

COVID-19 Situation, Thailand

29 June 2022

Based on data as reported by the CCSA

4,520,220 total confirmed cases

30,634 total deaths

Daily average numbers reported from **16 June to 29 June 2022**

2,104 new confirmed cases per day

18* deaths per day

*(Counting deaths changed to 'deaths from COVID' where previously COVID deaths also included 'deaths with COVID')

1,803 people recovered per day

57,756 vaccinations per day

Main messages

| Continue to reduce community transmission of COVID-19 across Thailand |

| RTG encourages COVID-free settings and booster vaccinations |

| Get vaccinated, maintain universal precautions and stay informed |

COVID-19 Update 29-Jun-22

New COVID-19 cases per million population by province

- The average number of new cases per million population are **decreasing across provinces**, with lower average rates being reported far more widely across the country.
- **Most provinces (75) reported an average rate of less than 50** new cases per million population.
- Two provinces (Singburi and Bangkok) have an average rate from 50-100 per million population.
- **An average rate in Bangkok remains stable at 189** cases per million population.

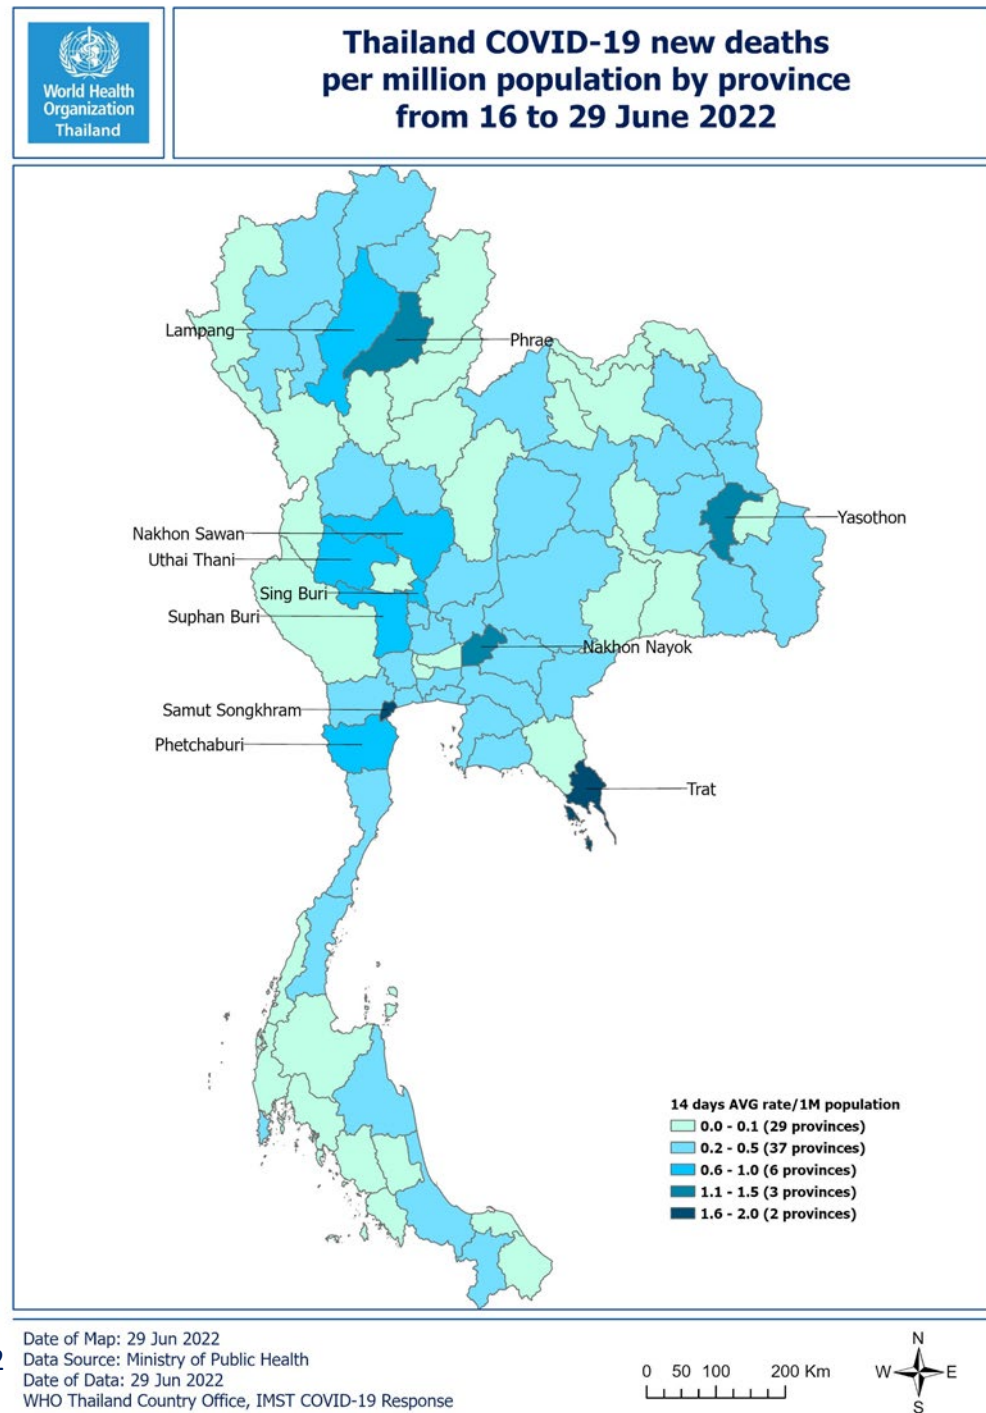

Thailand COVID-19 new cases
per 1,000,000 population by province
from 16 to 29 June 2022

