Launch of TArGET Health

Tool for the Anticipatory Governance of Emerging Technologies in Health

WHO-OECD

10 November 2026, 10:00-11:30 CEST

OECD, Paris

The WHO and the OECD have partnered to develop TArGET Health, a tool designed to strengthen stakeholders' capacity to respond to emerging assessment needs, evaluate technologies as potential solutions to health challenges, support strategic decision-making, and inform policy and technology governance processes.
