

COVID-19 Situation, Thailand

13 July 2022

Based on data as reported by the CCSA

4,550,924 total confirmed cases

30,907 total deaths

Daily average numbers reported from **01 - 14 July 2022**

2,193 new confirmed cases per day

20* deaths per day

*(Counting deaths changed to 'deaths from COVID' where previously COVID deaths also included 'deaths with COVID')

2,098 people recovered per day

57,756 vaccinations per day

Main messages

| Continue to reduce community transmission of COVID-19 across Thailand |

| RTG encourages COVID-free settings and booster vaccinations |

| Get vaccinated, maintain universal precautions and stay informed |

Mask policy

The infographic features a light blue background with pink stars. At the top left is a blue circular icon with a white megaphone. The main title 'Wearing a mask in Thailand is voluntary' is in large blue font. Below it, 'following the Royal Gazette from 23 June onward' is in smaller blue font. To the right is a circular inset showing two blue surgical masks. On the left is a large illustration of a woman with brown hair wearing a white face mask and a blue apron over an orange shirt. To the right of her is a yellow box with text about vulnerable groups. Below that is a light blue box with text about crowded places. At the bottom are social media links, the PRD logo, and the WHO Thailand logo.

Wearing a mask in Thailand is voluntary

following the Royal Gazette from 23 June onward

Vulnerable groups are suggested to wear a mask to reduce the risk of infection.

- Pregnant women
- Elderly
- People with chronic diseases

However, people are advised to put on masks in crowded or poorly ventilated places.

The MoPH's Guidelines for COVID-19 Vaccine Administration (18 years and above)

3 rd dose booster	Dose 1	Dose 2	Interval		Dose 3
	SV/SP	SV/SP	4 weeks		AZ
	SV/SP	AZ	>3 months		AZ
	SV/SP	Pf	>3 months		Pf
	AZ	AZ	>3 months		Pf
	Pf	Pf	>3 months		Pf
	AZ	Pf	>3 months		Pf
	AZ	AZ	>3 months		AZ
4 th dose booster	Dose 1	Dose 2	Dose 3	Interval	Dose 4
	SV/SP	SV/SP	AZ	>4 months	AZ
	SV/SP	SV/SP	Pf	>4 months	Pf
	SV/SP	AZ	AZ	>4 months	Pf
	AZ	AZ	Pf	>4 months	Pf

Note: A half-dose of Pfizer vaccine can be administered as a booster dose, depending on the clinician's discretion and the vaccine recipient's choice.

- AZ can be an option for recipients of AZ+AZ who do not wish to receive mRNA vaccines (>6 months interval)
- Moderna can be considered as booster doses in any regimen above.
- Individuals with a history of COVID-19 infection should get the vaccine 3 months after infection.