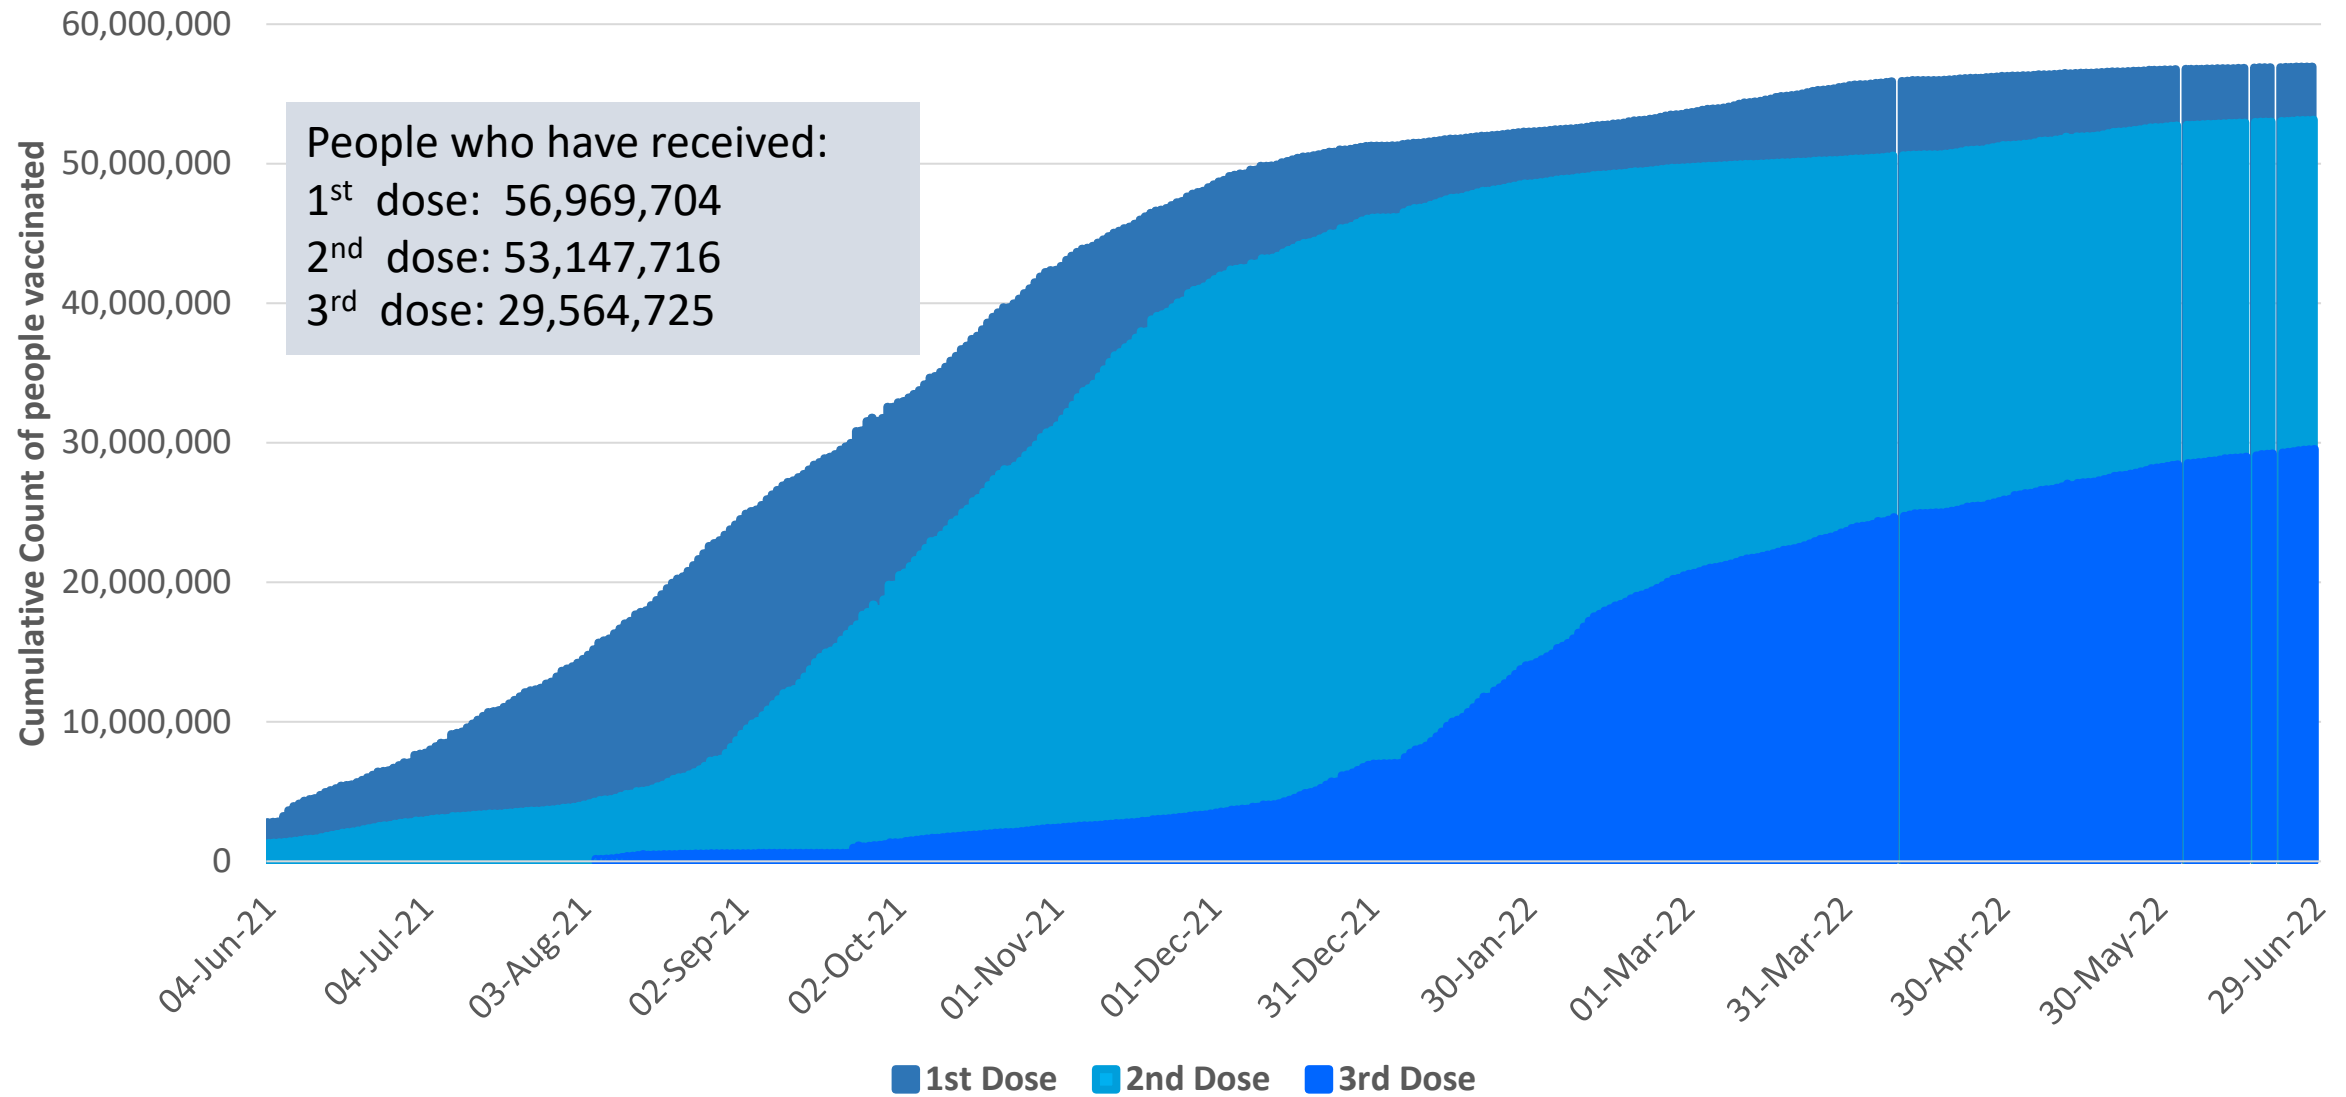

New COVID-19 deaths per million population by province

- Seventy-five out of seventy-seven provinces reported an average rate of death less than 2 cases per million population.
- **Only two provinces (Trat and Samut Songkhram)** reported the **highest average rate of deaths** per million population (1.6-2.0) over the past two weeks.

