Members expressed interest in forming a TWG that would focus on UN action at country level and would be aligned with the UN Road Safety Collaboration. A letter from the UN Secretary General's Special Envoy for Road Safety, Jean Todt, expressing support for further UN action around Road Safety was welcomed.
6. Members received a summary of Joint Programming Missions held since the Fifth Meeting, including updates from countries that had hosted missions, as well as information on upcoming missions (Paraguay, Kyrgyzstan, Oman, Istanbul). The Task Force welcomed a presentation from a representative of the Barbados UNCT on UN action in Barbados following the 2015 Joint Programming Mission. Progress with past missions and their follow-up was noted and welcomed, including a specific follow-up report from Barbados focusing on post-mission achievements. Draft country summaries for each country that has received a Joint Mission were shared by WHO and UNDP and were welcomed by Members.

7. It was agreed that sustainable financing was now needed to ensure countries can follow up Joint Mission recommendations.

### **C. STRENGTHENING THE ROLE OF UN COUNTRY TEAMS IN SUPPORT OF IMPLEMENTING WHO FCTC**

13. Members reviewed the matrix of UN agency responsibilities in supporting implementation of the WHO FCTC initially included in the Secretary General's report to the ECOSOC on the activities of the UN Ad Hoc Inter-Agency Task Force on Tobacco Control in 2012. However, this global commitment needs to be translated into actions at country level. Members agreed that there was an opportunity now to encourage UN country teams to do more to support countries implement the WHO FCTC as part of the post-2015 development agenda. UNDP shared a draft of potential activities developed together with the Convention Secretariat for UNCT action, which Members endorsed.

14. Participants also agreed to a proposal by the Convention Secretariat to develop factsheets with Task Force Members that describes each agency's comparative advantage in supporting countries to implement the WHO FCTC.

#### **Action:**

**C1.** *WHO FCTC Secretariat to follow up with each agency to prepare a one pager with points for implementation of treaty where agency has a comparative advantage, including references to COP decisions or text in treaty and protocol where agency is mentioned, taking into consideration the areas of allocated responsibility for UN agencies in implementing the FCTC drawn up in 2012 and approved by ECOSOC (WHO FCTC Secretariat with all Members).*

18. Members were updated on the fact sheet on NCDs, gender and human rights. UNDP, WHO and OHCHR will report back on progress at the Seventh Meeting.
19. WHO briefed Members on plans for a new visual identity for NCDs. 21. WHO presented a review on industry's interference among Task Force Members and Members noted examples of agency action to protect themselves from such influence. Members also noted concerns that some Members were not as proactive in reducing such interference and that this should be reflected in the 2016 report to ECOSOC.
22. The Convention Secretariat proposed a model policy for agencies of the United Nations system on preventing tobacco industry interference based on Article 5.3 of the Convention and relevant guidelines adopted by the CoP. Members agreed to provide comments on the policy by the end of April 2016, with a view to its adoption at the Seventh meeting. Members agreed to highlight this activity in the 2016 report to ECOSOC.

The Convention Secretariat and UNDP described a joint report they had prepared that focuses on WHO FCTC and describes national coordinating mechanisms in governance in sub-Saharan Africa, analyzing the involvement of different sectors and highlights the need for clearly identified tobacco control focal points. The report made recommendations for policymakers to institutionalize these entities or improve existing ones.

## I. KNOWLEDGE MANAGEMENT UNDER THE WHO FCTC

25. Members were reminded that Parties to the WHO FCTC are mandated to report every second year to the COP, through the Convention Secretariat, on their implementation of the Convention. The Convention Secretariat described the WHO FCTC Indicator Compendium, available at the Convention's website. The Task Force discussed Parties' compliance with reporting against some of the indicators and agreed that there was often lack of data in the country or lack of accessibility. Members agreed that some of these data (e.g. those on tobacco growing, manufacturing, trade, taxation, and prices) could be made more widely available through the regular monitoring systems of United Nations agencies.
26. The Convention Secretariat presented a summary table of indicators, requesting support for data sharing, analysis and collection and integration into the surveillance. It was agreed that this would be an important work stream under the new Surveillance TWG.

A video developed by the WHO South East Asia Office on the problems raised by tobacco growing and the importance of looking for alternative livelihoods was shown to the Task Force. The video addressed aspects of tobacco farming which raise concerns regarding child labor, gender equity and, challenges regarding human rights and sustainable development.
