conduct a survey on health issues. We are hoping that the people in this house will participate in this survey. We would like to find out the number of people usually residing in this house between the ages of 18-69. Can you please give me the first name of those who usually live in this house between the ages 18-69 (starting, for example, with the oldest male)?

## **Interview Tracking Form**

Cluster No.
Interviewer ID

old ID ber ible in	ant ID	ant ID	ant ID	At	Home		Ma	ale			Fe	male	<b>.</b>	Sto	ер 1	Sto	ер 2	Sto	ер 3	tment ne	Individual Comment
Household ID Number No. Eligible in Household	Participant ID		Visit 2	18-29	30-44	45-59	69-09	18-29	30-44	45-59	69-09	Yes	Decline	Yes	Decline	Yes	Decline	Appointment Time			

### Note:

- Fill in form by using "y/n" for <u>At home</u> (corresponds with participant at home yes/no) and using an "x" for the correct responses in <u>Male</u>, <u>Female</u>, <u>Step 1</u>, <u>Step 2</u>, <u>Step 3</u>"

### Participant Information Form (Step 1, 2 and 3)

#### Introduction

This form describes what participation in the WHO STEPS survey means.

#### Title of survey

The title of this survey is the STEPS Survey of Risk Factors for Noncommunicable Diseases (NCDs)

## Aim of the survey

This survey will determine the extent in [name of country] of several of the major risk factors for major NCDs (e.g. diseases not caused by infections). These diseases and their risk factors include:

- Tobacco use
- Alcohol consumption
- Low intake of fruit and vegetables
- Diet high in salt
- Physical inactivity
- Raised blood pressure
- Obesity
- Raised blood glucose
- High levels of fat in the blood

## Data collection methods

We will collect information from [insert sample size] participants throughout the area in which the survey is being conducted.

Information will be gathered through 3 steps of data collection:

- Step 1 Interview questions
- Step 2 Measurements of blood pressure, height, weight, waist and hip
- Step 3 Urine tests for salt and blood tests for sugar and fats

## What's involved

The table below shows each of the steps involved. You will be given time to consider your participation.

Step	Action						
1	We will describe the STEPS survey to you.						
2	You may ask any questions you may have.						
3	We will ask you to sign a consent form.						

Continued on next page

## Participant Information Form (Step 1, 2 and 3), Continued

#### What's involved (cont.)

Step	Action							
4	You will be asked to participate in Step 1. This will involve a data							
	collector asking you some questions about your:							
	• Age							
	• Education							
	• Employment and income							
	Tobacco and alcohol use							
	• Fruit and vegetable intake							
	• Consumption of salt							
	Physical activity							
	• History of raised blood pressure, diabetes, raised cholesterol, and							
	cardio-vascular diseases							
	Lifestyle advice							
	Cervical cancer screening							
5	You will then be asked to participate in Step 2. This will involve a							
	data collector taking some simple measurements of your:							
	Blood pressure							
	• Height							
	• Weight							
	Waist and hip circumference							
6	You will also be asked to participate in Step 3. This will involve							
	you collecting a urine sample that will be tested for salt, and health							
	staff taking a small amount of blood from the tip of your finger to							
	test for sugar and fat levels in your blood after you have fasted							
	overnight. This may cause some mild pain.							

#### **Timeframe**

It is estimated that Step 1 and 2 of the survey will take approximately 1 hour.

## **Community** benefits

The results of this study will be used to assist the Ministry of Health in developing public health programmes that target efforts to lower the risk factors that lead to NCDs.

#### Your rights

It is your right to:

- decline to take part in the study;
- withdraw your consent at any time;
- decline to answer any question in the interview that you do not wish to answer.

Continued on next page

## Participant Information Form (Step 1, 2 and 3), Continued

#### **Confidentiality**

You will be asked to provide your name and contact information so that you can be contacted if there is any need to follow up with you after the survey is conducted.

Your participation and data provided will be completely confidential.

Your name will not be used in any report of the study.

#### **Results**

The results of this survey will be used to help plan strategies in reducing the risk factors that contribute to NCDs in your community.

The results will be published in research publications, media briefings, fact sheets, and reports and can be made available to you through the local researchers.

## Ethical approval

This study has received ethical approval from the Research Ethics Review Committee of [insert name of institution and of location].

## Consent Form 1 (Steps 1 and 2)

Dear Participant	·, -								
Random selection									
Confidentiality	The information you provide is totally <u>confidential</u> and will not be disclosed to anyone. It will only be used for research purposes. Your name, address, and other personal information will be removed, and only a code will be used to connect your name and your answers without identifying you. You may be contacted by the survey team again only if it is necessary to complete the information on the survey.								
Voluntary participation	Your participation is <u>voluntary</u> and you can withdraw from the survey after having agreed to participate. You are free to refuse to answer any question that is asked in the questionnaire. If you have any questions about this survey you may ask me or contact [name of institution and contact details] or [STEPS Survey Coordinator].								
Consent to participate	Signing this consent indicates that you and are willing to participate	t you understand what will be expected of in this survey.

### **Consent Form 2 (Step 3)**

Dear	Par	ticii	oant
Dour	1 41		Juit

## Random selection

You have been randomly selected to be part of this survey and this is why we would like to interview you. This survey is conducted by the World Health Organization in collaboration with the Ministry of Health and the WHO Regional Office and will be carried out by professional interviewers from [name of institution]. This survey is currently taking place in several countries around the world.

#### Confidentiality

The information you provide is totally <u>confidential</u> and will not be disclosed to anyone. It will only be used for research purposes. Your name, address, and other personal information will be removed, and only a code will be used to connect your name and your answers without identifying you. You may be contacted by the Survey Team again only if it is necessary to complete the information on the survey.

## Voluntary participation

Your participation is <u>voluntary</u> and you can withdraw from the survey after having agreed to participate. You are free to refuse to answer any question that is asked in the questionnaire. If you have any questions about this survey you may ask me or contact [name of institution and contact details] or [STEPS Survey Coordinator].

## What's involved

You will be asked to collect a urine sample to be tested for salt, and you will have a small amount of blood taken from the tip of your finger to be tested for sugar and fat after you have fasted overnight. This may cause some mild pain. You will be informed about the results of the test with your blood sample.

## Consent to participate

Signing this consent indicates that you understand what will be expected of you and are willing to participate in this survey.

Read by Participant	Interviewer	
Agreed	Refused	

#### **Signatures**

I hereby provide INFORMED CONSENT to take part in Step 3 of the Risk Factor Study.

