15:35 - 18:10	Session 4	International Cooperation for Global Health Security <small>CHAIRS Z. CARR and IAEA rep (TBC)</small> <ul style="list-style-type: none">IAEA updates on relevant work H. Tatsuzaki IAEA (by. Zoom)ICRP TG/120 report update Chunsheng Li ICRP TG / 120Recent achievements and ongoing programme of work of the Working party on Nuclear Emergency Matters Ye ZHANG NEA/OECD (by. Zoom)IHR implementation in the Western Pacific region: radiation emergencies Q.Y. Khut WHO-WPRO (by. Zoom)GHSI Playbook on nuclear emergency response N. Coleman GHSI-RNWG (by. video)Q&A
18:10 -	Reception Dinner	

DAY 2 | 14. Thu

Time		Talk Title
09:00 - 10:30	Session 5	Twelve years after Fukushima Daiichi NPP accident <small>CO-CHAIRS S. Yamashita and N. Takamura</small> <ul style="list-style-type: none">On site nuclear disaster response and preparedness; radiation risk during the recent decommissioning work and future preparedness A. Hasegawa FMU, N. Hirohashi Hiroshima UniversityDose evaluation of the NPP workers during Fukushima accident response T. Miura Hiroaki UniversityThyroid study in Fukushima nuclear emergency workers M. Imazumi RERFOffsite consequences of the Fukushima nuclear accident: recovery and return to the hometown after evacuation N. Takamura and H. Matsunaga Nagasaki UniversityFukushima Health Management Survey after Fukushima Daiichi NPP accident S. Yasumura Fukushima Medical UniversityCapability and capacity building based on experience from the Fukushima accident M. Fukahori and T. Tominaga NIRS / QST
10:30 - 11:00	Coffee Break	
11:00 - 12:30	Session 6	Radiation injuries diagnosis and clinical management <small>CHAIRS N. Dainiak and R. Tamarat</small> <ul style="list-style-type: none">The role of stem cell transplantation in ARS in 2023 U. Schanz FOPH, Switzerland (by. video)Access to cytokines in hematology hospitals in Europe and other countries M. Benteritter IRSN, FranceRITN updates on ARS management preparedness in the USA J. Aldrich RITN, USAFrench experience with local radiation injuries: biomarkers and new treatment R. Tamarat IRSN, FranceClinical and experimental experience in treatment of local radiation and thermal burns of the skin A. Bushmanov FMBC Russian Federation (by. video)Discussion
12:30 - 13:30	Lunch Break	
13:30 - 15:00	Session 7	Public health preparedness to a large-scale radiation emergency <small>CHAIRS A. Salame-Alfie and M. Benderitter</small> <ul style="list-style-type: none">New WHO policy on national stockpiles for medical countermeasures for RN emrgenceis N. Dainiak and Z. Carr and C. Li et al.New communication products, tools and training for radiological emergency preparedness A. Salame-Alfie US CDC (by. video)Updates from Australia's national health sector's preparedness to a radiological or nuclear emergency S. Grenfell and M. Gilhen Peter MacCallum Cancer Centre, AustraliaHospital preparedness check list for radiation emergencies Z. Carr WHODevelopment of hospital gamma cameras for internal contamination triage M. Simpson UK HSAQ&A
15:00 - 15:30	Coffee Break	

Time		Talk Title
15:30 - 17:00	Session 8	Internal contamination assessment and management <small>CHAIRS Chunsheng Li and C. Iddins</small> <ul style="list-style-type: none">New WHO guidelines on internal contamination assessment and management (ICAM) Z. Carr and C. Li and N. Dainiak et al.The use of DEPDose app in a radiaton emergency J. Klopp LNL, USAClinical Case Management of Americium Inhalation C. Iddins REAC / TS, USAREMPAN - EURADOSE joint project on contaminated wounds dose assessment and management M.A. Lopez CIEMAT, Spain (by. video)Internal dosimetry capabilities in India P. Sawant BARC, IndiaQ&A

DAY 3 | 15. Fri

Time		Talk Title
08:30 - 10:00	Session 9	Current research and development in radiobiology and medical countermeasures <small>CHAIRS O. Kurihara and A. Balajee</small> <ul style="list-style-type: none">Research updates on medical countermeasures against RN threats - TBC A. Dicarlo NIAD / NIH (by. video)Recent activities in biodosimetry ISO standardization R. Wilkins Health Canada (by. video)RENEB updates M. Port GermanyARADOS updates O. Kurihara QST, JapanBiological Effects of FLASH radiation in human peripheral blood lymphocytes A. Balajee REAC / TS, USADosimetric approach to neutron-gamma radiation field J. Kim EMC part / RHI / KHNP, KoreaQ&A
10:00 - 10:30	Coffee Break	
10:30 - 11:30	Session 10	Risk comms and MHPSS aspects of rad-nuc EPR <small>CHAIRS Z. Carr and J. Klumpp</small> <ul style="list-style-type: none">New practical guidance for mental health and psychosocial support in radiological and nuclear emergencies J. Burtt NEA / OECD EGNR (by. video)Mitigation of psychological impact of internal contaminaiton with actinides J. Klumpp LANL / DoE, USAPsychological status of responders to radiation emergency in China L. Cuiping China CDCDiscussion
11:30 - 12:00	Final remarks, Announcements and Close	
12:00 - 17:00	Site visit to KIRAMS
