2020 year in review

Celebrating 20 years of Implementing What Works in Family Planning and Sexual and Reproductive Health.

**knowledge dissemination**

- 32 webinars conducted in 4 languages with over 9000 participants from every region in the world
- Support to WHO on dissemination of operational guidance for maintaining essential services during an outbreak, and other WHO tools and resources: 9 webinars; 1 Task team

**IBP NETWORK WORKING IN THE REGIONS**

- ECSA-HC 69th Health Ministers’ conference, Lusaka, Zambia
- Ouagadougou Partnership virtual regional dialogue on impact of Covid-19 on adolescents’ health
- IBP Network West Africa Regional meeting (virtual)

**IBP in a Pandemic: Responding to Covid-19**

Starting in April 2020, the IBP Covid-19 Task Team hosted regular calls and webinars in multiple languages to update partners on the WHO guidance on Covid-19.

- 4 Webinars on WHO Guidance on Maintaining FP/RH Service
- During Covid-19 (in English, French and Portuguese, and featuring partners in Africa, Asia, Europe and Latin America)

**efforts to adapt FP/RH programming** were documented and shared widely.

A collaboration between FHI360, JHU-CCP, and IBP Network Partners resulted in the development of a Covid-19 and Family Planning Program Adaptations Map. This interactive Map features various program adaptations during the Covid-19 pandemic.

**IBP Online Community Engagement Platform**:

- Announced 31 virtual events
- Hosts 26 Communities of Practice on technical topics

**support to implementation and use of good practices**

- Launched 15 Implementation Stories documenting use of HIPs and WHO guidelines
- Published “Making Virtual Meetings CLICK”
- Developed the IBP Matrix Tool: Linking WHO Guidelines and High Impact Practices

**collaboration and partnership**

- Coordinated with WAHO & Ouagadougou Partnership for IBP Regional West Africa Meeting
- Collaboration with HIP Partnership for TAG meetings and new strategic plan
- 3 technical task teams created
  - IBP Strategy Refresh: an interactive process engaged over 50 individuals representing IBP Partner organizations
- Partnered with the WHO Family Planning Accelerator Project to foster South-to-South collaborations
- New governance structure created to reflect diversity and inclusion
- Supported IBP Partner Organizations to host various virtual events

Through its convening power, neutral platform and wide range of partners, the IBP Network supports the dissemination and use of evidence based guidelines and practices in family planning and sexual reproductive health.