Name:	Sign:	
Witness:	Sign:	

## Participant Feedback Form (Step 2)

Dear Participant,									
We thank you very much for participating in the STEPS Survey of Risk Factors for Noncommunicable Diseases in [name of country], conducted by [name of institution]. This study was undertaken in order to gather information on the following risk factors for noncommunicable diseases in [name of country]: tobacco use, alcohol consumption, low intake of fruit and vegetables, diet high in salt, physical inactivity, raised blood pressure, obesity, raised blood glucose, and high levels of blood cholesterol.									
We would like to provide you with an overview of your results from the physical measurements.									
<b>Blood pressure</b>	Systolic: mmHg (reading 3)								
	Diastolic: mmHg (reading 3)								
Blood pressure classification	<ul> <li>Normal (SBP&lt; 140 and DBP&lt; 90)</li> <li>Elevated (SBP 140-159 and/or DBP 90-99)</li> <li>Raised (SBP≥160 and/or DBP≥100)</li> <li>Currently on medication</li> </ul>								
Heart rate	Beats per minute: (reading 3)								
Height	Height:cm								
Weight	Weight: kg								
Body Mass Index BMI classification	BMI: kg/m² (weight in kg divided by height in meters squared; ex. for height 170 cm and weight 68 kg BMI=(68/(1.7²)=23.5)  ☐ Underweight (BMI< 18.5)  ☐ Normal weight (BMI 18.5-24.9)  ☐ Overweight (BMI 25-29.9)  ☐ Obese (BMI≥30)								
Waist circumference Hip circumference	Waist: cm  Hip: cm								

## Participant Feedback Form (Step 3 – mmol/L)

Dear Participant,								
We thank you very much for participating in the STEPS Survey of Risk Factors for Noncommunicable Diseases in [name of country], conducted by [name of institution]. This study was undertaken in order to gather information on the following risk factors for noncommunicable diseases in [name of country]: tobacco use, alcohol consumption, low intake of fruit and vegetables, diet high in salt, physical inactivity, raised blood pressure, obesity, raised blood glucose, and high levels of blood cholesterol.								
We would like to measurements.	provide you with an overview of your results from the biochemical							
Fasting blood glucose	Fasting blood glucose: mmol/l							
Fasting blood glucose classification	<ul> <li>Normal (&lt; 6.1 mmol/l)</li> <li>Raised (≥6.1 mmol/l)</li> <li>Currently on medication</li> </ul>							
Total blood cholesterol	Total cholesterol: mmol/l							
Total blood cholesterol classification	<ul> <li>Normal (&lt;5.0 mmol/l)</li> <li>Elevated (5.0-6.1 mmol/l)</li> <li>High (≥6.2 mmol/l)</li> </ul>							
HDL cholesterol	HDL cholesterol: mmol/l							
HDL cholesterol classification	<ul> <li>Normal (≥1.03 mmol/l for Men, ≥ 1.29 mmol/l for Women)</li> <li>Low (&lt; 1.03 mmol/l for Men, &lt; 1.29 mmol/l for Women)</li> </ul>							
Triglycerides	Triglycerides: mmol/l							
Triglycerides classification	<ul><li>Normal (&lt;1.7 mmol/l)</li><li>Raised (≥1.7 mmol/l)</li></ul>							

## Participant Feedback Form (Step 3 - mg/dL)

Dear Participant,	
Noncommunicable This study was ur noncommunicable of fruit and vegeta	ry much for participating in the STEPS Survey of Risk Factors for le Diseases in [name of country], conducted by [name of institution]. Indertaken in order to gather information on the following risk factors for le diseases in [name of country]: tobacco use, alcohol consumption, low intake lables, diet high in salt, physical inactivity, raised blood pressure, obesity, lose, and high levels of blood cholesterol.
We would like to measurements.	provide you with an overview of your results from the biochemical
Fasting blood glucose Fasting blood glucose	Fasting blood glucose: mg/dl  Normal (<110 mg/dl)
classification	<ul><li>□ Raised (≥110 mg/dl)</li><li>□ Currently on medication</li></ul>
Total blood cholesterol	Total cholesterol: mg/dl
Total blood cholesterol classification	<ul> <li>Normal (&lt;190 mg/dl)</li> <li>Elevated (190-239 mg/dl)</li> <li>High (≥240 mg/dl)</li> </ul>
HDL cholesterol	HDL cholesterol: mg/dl
HDL cholesterol classification	<ul> <li>Normal (≥40 mg/dl for Men, ≥50 mg/dl for Women)</li> <li>Low (&lt;40 mg/dl for Men, &lt;50 mg/dl for Women)</li> </ul>
Triglycerides	Triglycerides: mg/dl
Triglycerides classification	<ul><li>Normal (&lt;150 mg/dl)</li><li>Raised (≥150 mg/dl)</li></ul>

Height (cm)

Underweight (<18.5)

Normal weight (18.5-24.9)

Overweight (25-29.9)

Obese (30-39.9)

Morbidly Obese (≥ 40)

## **Step 3 Appointment Card**

### APPOINTMENT TIME

Thank you for agreeing to participate in the STEPS survey.

 Participant ID:

 APPOINTMENT

 Centre:

 Date:

 Time:

PLEASE BRING THIS FORM WITH YOU WHEN YOU COME FOR AN APPOINTMENT

## **Instructions for Spot Urine Collection (Step 3)**

INSTRUC	CTIONS FOR SPOT URINE COLLECTION	DATE:
1	We are asking you to collect a sample of your urine (pee) in the evening before you commence your fast.	(e)
2	When you go the bathroom (toilet) void urine (pee) into the container. Once the container is half full finish voiding in the toilet. Screw on the lid tightly and place the container in the zip closable plastic bag (do not remove labels).  Write down the time you collect your sample	The angles
	TIME OF COLLECTION: Place container filled with urine (pee) in a zip	
(3)	closable plastic bag and store upright in a cool, dark place.	
4	Bring your container filled with urine in the zip closable plastic bag and this instruction sheet to the collection centre	
If there is a	nything you are unsure about please contact:	

#### Frequently Asked Questions

### Why do I have a participant identification number (ID)?

An ID number will be assigned to your information and samples to ensure confidentiality.

### Why is it important to complete a spot urine sample?

The spot sample will allow us to determine information related to the salt intake in your diet.

### What are you testing in the urine sample?

A number of nutritional factors including sodium and creatinine [optional potassium/iodine].

### Will the urine sample be tested for drugs?

No. Your urine sample will only be analysed for nutritional markers.

