

Outcome text	Output code	Output description
Strategic objective 1. Respond to climate change, an escalating health threat in the 21st century		
Joint outcome 1.1 More climate-resilient health systems are addressing health risks and impacts		
	1.1.1	WHO supports countries in developing health vulnerability and adaptation assessments and national adaptation plans, and provides guidance, capacity-building and piloting of interventions to enhance the climate resilience of health systems through a One Health approach
Joint outcome 1.2 Lower-carbon health systems and societies are contributing to health and well-being		
	1.2.1	WHO develops norms, standards, policy guidance and strengthens capacity in countries to reduce greenhouse gases and other pollutants from the health sector, and to engage other sectors (such as food, transport, energy, education) to reduce their emissions
Strategic objective 2. Address health determinants and the root causes of ill health in key policies across sectors		
Joint outcome 2.1 Health inequities reduced by acting on social, economic, environmental and other determinants of health		
	2.1.1	WHO supports countries in designing policies and regulations, shaping resource allocation and investment building capacity, and establishing partnerships within and beyond the health sector to address social determinants and reduce health inequities, particularly for populations in situations of vulnerability
	2.1.2	WHO supports countries in developing evidence-informed policies across sectors at all levels of government and adapts public health measures to meet the health needs of populations such as migrants and displaced people
Joint outcome 2.2. Priority risk factors for noncommunicable and communicable diseases, violence and injury, and poor nutrition reduced through multisectoral approaches		
	2.2.1	WHO develops norms, standards and technical packages to address risk factors for communicable and noncommunicable diseases, violence and injuries, prevent poor nutrition and strengthen food safety and reduce environmental health risks, and supports countries in their implementation, including in the monitoring and development of legislation and regulations
	2.2.2	WHO supports countries to ensure comprehensive access to promotion and preventive health services for populations (such as tobacco and alcohol cessation services, physical activity counselling and nutrition counselling, including for breastfeeding), and to monitor their implementation
Joint outcome 2.3. Populations empowered to control their health through health promotion programmes and community involvement in decision-making		
	2.3.1	WHO develops guidance and supports countries to strengthen their capacity to engage with and empower individuals and communities and all levels of government across sectors to increase health literacy, enable healthier behaviours, advance co-benefits and improve the governance and implementation of settings-based approaches and health promotion policies
Strategic objective 3. Advance the primary healthcare approach and essential health system capacities for universal health coverage		
Joint outcome 3.1 The primary healthcare approach renewed and strengthened to accelerate universal health coverage		
	3.1.1	WHO strengthens country capacity and provides guidance on the design, delivery, quality and measurement of integrated services
	3.1.2	WHO strengthens national institutional capacities for essential public health functions to improve health systems resilience
	3.1.3	WHO strengthens countries' national capacity to develop implementable national strategies for universal health coverage

Outcome text	Output code	Output description
Joint outcome 3.2 Health and care workforce, health financing and access to quality-assured health products substantially improved		
	3.2.1	WHO provides technical guidance and operational support to countries to optimize and expand their health and care workforce
	3.2.2	WHO generates evidence, guides design and supports health-related macroeconomic policies and practices for sustainable health financing
	3.2.3	WHO supports countries to implement measures for better access to, and use of, safe, effective and quality-assured health products
Joint outcome 3.3 Health information systems strengthened, and digital transformation implemented		
	3.3.1	WHO builds country capacity and develops tools and platforms to support countries in developing and improving their national digital health and health information systems to improve resilience, coverage, equity and impact
Strategic objective 4. Improve health service coverage and financial protection to address inequity and gender inequalities.		
Joint outcome 4.1 Equity in access to quality services improved for noncommunicable diseases, mental health conditions and communicable diseases, while addressing antimicrobial resistance		
	4.1.1	WHO develops evidence-based policies and supports the implementation, scale-up and measurement of best buys and other actions to strengthen person-centred prevention, control and management of noncommunicable diseases
	4.1.2	WHO supports the design, scale-up, implementation and measurement of the coverage of people-centred, equitable services for key mental health, neurological and substance use conditions
	4.1.3	WHO provides leadership, develops evidence-based guidance and standards, and supports Member States to build capacity to deliver targeted, innovative and integrated people-centred services for communicable diseases
	4.1.4	WHO develops and disseminates guidance and tools to mitigate antimicrobial resistance, collects and reports data for action, raises awareness, guides research and innovation, builds country and regional capacity to implement a core package of interventions, and coordinates global multisectoral action
Joint outcome 4.2. Equity in access to sexual, reproductive, maternal, newborn, child, adolescent and older person health and nutrition services and immunization coverage improved		
	4.2.1	WHO provides guidance and technical assistance to improve sexual, reproductive, maternal, newborn, child, adolescent, adult and older person health
	4.2.2	WHO provides guidance and technical assistance to strengthen and sustain quality immunization services, including for poliomyelitis, especially for unvaccinated and undervaccinated persons
Joint outcome 4.3. Financial protection improved by reducing financial barriers and out-of-pocket health expenditures, especially for the most vulnerable		
	4.3.1	WHO provides guidance and technical assistance and strengthens capacity to track and analyse health expenditures at the system level to monitor financial hardship and financial barriers to access and inform decision-making for financial and social health protection
Strategic objective 5. Prevent, mitigate and prepare for risks to health from all hazards		
Joint outcome 5.1 Risks of health emergencies from all hazards reduced and impact mitigated		
	5.1.1	WHO collaborates with partners to communicate risks and engage with communities to co-create public health prevention and response interventions for all hazards
	5.1.2	WHO provides technical expertise and operational support to strengthen and scale preventive population and environmental public health interventions for all hazards, utilizing a One Health approach