Vaccination

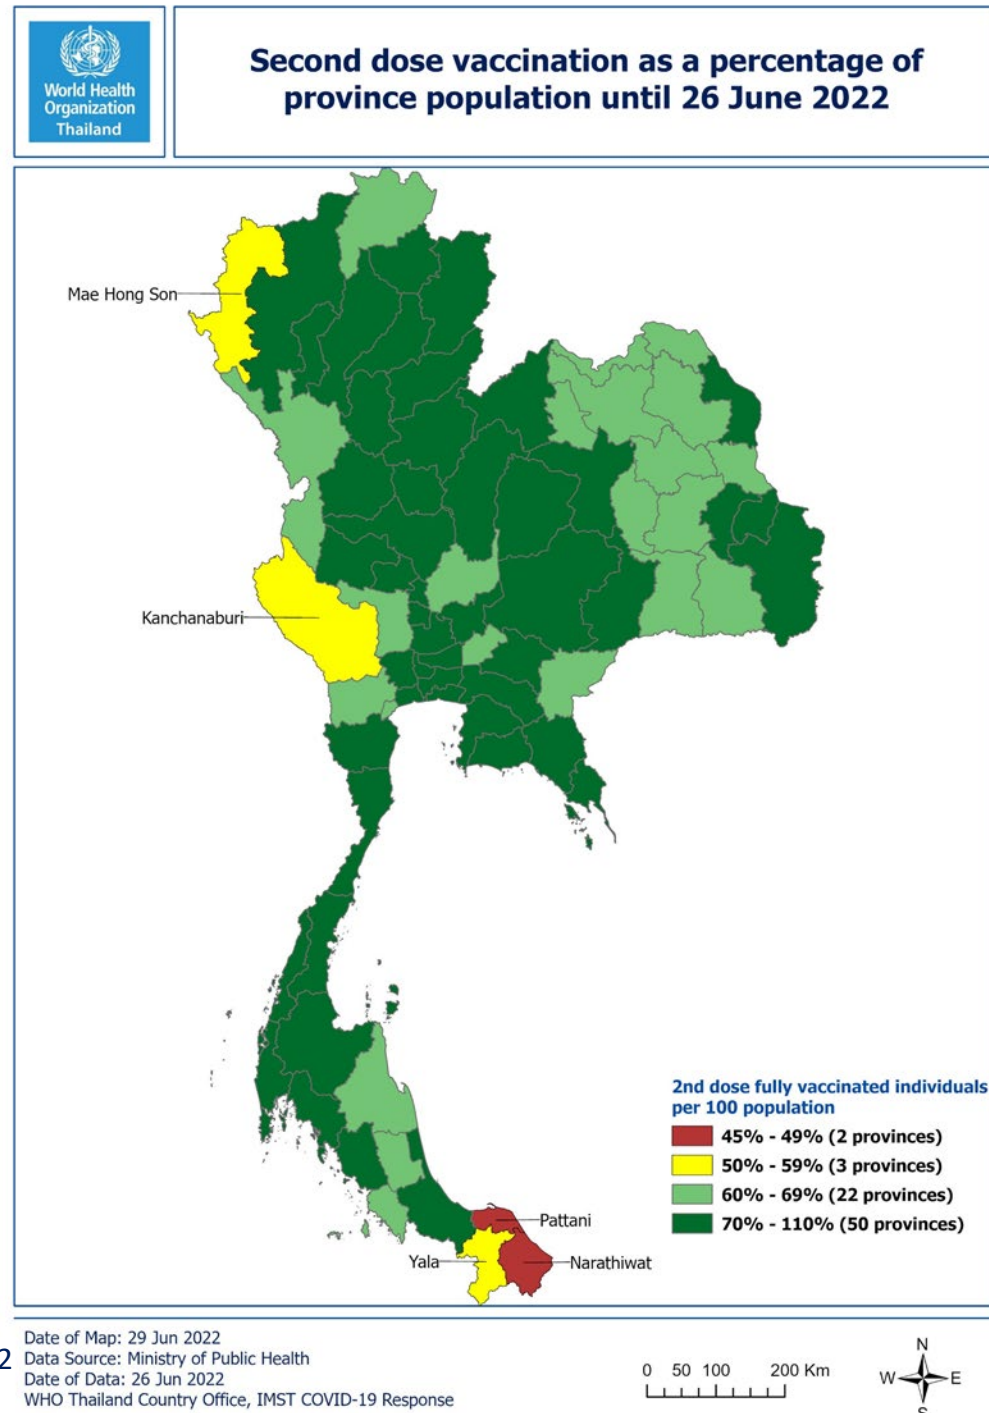

National COVID-19 vaccination coverage

Source CCSA to 28 Jun 2022

Percentage of the population vaccinated against COVID-19 by province

- Fifty out of seventy-seven provinces reported more than 70% 2-dose vaccination coverage.
- Narathiwat and Pattani provinces in the far south still reported **less than 50% 2-dose vaccination coverage**.

Policy Update

Current public health and social measures

- **All provinces** will be designated as **surveillance areas** or “Green Zone.”
- **Entertainment venues can be opened** according to relevant regulations.
- **Temperature screen in buildings is no longer required**, unless in high-risk area.
- The CCSA agreed to **discontinue/lift Thailand Pass registration** for all travellers, both Thais and foreigners.

Mask policy

The infographic features a light blue background with red stars. At the top left is a blue circular icon with a white megaphone. The main title 'Wearing a mask in Thailand is voluntary' is in large blue font. Below it, 'following the Royal Gazette from 23 June onward' is in smaller blue font. To the right is a circular inset showing two blue surgical masks. On the left is a large illustration of a woman with brown hair wearing a white face mask and an orange shirt with blue overalls. To the right of her is a yellow box with text about vulnerable groups. Below that is a light blue box with text about crowded places. At the bottom are social media links, the PRD logo, and the WHO Thailand logo.