### What happens if I spill some urine?

It is important that spillages do not occur, however simply clean up the spillage.

#### I take prescribed medications - can I still take part?

Yes you can.

### Do I still take my medications on the day I provide my urine sample?

Yes, absolutely.

#### Do I need to fill up the container?

No, half full is perfect.

#### What if I have my period?

We ask that you use a tampon, if available, when collecting your urine samples; otherwise we ask you not to participate.

#### What if I am feeling sick?

Please collect the urine sample if you are able to.

#### Is there any health risks involved in providing a urine sample?

No - there is no risk to your health or the health of others.

### Where do I keep my urine container?

It is best to keep the container and contents in a cool, dark place.

### Will insurance companies or any other body find out my results?

No.

### **Fasting Instructions (Step 3)**

#### Introduction

To get accurate results from the blood test it is very important that you have fasted.

## **Fasting instructions**

Please ensure that you DO NOT have anything to eat or drink including chewing gum (except plain water) for at least 8 hours (12 hours if triglycerides are also measured) BEFORE blood collection. This means that if you have your appointment in the morning, please do not eat or drink after 10:00 PM the night before the appointment.

## Note for diabetics

If you have diabetes controlled with tablets and/or insulin, please AVOID taking these on the morning of your appointment, but bring them with you to take after testing is completed. Please take any other morning medications as usual.

## **Step 3 Registration Form**

Participant ID If did not fast properly, appointment of next Date Consent Name form (place a  $\sqrt{\ }$ ) visit

## Section 3: Reporting Templates (Fact Sheet, Fact Sheet Analysis Guide, Data Book and Country Report Template)

### **Overview**

### Introduction

This section includes templates that can be used to report both the comprehensive and summary results of the STEPS survey.

#### In this section

This section contains the following Report Templates:

Topic	See Page
Fact Sheet Template	6-3A-1
Fact Sheet Analysis Guide	6-3B-1
Data Book Template	6-3C-1
Country Report Template	6-3D-1

### <Country> STEPS Survey <year>

### **Fact Sheet**

The STEPS survey of noncommunicable disease (NCD) risk factors in [country name] was carried out from [insert month and year] to [insert month and year]. [country name] carried out Step 1, Step 2 and Step 3. Socio demographic and behavioural information was collected in Step 1. Physical measurements such as height, weight and blood pressure were collected in Step 2. Biochemical measurements were collected to assess blood glucose and cholesterol levels in Step 3. The survey was a population-based survey of adults aged 18-69 [adjust as necessary]. A [insert type of sampling design] sample design was used to produce representative data for that age range in [insert country name]. A total of [insert sample size] adults participated in the survey. The overall response rate was [insert response rate (x%)]. A repeat survey is planned for [insert year] if funds permit.

Results for adults aged 18-69 years (incl. 95% CI) (adjust if necessary)	Both Sexes	Males	Females
Step 1 Tobacco Use			•
Percentage who currently smoke tobacco	<b>77.1%</b> (66.2 – 88.1)	<b>77.2%</b> (66.2 – 88.1)	<b>77.4%</b> (66.2 – 88.1)
Percentage who currently smoke tobacco daily			
For those who smoke tobacco daily			_
Average age started smoking (years)			
Percentage of daily smokers smoking manufactured cigarettes			
Mean number of manufactured cigarettes smoked per day (by smokers of manufactured cigarettes)			
Step 1 Alcohol Consumption			·
Percentage who are lifetime abstainers			
Percentage who are past 12 month abstainers			
Percentage who currently drink (drank alcohol in the past 30 days)			
Percentage who engage in heavy episodic drinking (6 or more drinks on any occasion in the past 30 days)			
Step 1 Diet			•
Mean number of days fruit consumed in a typical week			
Mean number of servings of fruit consumed on average per day			
Mean number of days vegetables consumed in a typical week			
Mean number of servings of vegetables consumed on average per day			
Percentage who ate less than 5 servings of fruit and/or vegetables on average per day			
Percentage who always or often add salt or salty sauce to their food before eating or as they are eating			
Percentage who always or often eat processed foods high in salt			
Step 1 Physical Activity			•
Percentage with insufficient physical activity (defined as < 150 minutes of moderate-intensity activity per week, or equivalent)*			
Median time spent in physical activity on average per day (minutes) (presented with inter-quartile range)			
Percentage not engaging in vigorous activity			

<sup>\*</sup> For complete definitions of insufficient physical activity, refer to the GPAQ Analysis Guide (<a href="http://www.who.int/chp/steps/GPAQ/en/index.html">http://www.who.int/chp/steps/GPAQ/en/index.html</a>) or to the WHO Global recommendations on physical activity for health (<a href="http://www.who.int/dietphysicalactivity/factsheet\_recommendations/en/index.html">http://www.who.int/dietphysicalactivity/factsheet\_recommendations/en/index.html</a>)

### <Country> STEPS Survey <year >

### **Fact Sheet**

Results for adults aged 18-69 years (incl. 95% CI) (adjust if necessary)	Both Sexes	Males	Females
Step 1 Cervical Cancer Screening			
Percentage of women aged 30-49 years who have ever had a screening test for cervical cancer			
Step 2 Physical Measurements			
Mean body mass index - BMI (kg/m²)			
Percentage who are overweight (BMI ≥ 25 kg/m²)			
Percentage who are obese (BMI ≥ 30 kg/m²)			
Average waist circumference (cm)			
Mean systolic blood pressure - SBP (mmHg), including those currently on medication for raised BP			
Mean diastolic blood pressure - DBP (mmHg), including those currently on medication for raised BP			
Percentage with raised BP (SBP ≥ 140 and/or DBP ≥ 90 mmHg or currently on medication for raised BP)			
Percentage with raised BP (SBP ≥ 140 and/or DBP ≥ 90 mmHg or currently on medication for raised BP) who are not currently on medication for raised BP			
Step 3 Biochemical Measurement			*
Mean fasting blood glucose, including those currently on medication for raised blood glucose [choose accordingly: mmol/L or mg/dl]			
Percentage with impaired fasting glycaemia as defined below  • plasma venous value ≥6.1 mmol/L (110 mg/dl) and <7.0 mmol/L (126 mg/dl)  • capillary whole blood value ≥5.6 mmol/L (100 mg/dl) and <6.1 mmol/L (110 mg/dl)			
Percentage with raised fasting blood glucose as defined below or currently on medication for raised blood glucose  • plasma venous value ≥ 7.0 mmol/L (126 mg/dl)  • capillary whole blood value ≥ 6.1 mmol/L (110 mg/dl)			
Mean total blood cholesterol, including those currently on medication for raised cholesterol [choose accordingly: mmol/L or mg/dl]			
Percentage with raised total cholesterol (≥ 5.0 mmol/L or ≥ 190 mg/dl or currently on medication for raised cholesterol)			
Mean intake of salt per day (in grams)			
Cardiovascular disease (CVD) risk			
Percentage aged 40-69 years with a 10-year CVD risk ≥ 20%, or with existing CVD**			
Summary of combined risk factors			
	rweight (BMI ≥ 25		
	ed BP (SBP ≥ 14) rently on medicati		U mmHg or
Percentage with none of the above risk factors	,		
Percentage with three or more of the above risk factors, aged 18 to 44 years			
Percentage with three or more of the above risk factors, aged 45 to 69 years			
Percentage with three or more of the above risk factors, aged 18 to 69 years			
** A 10-year CVD risk of >20% is defined according to age, sex, blood pressure, smoki			

