# Public Concerns Related to COVID-19- Audio Content

---

## Medium

Audio content

## Brief description

This is a set of short [explainer audio content](#) that address [public concerns](#) related COVID-19 safety and security measures.

The audio content also seeks to explain different facets of the COVID-19 pandemic and the response mechanisms.

## Language

Nepali

## Format

Each audio capsule is an answer to one question. Each interview is in a discussion format between the interviewee and interviewer. The answers are based on MoHP and WHO guidance on the topic but drafted in words that would be understandable to a wide audience.

## Duration

The audio content range in duration from 40 seconds to 5 minutes. The relatively short duration for this category of audios allows listening on mobile phones and on social media.

## Primary audience

Public of Nepal

## Ideas for additional application

These audio content can be

- Used as regular broadcast programs on radio channels.
- Integrated into podcasts.
- Integrated into lectures, talks, and teaching material for students.
- Used as explainer audio content for media interactions and moderated Q&A discussions.
- Be provided to health desks, hospitals, and institutions, and they can be played in the lobby/reception area/social media of offices and organizations.

## Value-add

This audio content attempts to counter rumours, allay concerns and clarify misinformation using the science and evidence that is currently available on COVID-19, in a language that is accessible to a wide audience.

## Topics/ Hashtags

#RiskCommunication, #CommunityEngagement, #WHO, #WHONepal, #HealthEmergency, #HealthForAll, #Misinformation, #Concerns, #PublicHealth, #PublicHealthStandards, #NoDiscrimination, #PublicConcerns.

## Publication date

27 January 2021