Wearing a mask in Thailand is voluntary

following the Royal Gazette from 23 June onward

Vulnerable groups are suggested to wear a mask to reduce the risk of infection.

- Pregnant women
- Elderly
- People with chronic diseases

However, people are advised to put on masks in crowded or poorly ventilated places.

Thai FDA approved additional COVID-19 drug

- **Evusheld** (combination of two long-acting antibodies - tixagevimab (AZD8895) and cilgavimab (AZD1061)) from the AstraZeneca has been approved and listed in emergency use listing (EUL) by the Thai Food and Drug Administration (TFDA) for use in people aged 12 years old and above or body weight above 40 kilograms.
- Under this approval, it can be used as a prevention therapy for certain high-risk individuals that can help protect them from COVID-19 before they are exposed to the virus.
- The authority advised that people who need to use this drug should provide doctors with information such as their history of allergies, treatment for coronary artery disease, pregnancy, lactation, and vaccination history.

Changes to Thai approved COVID-19 vaccines

- **COVOVAX** (Recombinant Spike Protein Vaccine) from the Serum Institute of India (SII) has been approved and listed in emergency use listing (EUL) by the Thai Food and Drug Administration (TFDA) for use in adults 18 years old and more
- TFDA has approved expanding of age group for two vaccines under EUL
 1. **NOVOVAX**: expanding from 18 years and older to **12 years and older**. The recommended dose will be the same as in Adults – 0.5 ml per dose x 2 doses with 3 weeks interval
 2. **Moderna**: expanding from 12 years and older to **6 years old and older**. Dose for 6-11 years old will be half of adult dose – 50 mcg (0.25 ml) x 2 doses with 4 weeks interval

The MoPH's Guidelines for COVID-19 Vaccine Administration (18 years and above)

3 rd dose booster	Dose 1	Dose 2	Interval		Dose 3
	SV/SP	SV/SP	4 weeks		AZ
	SV/SP	AZ	>3 months		AZ
	SV/SP	Pf	>3 months		Pf
	AZ	AZ	>3 months		Pf
	Pf	Pf	>3 months		Pf
	AZ	Pf	>3 months		Pf
	AZ	AZ	>3 months		AZ
4 th dose booster	Dose 1	Dose 2	Dose 3	Interval	Dose 4
	SV/SP	SV/SP	AZ	>4 months	AZ
	SV/SP	SV/SP	Pf	>4 months	Pf
	SV/SP	AZ	AZ	>4 months	Pf
	AZ	AZ	Pf	>4 months	Pf

Note: A half-dose of Pfizer vaccine can be administered as a booster dose, depending on the clinician's discretion and the vaccine recipient's choice.

- AZ can be an option for recipients of AZ+AZ who do not wish to receive mRNA vaccines (>6 months interval)
- Moderna can be considered as booster doses in any regimen above.
- Individuals with a history of COVID-19 infection should get the vaccine 3 months after infection.

SV=Sinovac
SP=Sinopharm
AZ=AstraZeneca
Pf=Pfizer

COVID-19 Update 29-Jun-22

Walk-in vaccination services for the 1st, 2nd, 3rd, 4th, or 5th dose

at the Central Vaccination Center
(Bang Sue station)

Every day
from 09.00 to 16.00 hr.

from 3 June 2022 onward until further notice

* Those who would like to get a booster shot beyond the 4th dose should consult a doctor about the duration of inoculation, types of vaccines, and purposes of vaccination. People, who would like to travel abroad, but the test result for COVID-19 immunity is low, may consult their doctor.

- The vaccination services are available at doors 2 and 3.
- The line is arranged with red chairs.

Procedure for getting the vaccination:

1. Screening
2. Registration
3. Getting vaccination
4. Waiting for side-effect symptoms

Those who have booked and registered in the system may directly go to the vaccination spot.

The 3rd and 4th booster doses are in accordance with the Ministry of Public Health's measures and recommendations.

***Notice:**

For children 5-11 years old, the service is at door 3.

For those who are older than 12 years old, the service is at door 2.

Pfizer booster doses can be given in either the muscle or skin layers.