<sup>\*\*</sup> A 10-year CVD risk of ≥20% is defined according to age, sex, blood pressure, smoking status (current smokers), total cholesterol, and previously diagnosed diabetes.

For additional information, please contact: STEPS Survey Coordinator [name, email addresses]

### Country STEPS Survey <year>

### **Fact Sheet Analysis Guide**

Please use this as a guide when you are altering your instrument as it will provide you with a guideline for which questions are needed in order to calculate these basic indicators.

To calculate the basic indicators that are presented on the Fact Sheet refer to the Data Analysis section of the user manual (Part 4, Section 3)

Results for adults aged 18-69 years (incl. 95% CI) (adjust if necessary)	Questions required to calculate result (based on coding column)	Epi Info Program Name
Step 1 Tobacco Use		
Percentage who currently smoke tobacco	T1, T2, T8	TsmokestatusWT
Percentage who currently smoke tobacco daily	T1, T2, T8	TsmokestatusWT
For those who smoke tobacco daily		
Average age started smoking (years)	T1, T2, T3, T4a-c	TsmokeagetimeWT
Percentage of daily smokers smoking manufactured cigarettes	T1, T2, T5a	TsmokemanWT
Mean number of manufactured cigarettes smoked per day (by smokers of manufactured cigarettes)	T1, T2, T5a	TsmoketypeWT
Step 1 Alcohol Consumption		
Percentage who are lifetime abstainers	A1, A2, A5	AconsumptionWT
Percentage who are past 12 month abstainers	A1, A2, A5	AconsumptionWT
Percentage who currently drink (drank alcohol in the past 30 days)	A1, A2, A5	AconsumptionWT
Percentage who engage in heavy episodic drinking (6 or more drinks on any occasion in the past 30 days)	A1, A2, A5, A9	AepisodicWT
Step 1 Diet		
Mean number of days fruit consumed in a typical week	D1, D3	DdaysWT
Mean number of servings of fruit consumed on average per day	D1, D2, D3, D4	DservingsWT
Mean number of days vegetables consumed in a typical week	D1, D3	DdaysWT
Mean number of servings of vegetables consumed on average per day	D1, D2, D3, D4	DservingsWT
Percentage who ate less than 5 servings of fruit and/or vegetables on average per day	D1, D2, D3, D4	DfiveormoreWT
Percentage who always or often add salt or salty sauce to their food before eating or as they are eating	D5	DeatingWT
Percentage who always or often eat processed foods high in salt	D7	DprocessedWT
Step 1 Physical Activity		
Percentage with insufficient physical activity (defined as < 150 minutes of moderate-intensity activity per week, or equivalent)*	P1-P15b	PnotmeetingrecsWT
Median time spent in physical activity on average per day (minutes)	P1-P15b	PtotalmedianWT
Percentage not engaging in vigorous activity	P1-P15b	PnovigorousWT
Step 1 Cervical Cancer Screening		
Percentage of women aged 30-49 years who have ever had a screening test for cervical cancer	CX1	HcervcancerWT

<sup>\*</sup> For complete definitions of low and high levels of physical activity, other conditions are specified in the GPAQ Analysis Guide, available at: <a href="http://www.who.int/chp/steps/GPAQ/en/index.html">http://www.who.int/chp/steps/GPAQ/en/index.html</a>

### **WHO STEPS**

### Noncommunicable Disease Risk Factor Survey

DATA BOOK FOR <INSERT COUNTRY NAME>

### **Table of Contents**

Introduction	3
Sampling and Response Proportions	6
Demographic Information Results	
Tobacco Use	
Alcohol Consumption	34
Diet	50
Physical Activity	61
History of Raised Blood Pressure	72
History of Diabetes	75
History of Raised Total Cholesterol	
History of Cardiovascular Diseases	81
Lifestyle Advice	
Cervical Cancer Screening	85
Physical Measurements	86
Biochemical Measurements	95
Cardiovascular disease risk	105
Summary of Combined Risk Factors	108

#### **IMPORTANT:**

- ALL analyses use the variables **AgeRange**, **Sex**, and **Valid**. You may use the AgeRange1869 and MissingAgeSex programs to generate these variables from **C1**, **C2**, and **C3**.
- ALL weighted programs use the variables **PSU**, **Stratum**, and one of either **WStep1**, **WStep2**, or **WStep3**.
- Unweighted tables will not have confidence intervals associated with them.

### Introduction

### Purpose of the data book

This data book is a tool used to compile a complete set of data results relating to each question and measurement in the STEPS Instrument. The STEPS data book

- Provides detailed information for the data analyst on producing the results for the tables.
- Provides examples of which tables to use in the country report.
- Provides examples and suggestions on the layout of tables.

### Format of the data book

Each page in the data book contains a different table with:

- Title and description of the table
- Data tables for men, women and both sexes
- Questions used to produce the table (actual question text)
- Analysis information (Epi Info program name to produce the table).

Global Action Plan 2013-2020 and Global Monitoring Framework STEPS captures 11 of the 25 indicators outlined in the Global Action Plan 2013-2020 and the Comprehensive Global Monitoring Framework for the Prevention and Control of NCDs<sup>1</sup>, relating to 7 of the 9 global targets.

Indicators captured in STEPS are marked in **bold** and *italic* in the table below.

Tables in the data book relating to the Global Monitoring Framework Tables in the data book relating to the Global Monitoring Framework are identified with this symbol:

<sup>&</sup>lt;sup>1</sup> World Health Organization. Global action plan for the prevention and control of NCDs 2013-2020. Geneva: World Health Organization; 2013.

