Coronavirus COVID-19

The Ministry of Health and the Council of Psychologists activate a phone for the population affected by COVID19

Este servicio de atención psicológica ha comenzado a prestar servicio con tres números de teléfono diferenciados, dirigidos a familiares de enfermos o fallecidos por el coronavirus, profesionales con intervención directa en la gestión de la pandemia y población en general.

9 to 22h

Healthcare professionals requested psychological intervention

9% of the 11.000 calls

Representing < 2% of the Spanish population

High risk group for psychopathological disorders during the pandemic

High exposure to the event
22,3% infected were HCP

Losses among colleagues

30% vs 12%

Around 80 deaths

Scarce number of psychologists in the NHS

6 psychologists/100.000
(EU: 18/100.000)

the phone is filling a gape
