HOW TO ENHANCE SHARING OF RESEARCH DATASETS

OBJECTIVE

ETHICAL

EFFICIENT

EQUITABLE

Address the needs of data depositors, those generating the data (including researchers), secondary users of data sets, and the communities from where the data have originated to advance equity in data sharing and for capacity building

PLAN

World Health Organization

- **READ** WHO policy and guide
- Develop a **Data Management and Sharing Plan** (WHO guide, annex 1)
- Address **Ethical** and **Legal** issues
- Include appropriate clauses in the **Informed Consent** and **Information sheet**

PREPARE TO SHARE

- Apply **FAIR** principles
- Use discipline specific data **standards**
- Prepare all supporting files
- Choose the right Data Repository with Digital Object Identifier (DOI) and open **licence** e.g. CC BY 4.0
- Decide on data access conditions
- fully open ← → managed access

PUBLISH

WHO research study report

World Health Organization

- **Deposit** in Repository with **DOI** and rich **Metadata**
- Add the correct access **License**
- Write **Data Availability Statement**
- **Link** publications to Data set with DOI