Framework Element	Target	Indicator
MORTALITY AND	MORBIDITY	
Premature mortality from noncommunicable disease	A 25% relative reduction in the overall mortality from CVDs, cancer, diabetes, or chronic respiratory diseases	Unconditional probability of dying between ages of 30 and 70 from cardiovascular diseases, cancer, diabetes or chronic respiratory diseases
Additional indicator		2. Cancer incidence, by type of cancer, per 100 000 population
BEHAVIOURAL RI	SK FACTORS	
Harmful use of alcohol	2. At least 10% relative reduction in the harmful use of alcohol, as appropriate, within the national context	Total (recorded and unrecorded) alcohol per capita (aged 15+ years old) consumption within a calendar year in litres of pure alcohol, as appropriate, within the national context      Age-standardized prevalence of heavy episodic drinking among
		adolescents and <i>adults</i> , as appropriate, within the national context  5. Alcohol-related morbidity and mortality among adolescents and adults,
		as appropriate, within the national context
Physical inactivity	A 10% relative reduction in prevalence of insufficient physical activity	6. Prevalence of insufficiently physically active adolescents, defined as less than 60 minutes of moderate to vigorous intensity activity daily
		7. Age-standardized prevalence of insufficiently physically active persons aged 18+ years (defined as less than 150 minutes of moderate-intensity activity per week, or equivalent)
Salt/sodium intake	4. A 30% relative reduction in mean population intake of salt/sodium	8. Age-standardized mean population intake of salt (sodium chloride) per day in grams in persons aged 18+ years
Tobacco use	5. A 30% relative reduction in prevalence of current tobacco use	9. Prevalence of current tobacco use among adolescents
		10. Age-standardized prevalence of current tobacco use among persons aged 18+ years
BIOLOGICAL RISK	FACTORS	
Raised blood pressure	6. A 25% relative reduction in the prevalence of raised blood pressure or contain the prevalence of raised blood pressure, according to national circumstances	11. Age-standardized prevalence of raised blood pressure among persons aged 18+ years (defined as systolic blood pressure ≥140 mmHg and/or diastolic blood pressure ≥90 mmHg) and mean systolic blood pressure
Diabetes and obesity	7. Halt the rise in diabetes & obesity	12. Age-standardized prevalence of raised blood glucose/diabetes among persons aged 18+ years (defined as fasting plasma glucose concentration ≥ 7.0 mmol/l (126 mg/dl) or on medication for raised blood glucose)
		13. Prevalence of overweight and obesity in adolescents (defined according to the WHO growth reference for school-aged children and adolescents, overweight – one standard deviation body mass index for age and sex, and obese – two standard deviations body mass index for age and sex)
		14. Age-standardized prevalence of overweight and obesity in persons aged 18+ years (defined as body mass index $\geq$ 25 kg/m <sup>2</sup> for overweight and body mass index $\geq$ 30 kg/m <sup>2</sup> for obesity)
Additional indicators		15. Age-standardized mean proportion of total energy intake from saturated fatty acids in persons aged 18+ years
		16. Age-standardized prevalence of persons (aged 18+ years) consuming less than five total servings (400 grams) of fruit and vegetables per day
		17. Age-standardized prevalence of raised total cholesterol among persons aged 18+ years (defined as total cholesterol ≥5.0 mmol/l or 190 mg/dl); and mean total cholesterol concentration

Framework Element	Target	Indicator
NATIONAL SYSTE	MS RESPONSE	
Drug therapy to prevent heart attacks and strokes	8. At least 50% of eligible people receive drug therapy and counselling (including glycaemic control) to prevent heart attacks and strokes	18. Proportion of eligible persons (defined as aged 40 years and older with a 10-year cardiovascular risk ≥30%, including those with existing cardiovascular disease) receiving drug therapy and counselling (including glycaemic control) to prevent heart attacks and strokes
Essential noncommunicable disease medicines and basic technologies to treat major noncommunicable diseases	9. An 80% availability of the affordable basic technologies and essential medicines, including generics required to treat major noncommunicable diseases in both public and private facilities	19. Availability and affordability of quality, safe and efficacious essential noncommunicable disease medicines, including generics, and basic technologies in both public and private facilities
Additional indicators		20. Access to palliative care assessed by morphine-equivalent
		21. Adoption of national policies that limit saturated fatty acids and virtually eliminate partially hydrogenated vegetable oils in the food supply, as appropriate, within the national context and national programmes
		22. Availability, as appropriate, if cost-effective and affordable, of vaccines against human papillomavirus, according to national programmes and policies
		23. Policies to reduce the impact on children of marketing of foods and non- alcoholic beverages high in saturated fats, trans fatty acids, free sugars, or salt
		24. Vaccination coverage against hepatitis B virus monitored by number of third doses of Hep-B vaccine (HepB3) administered to infants
		25. Proportion of women between the ages of 30–49 screened for cervical cancer at least once, or more often, and for lower or higher age groups according to national programmes or policies

### **Sampling and Response Proportions**

**Response** Description: Summary results for overall response proportions.

Response proportions											
		Men			'	Vomen			Вс	th Sexe	es
Age Group (years)	Eligible	ligible Responded		Eligible Responded			Eligible Respond		onded		
(years)	n n	%		n	n	%		n	n	%	
18-29											
30-44											
45-59											
60-69											
18-69											

### **Analysis Information:**

• Use the age and sex information for the non-responders (if available) plus the Epi Info program Cagesex.

### **Demographic Information Results**

Age group by sex

Description: Summary information by age group and sex of the respondents.

Instrument question:

- Sex
- What is your date of birth?

Age group and sex of respondents									
Age Group		en		Women			Both Sexes		
Age Group _ (years)	n	%		n	%		n	%	
18-29

Frequency of impaired control over

drinking

Description: Frequency of not being able to stop drinking once started during the past 12 months among past 12 month drinkers.

Instrument questions:

- Have you consumed any alcohol within the past 12 months?
- How often during the past 12 months have you found that you were not able to stop drinking once you had started?

Frequency	Frequency of not being able to stop drinking once started during the past 12 months among past 12 month drinkers

#### **Physical Activity**

#### Introduction

A population's physical activity (or inactivity) can be described in different ways. The two most common ways are

(1) to estimate a population's mean or median physical activity using a continuous indicator such as MET-minutes per week or time spent in physical activity, and (2) to classify certain percentages of a population in specific groups by setting up cut-points for a specific amount of physical activity.

