

## 2023 International Advisory Committee (IAC) Meeting on Non-Ionizing Radiation- 6-8 June 2023 – Geneva, Switzerland Answers to preparatory questions

### EMF – Report on activities in Sweden

- Research activities related to EMF and health

The Swedish Radiation Safety Authority (SSM) is currently conducting measurements of RF-EMF in urban environments, continuing its ongoing environmental monitoring in this area. The SSM scientific council for electromagnetic fields and health risks is actively working on its eighteenth report. All reports can be found on the website of SSM:

<https://www.stralsakerhetsmyndigheten.se/om-myndigheten/sa-arbetar-vi/rad-och-namnder/vetenskapligt-rad-for-elektromagnetiska-falt/>

- New relevant policies and legislations

There are no new relevant policies or legislations to report at this time.

- New communication activities

Currently, communication efforts primarily involve interviews with the media to give information about EMF-related topics. Additionally, during the beginning of autumn this year, SSM plans to release a podcast episode focusing on EMF measurements and health risk assessment.