Outcome text	Output code	Output description
Joint outcome 5.2 Preparedness, readiness and resilience for health emergencies enhanced		
	5.2.1	WHO conducts risk and capacity assessments and supports the development and implementation of national preparedness and readiness plans, including tailored prevention and mitigation strategies for specific hazards
	5.2.2	WHO establishes and manages collaborative research networks for fast-track research and development, scalable manufacturing and resilient supply chain systems to enable timely and equitable access to medical countermeasures during health emergencies
	5.2.3	WHO provides technical expertise and operational support to strengthen and scale clinical care for emergencies, including infection prevention and control measures to protect health workers and patients
Strategic objective 6. Rapidly detect and sustain an effective response to all health emergencies		
Joint outcome 6.1 Detection of and response to acute public health threats is rapid and effective		
	6.1.1	WHO strengthens surveillance and alert systems, including diagnostics and laboratory capacities, for the effective monitoring of public health threats and the rapid detection, verification, risk assessment and grading of public health events
	6.1.2	WHO coordinates rapid and effective responses to acute public health threats, including deploying multisectoral response capacities, surging emergency supplies and logistics support, providing contingency financing, and implementing strategic and operational response plans
Joint outcome 6.2 Access to essential health services during emergencies is sustained and equitable		
	6.2.1	WHO coordinates and leads the health cluster or sector and partners to assess health needs and develop, fund and monitor humanitarian health emergency response plans in humanitarian emergencies
	6.2.2	WHO ensures the provision of life-saving care and maintains essential health services and systems in emergencies and vulnerable settings, addressing barriers to access and inequity
Powering the global health agenda		
Corporate outcome 1: Effective WHO health leadership, through convening, agenda-setting, partnerships and communications, advances the sustainably financed GPW 14 outcomes and the goal of leaving no one behind		
	7.1.1	Convening, advocating and engagement with Member States and key constituencies in support of health governance and to advance health priorities
	7.1.2	Effectively communicating to promote evidence-informed planning for decision-making for interventions and healthy behaviours in countries
	7.1.3	Effective results-based management realized through a sustainably financed programme budget aligned with evidence-informed country, regional and global priorities, supported by transparent resource allocation and robust monitoring and performance assessment
Corporate outcome 2: Timely delivery, expanded access and uptake of high-quality WHO normative, technical and data products enable health impact at country level		
	7.2.1	Evidence-based and quality-assured normative products, including the living approach, are developed with and for countries, are digitally accessible and used for health, policy and practice impact
	7.2.2	Strengthening national and regional science ecosystems to improve health and provide opportunities and equity, active support for the digital health transformation, research, development and innovation, including manufacturing capacities of countries
	7.2.3	WHO supports Member States in strengthening health information collection, aggregation, analysis and interpretation to monitor trends and progress towards Sustainable Development Goals indicators and targets, including inequality monitoring

Outcome text	Output code	Output description
Optimizing WHO's performance		
Corporate outcome 3: An efficiently managed WHO with strong oversight and accountability and strengthened country capacities better enables its workforce, partners and Member States to deliver the GPW 14 outcomes		
	8.1.1	Policies, rules and regulations in place to attract, recruit and retain a diverse, empowered and fit-for-purpose workforce, operating in a respectful and inclusive workplace with Organizational change fully institutionalized
	8.1.2	Core capacities of WHO country and regional offices strengthened to drive measurable impact at country level
	8.1.3	Accountability and legal functions enhanced in a transparent, compliant and risk management-driven manner, promoting Organizational learning, effective internal justice, safety and impact at the country level
	8.1.4	Fit-for-purpose, cost-effective, innovative and secure corporate digital platforms and services aligned with the needs of users, corporate functions and technical programmes
	8.1.5	Working environments, infrastructure, support services, supply chains and asset management are fit-for-purpose, accountable, cost-effective, innovative and secure for optimized operations
	8.1.6	Sound financial practices supported by an effective internal control framework to ensure transparency, accountability and optimal financial management