When analyzing GPAQ data, both continuous as well as categorical indicators are used.

#### Metabolic Equivalent (MET)

METs (Metabolic Equivalents) are commonly used to express the intensity of physical activities, and are also used for the analysis of GPAQ data.

Applying MET values to activity levels allows us to calculate total physical activity. MET is the ratio of a person's working metabolic rate relative to the resting metabolic rate. One MET is defined as the energy cost of sitting quietly, and is equivalent to a caloric consumption of 1 kcal/kg/hour. For the analysis of GPAQ data, existing guidelines have been adopted: It is estimated that, compared to sitting quietly, a person's caloric consumption is four times as high when being moderately active, and eight times as high when being vigorously active.

Therefore, for the calculation of a person's total physical activity using GPAQ data, the following MET values are used:

Domain	MET value
Work	• Moderate MET value = 4.0
	• Vigorous MET value = 8.0
Transport	Cycling and walking MET value = 4.0
Recreation	• Moderate MET value = 4.0
	• Vigorous MET value = 8.0

WHO global recommendations on physical activity for health

For the calculation of the categorical indicator on the recommended amount of physical activity for health, the total time spent in physical activity during a typical week and the intensity of the physical activity are taken into account.

Throughout a week, including activity for work, during transport and leisure time, adults should do at least

- 150 minutes of moderate-intensity physical activity OR
- 75 minutes of vigorous-intensity physical activity OR
- An equivalent combination of moderate- and vigorous-intensity physical activity achieving at least 600 MET-minutes.

Former recommendations for comparison purposes For comparison purposes, tables presenting cut-offs from former recommendations are also included in GPAQ data analysis.

The three levels of physical activity suggested for classifying populations were low, moderate, and high. The criteria for these levels are shown below.

#### • High

A person reaching any of the following criteria is classified in this category:

- Vigorous-intensity activity on at least 3 days achieving a minimum of at least 1,500 MET-minutes/week OR
- 7 or more days of any combination of walking, moderate- or vigorous-intensity activities achieving a minimum of at least 3,000 MET-minutes per week.

#### Moderate

A person not meeting the criteria for the "high" category, but meeting any of the following criteria is classified in this category:

- 3 or more days of vigorous-intensity activity of at least 20 minutes per day OR
- 5 or more days of moderate-intensity activity or walking of at least 30 minutes per day OR
- 5 or more days of any combination of walking, moderate- or vigorous-intensity activities achieving a minimum of at least 600 MET-minutes per week.

#### • Low

A person not meeting any of the above mentioned criteria falls in this category.

Not meeting WHO recommendations on physical activity for health ("Insufficient physical activity")

Description: Percentage of respondents not meeting WHO recommendations on physical activity for health (respondents doing less than 150 minutes of moderate-intensity physical activity per week, or equivalent).

- Epi Info program name: Mraisedbp (unweighted); MraisedbpWT (weighted)

Blood pressure diagnosis, treatment and control Description: Raised blood pressure diagnosis, treatment and control among those with raised blood pressure (SBP  $\geq$  140 and/or DBP  $\geq$  90 mmHg) or on medication for raised blood pressure.

#### Instrument questions:

- Have you ever had your blood pressure measured by a doctor or other health worker?
- Have you ever been told by a doctor or other health worker that you have raised blood pressure or hypertension?
- During the past two weeks, have you been treated for raised blood pressure with drugs (medication) prescribed by a doctor or other health worker?
- Reading 1-3 systolic and diastolic blood pressure

#### Introduction to intake of salt per day

Levels of sodium and creatinine in spot urine samples are used in STEPS to estimate population 24 hour salt intake, using the INTERSALT equation:

Estimated 24 hour sodium (Na) intake in mmol for males: 23.51+0.45\*spot Na concentration (mmol/L) -3.09\*spot creatinine concentration (mmol/L)+4.16\*BMI+0.22\*Age

Estimated 24 hour sodium (Na) intake in mmol for females: 3.74+0.33\* spot Na concentration (mmol/L)-2.44\* spot creatinine concentration (mmol/L)+2.42\* BMI +2.34\* Age -0.03\* Age ^2

The 24 hour sodium values in mmol are divided by 17.1 in order to get grams of salt.

## WHO recommendation

The WHO recommendation is less than 5 grams of salt or 2 grams of sodium per person per day.

### Intake of salt per day

Description: Mean intake of salt in grams per day among all respondents

#### Instrument question:

- Are you pregnant?
- Had you been fasting prior to urine collection?
- Urinary sodium measurement
- Urinary creatinine measurement

	Mean salt intake (g/day)

40-69									

<sup>\*</sup> A 10-year CVD risk of  $\geq$ 20% is defined according to age, sex, smoking status, blood pressure, history of diabetes, total cholesterol, and body mass index.

# **Analysis Information:**

- Questions used: C1, C2, C3, T1, H6, H7a, H17, M4a, M5a, M6a, M7, B1, B8
- Epi Info program name: Please contact the STEPS team.

Drug therapy and counseling for those with CVD risk ≥20% or existing CVD Description: Percentage of eligible persons (defined as aged 40-69 years with a 10-year cardiovascular disease (CVD) risk\* ≥20%, including those with existing CVD) receiving drug therapy and counseling\*\* (including glycaemic control) to prevent heart attacks and strokes.

Instrument questions: combined from Step 1, 2 and 3

- Gender, age
- Smoking status
- Systolic blood pressure measurements
- History of diabetes
- Total cholesterol measurements
- Body mass index

Percentage	Percentage of eligible persons receiving drug therapy and counseling to prevent heart attacks and strokes								
Age Group	Men		Men		Women		Both Sexes		
(years)	n	%	95% CI	n	%	95% CI	n	%	95% CI
40-54									
55-69									
40-69									

<sup>\*</sup> A 10-year CVD risk of ≥20% is defined according to age, sex, smoking status, blood pressure, history of diabetes, total cholesterol, and body mass index.

### **Analysis Information:**

- Questions used: C1, C2, C3, T1, T8T10, T11a-c, H6, H7a, H8, H9, H13a, H14, H17, H18, H19, H20a-f, M4a, M5a, M6a, M7, B1, B8
- Epi Info program name: Please contact the STEPS team.

Part 6: Templates and Forms Section 3C: Data Book Template

<sup>\*\*</sup>Counseling is defined as receiving advice from a doctor or other health worker to quit using tobacco or not start, reduce salt in diet, eat at least five servings of fruit and/or vegetables per day, reduce fat in diet, start or do more physical activity, maintain a healthy body weight or lose weight.

