“Global Patient Safety Report 2024”

Thursday, 30 May 2024

14:00 – 15:30 CEST

[Click to register](#)

- This first ever WHO Global report on Patient Safety offers a comprehensive overview of patient safety measures globally, aligned with the Global Patient Safety Action Plan 2021–2030.
- It includes detailed analyses and summaries that highlight the burden of unsafe care and the strategies different countries are using to improve safety in health care.
- Case studies and feature stories provide insights and lessons on effective patient safety practices and priority areas for action.
- At this webinar, we will **launch Global Patient Safety Report 2024** and disseminate key findings on implementation of patient safety globally”
