

# Pandemic Influenza Prepared Framework Review

Dr Christine M Kaseba  
Chair of the Review Group

# What is PIP?

- Adopted by WHA65 (2011)
- Ambitious & innovative public health arrangement **to increase global preparedness to respond to pandemic influenza**
  - Improve sharing of influenza viruses with pandemic potential with GISRS
  - Ensure access to vaccines and other life saving products during a pandemic
- Brings together Member States, industry, civil society organizations, other key stakeholders, and WHO

## Review background

---

- First review guided by Section 7.4.2
- 8 expert members
- All six WHO regions represented
- Good gender balance

# Method of work

---

## → Three main themes

- Virus sharing
- Benefit sharing
- Governance and linkages with instruments

## → Key questions

- Achievements
- Preparedness capacity
- Collateral benefit
- Challenges
