SPOTLIGHT

- On the 3rd of June 2020, one new case of laboratory-confirmed COVID-19 was reported by the Ministry of Public Health, bringing the total number of cases to 3,084.
- Of these, 96% (2,968) have recovered, about 2% (58) have died, and about 2% (58) are receiving treatment.
- The new case is a 26-year-old Thai man returning from Saudi Arabia via Padang Besar checkpoint along the Thai-Malaysian border on 25th of May.
- No new deaths were reported today.
- In the past week, all COVID-19 cases detected in Thailand have been in returnees (there have been no reported cases due to local transmission).
- It is essential that members of the public continue to adhere to preventive measures including frequent hand washing, respiratory etiquette, maintaining social distancing and avoiding crowded places.
- Using the Thai Chana website and mobile app is highly recommended by national authorities

COVID-19 cases over the last 14 days

UPDATE OF VACCINES

To provide a safe and effective COVID-19 vaccine to the people of Thailand, the National Vaccine Committee has endorsed a blueprint plan outlining two strategies: (i) getting high-potential vaccine prototypes through technology transfer from abroad for scaled-up production in Thailand (ii) developing vaccine prototypes in Thailand.

Recognizing that vaccine security is a national priority, the Thai government is providing strong policy support for the implementation of the blueprint. Thailand is collaborating with China, USA, and other countries, and also development partners (WHO, CEPI) for vaccine technology transfer and research and development. The National Vaccine Institute is coordinating efforts of inter-ministerial and intersectoral stakeholders involved in COVID-19 vaccine development, including university scientists, vaccine manufacturers, and national regulatory authorities. WHO is providing support by facilitating information sharing, mobilizing technical support for regulatory mechanisms and providing catalytic funds for research and development.

Third Phase of Easing Restrictions on Certain Businesses and Activities

In Effect from 1 June 2020

Activities relating to the economy and way of life

Department stores and shopping centers are allowed to stay open until 21.00 hr

Exhibition halls or exhibition sites, with total area up to 20,000 square meters, may open until 21.00 hr

Amulet shops may open with physical-distancing measures

Beauty salons and barber shops are allowed to dye hair, with two-hour service for each customer and without having other customers waiting inside the shop

Child care centers can open for staff to distribute food to children and make arrangements in accordance with public health standards, with no teaching and learning

Cinemas, theaters, and playhouses may open with no more than 200 people, but concerts and music performances are still not allowed

Zoos may open with a limited number of customers

Exercising and health care activities

Beauty clinics and tattoo shops can operate on any part of the body, except on the face, but both service providers and customers must wear masks

Massage and spa houses

for health are allowed to open, with no sauna and steam services

Fitness centers can fully operate, with a limited time and number of customers and without the opening of sauna and steam rooms

Stadiums for football, basketball and volleyball

will resume for exercise and practice, but the participants aren't more than 10 people (excluding players)

Bowling alleys, skating parks, and rollerblade parks may open for only exercise and practice

Ballroom dance classes

are allowed to open as usual

Swimming pools for water sports & ponds for sports and recreational activities are allowed to open but with a limited number of customers & players and no competitions

PHASE 3 OF THE EASING OF RESTRICTIONS BECAME EFFECTIVE ON JUNE 1ST.

- The night curfew is now in place from 11pm - 3am. Shopping centres may open from 10am to 9pm.
- Fitness centres, sport facilities, public zoos, tourist spots, some businesses (including amulet shops, beauty clinics and cinemas) can be reopened with appropriate precautions for crowd management.
- Inter-provincial travel also allowed.

- Thailand extended a ban on international flights until the end of June.
- Curfew time: 23.00 to 03.00 hr

WHAT WHO IS DOING TO PROVIDE SUPPORT TO THAILAND

WHO Thailand is in frequent direct contact with the Royal Thai Government through the Ministry of Public Health, sharing information on key developments, guidelines and scientific updates. WHO supports the wider UN response, including working with key partners and the Ministry of Public Health to support migrant populations in Thailand. WHO also provides information and advice to staff of the UN system in Thailand.
