LEADERSHIP IN THE SPOTLIGHT

NURSING AND MIDWIFERY GLOBAL COMMUNITY OF PRACTICE

DR SOUMYA SWAMINATHAN

Chief Scientist
World Health Organization

Dr Soumya Swaminathan, initially a paediatrician from India and globally recognized for her research on tuberculosis and HIV, brings with her over 30 years' experience in not only clinical care and research but also leadership. Her career has been centred around bringing science and evidence-based practice into health policy making. Dr Soumya comes with a wealth of accolades including publishing over 350 peer-reviewed publications and book chapters, elected Foreign Fellow of the US National Academy of Medicine and three science academies in India. We will be talking to her about how she came to be the first Chief Scientist at the World Health Organization and what advice she would give to the future leaders of nursing and midwifery around the world.
