

PERUVIAN NATIONAL REPORT
22th INTERNATIONAL ADVISORY COMMITTEE MEETING
Geneva, Switzerland, 28-30 June 2017

I. RESEARCH ACTIVITIES

The Ministry of Transports and Communications has continued its nationwide program on NIR measurements including the capital city Lima and other cities located in 24 regions with nearly 3690 places.

II. PUBLIC INFORMATION ACTIVITIES

The Ministry of Transports and Communications, several regional and local governments and the University of San Marcos had been conducting several conferences on NIR including 11 fora in some Peruvian cities and towns in order to disseminate the status on NIR research and regulation in Peru with nearly 3000 participants.