# **Summary of Combined Risk Factors**

Summary of Combined Risk Factors Description: Percentage of respondents with 0, 1-2, or 3-5 of the following risk factors:

- Current daily smoking
- Less than five servings of fruit and/or vegetables per day
- Not meeting WHO recommendations on physical activity for health (<150 minutes of moderate activity per week, or equivalent)
- Overweight or obese (BMI  $\geq 25 \text{ kg/m}^2$ )
- Raised BP (SBP ≥ 140 and/or DBP ≥ 90 mmHg or currently on medication for raised BP).

Instrument questions: combined from Step 1 and Step 2

	Summary of Combined Risk Factors						
				Men			
Age Group (years)	n	% with 0 risk factors	95% CI	% with 1-2 risk factors	95% CI	% with 3-5 risk factors	95% CI
18-44							
45-69							
18-69							

	Summary of Combined Risk Factors						
				Women			
Age Group (years)	n	% with 0 risk factors	95% CI	% with 1-2 risk factors	95% CI	% with 3-5 risk factors	95% CI
18-44							
45-69							
18-69							

	Summary of Combined Risk Factors						
				<b>Both Sexes</b>	1		
Age Group (years)	n	% with 0 risk factors	95% CI	% with 1-2 risk factors	95% CI	% with 3-5 risk factors	95% CI
18-44							
45-69							
18-69							

### **Analysis Information:**

- Questions used: T1, T2, D1-D4, P1-P15b, M4a-M6b, M7, M8, M11, M12
- Epi Info program name: Raisedrisk (unweighted); RaisedriskWT (weighted)

# [Country] STEPS Report [year]

# **Cover and Content Pages**

#### Introduction

The cover and content pages at the front of the STEPS country report provide the formal information needed for library indexing and purchasing, and give the reader an idea of the structure and content of the report.

# **Content guide**

Follow the guidelines in the table below to help prepare the title page and other leading pages.

Part	Include
Title page	• title of the report
	• authors' names
	• institution(s) involved
	• release date
Publication details	• copyright details
	• publishing and indexing information
	• address to obtain further copies
	• citation of the report
Table of Contents	• part and/or section headings with page numbers
	• sub level headings
	• appendices
	• list of tables
	• list of figures
Other leading	• list of abbreviations or terms used
pages (optional)	• brief notes about the authors
	• preface or foreword from a leading authority who endorses the report
Acknowledgments	• all sponsors, including government and other bodies
	• consultants and advisers
	• staff who have contributed to the survey and the
	report
	• others providing services and/or support
	• participants in the survey

# **Executive Summary**

### Introduction

The executive summary provides an overview of the entire report in one to two pages. It should outline the rationale, methodology, key results and recommendations.

# **Content guide**

Follow the guidelines in the table below to help complete the sections of the executive summary.

Heading	Guidelines for completion
Rationale	Outline the main reasons for the STEPS survey.
Methodology	Briefly describe:
	• the scope of the survey;
	• the sampling method used;
	• methods of data collection and data analysis;
	• how the results are presented, for example "weighted to represent the total national population aged 18 to 69 years".
Key results	Briefly describe the study population and its
	characteristics.
	Mention response-rates.
	• Select the most important variables (chosen according
	to those of most relevance to NCDs in your country)
	and present the key results for those variables.
	<ul> <li>Mention the other variables that are also included in the report, but limit results for them.</li> </ul>
Conclusion /	• Identify the reasons why the findings are important,
Recommendations	and the impact they are likely to be having on the
	health of the population.
	Briefly discuss how the results may be useful and
	recommended actions.

# Introduction

#### Introduction

The introduction should include introductory comments to the report, outlining the background and purpose for your STEPS survey, and provide a brief description of STEPS and what the survey results will be used for.

### **Content guide**

Follow the guidelines in the table below to help complete the sections of the introduction.

Heading	Guidelines for completion
Introduction	• Introduce the STEPS Country Report as the main report of your STEPS survey.
Background	<ul> <li>Provide the reader with background information on NCDs and their risk factors in your country.</li> <li>Include previous surveys that have been done as well as gaps in knowledge with regards to NCDs and their risk factors.</li> <li>Describe the relevance of each risk factor/item that will be captured by your STEPS survey.</li> </ul>
Description of STEPS	• Provide a brief description of what STEPS is (i.e. surveillance of key risk factors for NCDs).
Purpose	• Explain the general purpose as well as specific objectives of the STEPS survey in your country.

# **Methods**

#### Introduction

The methods should explain the scope of the STEPS survey, the methods used for data collection, and the implementation process. Also describe the sample and analytical methods in sufficient detail to demonstrate that the survey results are reliable and represent the intended population(s).

# **Content guide**

Follow the guidelines in the table below to help complete the methods section.

Heading	Guidelines for completion
Scope	• Identify which core Steps (1-3) were covered and if any expanded and optional items have been added.
Study population	<ul> <li>Explain who the results/findings will be representative for (Geographical coverage, age-groups, general population).</li> <li>Mention inclusion/exclusion criteria (e.g., pregnant women excluded for height and weight</li> </ul>
	<ul><li>measurements).</li><li>If the whole country was not covered, explain the reasons.</li></ul>
Sample size	Explain how the initial sample size was calculated.
Sampling	<ul> <li>Describe the sampling method used for the survey</li> <li>Mention what sampling frame was used.</li> <li>Describe how the sampling units were derived, and how this was applied in the field.</li> <li>Detail the use of clusters (if relevant).</li> </ul>
Timeframes	<ul> <li>Include information on the overall starting and completion dates of the survey.</li> <li>Specify dates/seasons of data collection.</li> </ul>
Staff recruitment and training	<ul> <li>Describe the training programmes provided for the survey personnel, the number of persons trained, and the background of trainees.</li> <li>Describe the format, content and duration of the training provided for the survey.</li> </ul>
Pilot study	<ul> <li>Mention whether a pilot study was done before conducting the actual survey.</li> <li>Explain how the pilot study has been conducted.</li> </ul>

