

### **Statement**

9.4. South-East Asia Regional Health Emergency Fund (SEARHEF) and, expanding the scope of the South-East Asia Regional Health Emergency Fund and 9.3 COVID-19 and measures to “build back better” essential health services to achieve universal health coverage and the health related SDGs.

In alignment with the 2023 World Health Assembly Resolution on Rehabilitation and WHO policy brief rehabilitation in emergencies the International Society of Physical and Rehabilitation Medicine (ISPRM) calls on Members States to integrate Rehabilitation services and technical resources in health emergencies preparedness and response. Build the capacity of rehabilitation professionals including physical and rehabilitation medicine physicians to support and coordinate rehabilitation in emergency response. Include services for rehabilitation and for people with disabilities or disabling conditions, in particular for people with post covid-19 condition.
