3 November 2023 marks the annual One Health Day. Since its establishment, the Quadripartite has been playing a central role in promoting and coordinating a global One Health approach, in line with the One Health Joint Plan of Action (OH JPA), which was launched in October 2022. To further support countries and governments to put the One Health approach into practice, the Quadripartite partners have developed the OH JPA implementation guide, which will be released later this year.

On the occasion of the One Health Day this year and with an aim to zoom in on the initiatives and programs for the One Health implementation in countries and regions, the upcoming dialogue will address the following questions:

- What is the current status of the One Health implementation? What are the challenges, gaps and opportunities?
- How is the technical and advocacy support of the Quadripartite helping countries to implement the OH approach?
- What are the planned next steps for translating the One Health approach into actions with the One Health Joint Plan of Action (OH JPA)?

**PROGRAMME** (a more detailed agenda will follow shortly)

- Introduction
- Welcome remarks by Quadripartite representative
- Presentation on the One Health Joint Plan of Action and implementation guide
- Outcomes of the regional JPA workshops presented by regional representatives
- Q&A session
- Facilitated panel discussion
- Closing remarks by Quadripartite representative