Continued on next page

# **Content guide (cont.)**

Heading	Guidelines for completion
Instrument and data	• Describe the STEPS Instrument used.
collection	• Describe how the measurements (Step 2 and 3) were done.
	• Outline which core and expanded items were covered.
	• Describe any adaptations made to the standard STEPS Instrument and any optional items added.
	• Mention if/add pictures of show-cards that have been used.
	• Specify languages used (and translation issues) in the survey.
	Describe the organization of data collection teams including supervision, numbers involved, quality control, timeframe for data collection, etc.
	• Explain how and where the data collection teams made contact with survey participants. Describe the data collection setting(s).
	Describe electronic devices for data collection, including automatic skip patterns and error checks.
Data downloading	Describe the data download processes during the field work for data quality checking.
	• Describe the data download processes at the end of the field work to compile the final dataset.
Analysis information	<ul> <li>Describe the data analysis processes, methods (such as cleaning of data), timeframes and software used.</li> <li>Refer to the software capability to handle complex sampling design.</li> </ul>
	• Explain that most results generated are presented as means or percentages, with associated standard errors and derived confidence intervals.
	• Describe which methods (i.e. weighting) were used to adjust the results for non-response, population structure and the sampling design so they represent the
	population.  • Insert the weighting formulas used.
	Describe which statistical tests were used, if any, to
	test for differences between groups.
Response proportions	Describe how response proportions were calculated.

# **Results**

#### Introduction

The results should describe the actual sample obtained and the levels of participation achieved. Describe the demographic characteristics of the participants, as well as the results for each risk factor covered in the Instrument.

# Demographic and response information

Follow the guidelines in the table below to help prepare information on demographics and response proportions of the results section.

Heading	Guidelines for completion
Demographic characteristics	• Describe the demographic characteristics of the participants, using the data book for examples.
	<ul><li>Include:</li><li>age-sex distribution</li></ul>
	<ul><li>geographic distribution</li><li>ethnic groups.</li></ul>
Population distribution	• Show the age groups and sex distribution of the population at the last census if available, e. g., in a pyramid chart.
Response proportions	• Present the response proportions achieved for Step 1, 2, and 3 as appropriate, using the data book for examples.

Continued on next page

# Results, Continued

#### **Risk factors**

Present results for each of the following individual risk factors covered in the Instrument:

- tobacco use
- alcohol consumption
- unhealthy diet (low fruit and vegetable consumption, diet high in salt)
- insufficient physical activity
- overweight and obesity
- raised blood pressure
- raised blood glucose
- abnormal blood lipids.

# Risk factor content guide

Follow the guidelines in the table below to help prepare content for each of the risk factors listed above.

Heading	Guidelines for completion
Text description of	• State the main findings in relation to each risk factor.
main findings	• Describe any key subgroup differences, e.g., based on confidence intervals.
	• Refer for detail to specific tables from the data book.
Tables and figures	<ul> <li>Present in tables, plots or graphs as appropriate the results, by age and sex groups. Use the data book as a guide on how to present information in tables.</li> <li>Include sample sizes (n) for all age- and sex groups presented.</li> <li>Label carefully to identify if the data are weighted.</li> <li>Include measures of confidence when appropriate (confidence intervals or standard errors).</li> </ul>
Additional	Describe in words any interesting results.
description	• If these vary by age or sex, then consider presenting separately.

Continued on next page

# Results, Continued

# Combined risk factors

Follow the guidelines in the table below to help prepare content on combined risk factors.

Heading	Guidelines for completion
Relevance of combining risk factors	<ul> <li>Briefly outline the relevance of looking at a combination of risk factors in your country.</li> <li>See data book and fact sheet for the risk factors to combine.</li> </ul>
Text description of main findings	<ul> <li>State the main findings in relation to both low risk (none of the risk factors present) and raised risk (presence of three or more of the selected risk factors).</li> <li>Describe any key subgroup differences. Refer for detail to specific tables from the data book.</li> </ul>
Tables	<ul> <li>Present in tables, plots or graphs as appropriate the results, by age and sex group. Use the data book as a guide on how to present information in tables.</li> <li>Include sample sizes (n) for all age- and sex groups presented.</li> <li>Label carefully to identify if the data are weighted.</li> <li>Include measures of confidence when appropriate (confidence intervals or standard errors).</li> </ul>
Additional description	<ul><li>Describe in words any interesting results.</li><li>If these vary by age or sex, then consider presenting separately.</li></ul>

# **Discussion**

#### Introduction

In this part of the STEPS report, any new knowledge derived from the STEPS survey as well as importance of the findings should be discussed. Discuss the strengths and weaknesses of the methods used and the results presented, and any reservations in their interpretation or use.

# **Content guide**

Follow the guidelines in the table below to help prepare content of the discussion.

Heading	Guidelines for completion
Representation	• Comment on the extent to which the results apply to the whole population or only to the individuals who were surveyed (depends on if data are weighted).
Comment on participation	Discuss the impact on the interpretation of results of any sampling or participation issues such as:  • the participation levels varied between population groups such as older vs. younger men;  • recruiting did not proceed as planned and a nonrandom sample was selected.
Key results and new knowledge	Repeat key results, mention their importance and how they can be used for prevention planning and to formulate policy. Include, for example:  • what was known before about these topics for this population?  • what is added by this report?  • what are the key new findings of importance and why are these important?  • what impact will these have on the health of the population, in particular in respect to the burden of NCDs either currently or in the future?
Previous surveys	Mention any previous STEPS surveys or similar surveys and how the findings relate.
Limitations and strengths	<ul> <li>Comment on the quality of the survey and measures, and therefore their reliability.</li> <li>Identify where issues have arisen during data collection or analysis that may mean caution is needed when interpreting some results.</li> <li>Also mention the strengths of the survey, such as representativeness, Step 2 and 3 measurements, etc.</li> </ul>

# **Conclusions and Recommendations**

#### Introduction

The conclusion and recommendations should wrap up the STEPS report and indicate briefly how results should be used and what should be the next steps following the survey.

### **Content guide**

Follow the guidelines in the table below to help prepare the conclusion and recommendations.

Heading	Guidelines for completion
Conclusion	The conclusion should briefly summarize the most
	important findings and explain their importance.
Recommendations	Include, for example:
	<ul> <li>policies that might be impacted upon by these findings;</li> </ul>
	• actions that should derive from these findings;
	<ul> <li>who should be appraised of the findings</li> </ul>
	• any further research that is recommended to be undertaken.

# References

#### Introduction

The reference section should contain a reference list of any sources used to write the report.

Note: All figures used in the report that are not the results of the current survey need to have accompanying references in the reference section of the report.

# **Appendices**

Appendix A	Country-specific STEPS Instrument
Appendix B Show cards used	
Appendix C	Survey Implementation Plan
Appendix D	Fact Sheet
Appendix E	Data Book
