## SPOTLIGHT

- On the 1st of June 2020, one new case of laboratory-confirmed COVID-19 was reported by the Ministry of Public Health, bringing the total number of cases to 3,082.
- Of these, 96% (2,965) have recovered, about 2% (57) have died, and about 2% (60) are receiving treatment.
- The new case is a 43-year-old Thai female who returned from Russia on May 20<sup>th</sup> and who was found positive for COVID-19 only after her second RT-PCR testing on May 31<sup>st</sup>
- No new deaths were reported today.
- In the past week, all COVID-19 cases detected in Thailand have been in returnees (there have been no reported cases due to local transmission).
- It is essential that members of the public avoid complacency and continue to adhere to preventive measures including frequent hand washing, respiratory etiquette, maintaining physical and social distancing and avoiding crowded places.
- Using the Thai Chana website and mobile app is highly recommended by national authorities

## UPDATES FROM THE MINISTRY OF PUBLIC HEALTH

- The number of people wearing facial masks has decreased from 96% to only 84%.
- Although 80% of business establishments are compliant with required hygiene and safety measures, up to half of schools surveyed failed a safety inspection. The Ministry of Public Health is working with the Ministry of Education to ensure arrangements will be in place when schools finally open (currently scheduled for July 1st).
- Active COVID-19 case finding is currently being expanded.
- Over 420,000 RT-PCR tests have been performed.
- MOPH also requested cooperation from public and private sectors to continue 'work from home' arrangements, and to stagger working hours to reduce crowding.
