Severe cases
- Current count: 632
- 7 days increase: 14.3%*

Ventilated cases
- Current count: 349
- 7 days increase: 9.4%*

*No severe case or ventilated cases data currently available for 7 & 8 May'

Source: MoPH to 03 Dec 2022

*Compared to 1 week prior
COVID-19 deaths in Thailand

- Deaths have increased by 36% in the last 7 days.

Source: MoPH to 03 Dec 2022
The average daily number of confirmed cases in Bangkok over the past week has increased by 36% compared to 1 week prior. Cases in Bangkok still make up the greatest proportion of cases.

Source: MoPH: to 03 Dec 2022
Vaccination
People who have received:

1\textsuperscript{st} dose: 57,095,546
2\textsuperscript{nd} dose: 53,579,321
3\textsuperscript{rd} dose: 32,576,078
Second dose coverage per million population by province

- Fifty-four out of seventy-seven provinces report more than 70% 2-dose vaccination coverage.

- Narathiwat and Pattani provinces in the far south continue to report less than 50% 2-dose vaccination coverage.
As of 30 September 2022

**Travelling to Thailand**

From 1 October 2022 onwards

Passengers will **no longer** be required to present COVID-19 related documents such as the certificate of vaccination and COVID-19 test result upon arrival in Thailand.
Update on public health measures and guidance

• CCSA has resolved.

• The Emergency Decree will not be extended.

• From **1 October 2022 onward**, MoPH will manage COVID-19 as a “**Disease under surveillance**” instead of a “Dangerous infectious disease”.

• **COVID-19 testing by using ATK will only be recommended for individuals with respiratory symptoms or suspicion of infection.** It does not recommend for asymptomatic individuals.

• **Mask wearing:** MoPH advises people to wear a mask in closed and poor ventilation setting such as public transportation, hospitals, nursing care, and daycare.

• If people have respiratory symptoms, they should practice Distancing, Mask wearing, Hand washing, Temperature checking, and Testing.

• MoPH advises workplaces to screen symptoms of COVID-19 among staff. The workplace should report cases to authorities if they detect a large number of staff getting sick.
