Cases
246,951,274

Deaths
5,004,855

VACCINATION

6,893,866,617 doses

HIGHLIGHTS

- Since the last edition of the weekly situation report, the Ministry of Health (MoH) reported **12** new cases of COVID-19, **31** recoveries and **1** death. The number of new cases and deaths have been declining since late August.
- To scale up the COVID-19 vaccination campaign in the country, WHO is supporting 44 vehicles for operational support in 12 municipalities for advocacy and social mobilization.
- The MoH and the Ministry of Education, with support from WHO and UNICEF, continue to conduct advocacy for Pfizer COVID-19 vaccine targeting parents of children aged 12 to below 18 and teachers for the ongoing rollout in Dili.
- Five representatives from the National Directorate for Pharmacy and Medicines, Ministry of Health and WCO focal point for Health System Strengthening participated in a three-day virtual training of trainers on Pharmacovigilance for Traditional Medicine Products organized by WHO South-East Asia Regional Office in collaboration with the Indian Pharmacopoeia Commission (IPC).

- The Department of Marketing Authorization in collaboration with Cabinet of Licensing of Pharmaceutical and Health Registration conducted one-day workshop for private importers and retail pharmacies on the process of importing health products including the licensing and product registration. This workshop was facilitated by representatives from various institutions such as National Authority Customs, Business and Services Registration (SERVE), Trade Invest and the MoH. WHO provided financial assistance for the activity.
- WHO continues to provide technical support to the health workers – medical doctors and focal point for TB programme from CHCs to operate the mobile TB application in real-time data entry of TB Vulnerability Assessment (VA). The TB VA demonstration started in mid-October in six selected municipalities – Dili, Liquica, Viqueque, Manatuto, Manufahi, and Aileu for first and second phase.
- National Directorate of Pharmaceutical and Medicine of the MoH and National Directorate of Veterinary of the Ministry of Agriculture and Fisheries (MoAF) conducted a one day meeting to review and finalize the National Action Plan for Antimicrobial Resistance (AMR) 2022-2026, with the support from WHO, Menzies School of Health Research and FAO.

New and cumulative COVID-19 cases and deaths

Table 1. Distribution of newly reported, recovered and active cases by municipalities, as of 2 November 2021)

Municipality	New case (27 Oct. – 2 Nov. 2021)	Last 7- day % change (case)*	Cumulative case	New recovered (27 Oct. – 2 Nov. 2021)	Cumulativ e recovered	New death (27 Oct. – 2 Nov. 2021)	Cumulative death	Active Cases (2 Nov. 2021)
Aileu	0	0	126	0	125	0	1	0

TOTAL	12	-75	19790	31	19636	1	122	32

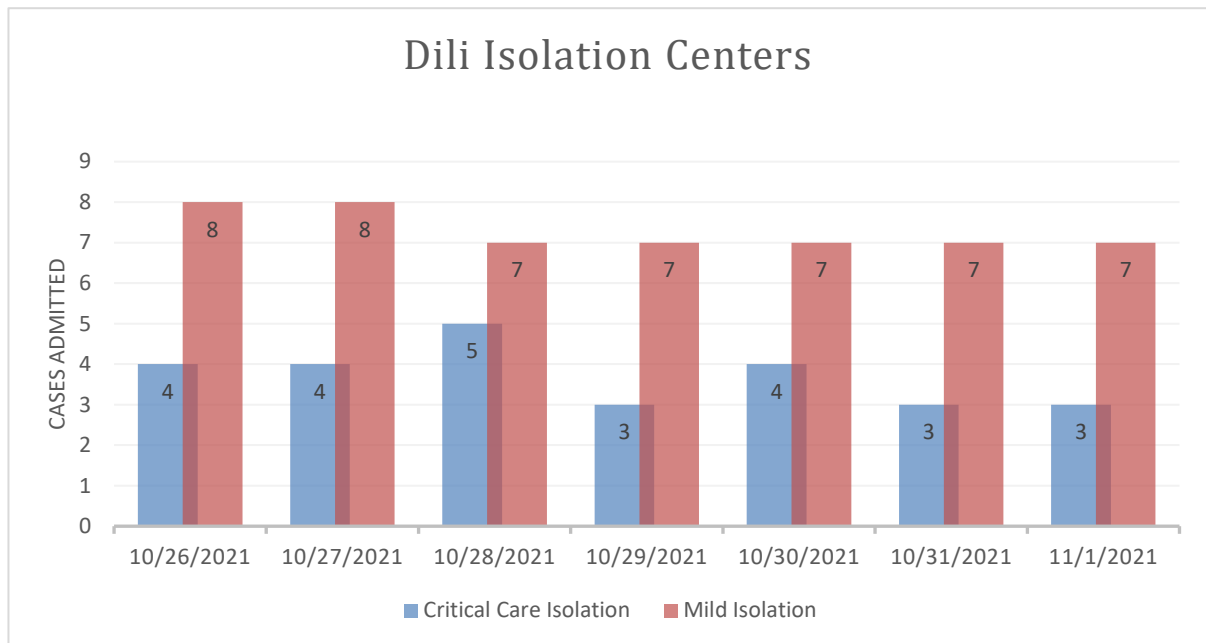

- *Change in new COVID-19 cases as compared with the previous 7 days
- The number of new cases reported during the current reporting period (27 October – 2 November) are 12, which reduced by 75% as compared to the previous reporting period. The number of new cases has reached a new low since the start of the current wave of transmission since late July. Most of the municipalities reported 0 cases or reduced number of cases, except Baucau.
- One death reported in Dili during this reporting period.
- The number of active cases is 32, which is the lowest during the current wave of transmission.

Number of test and test positivity rates

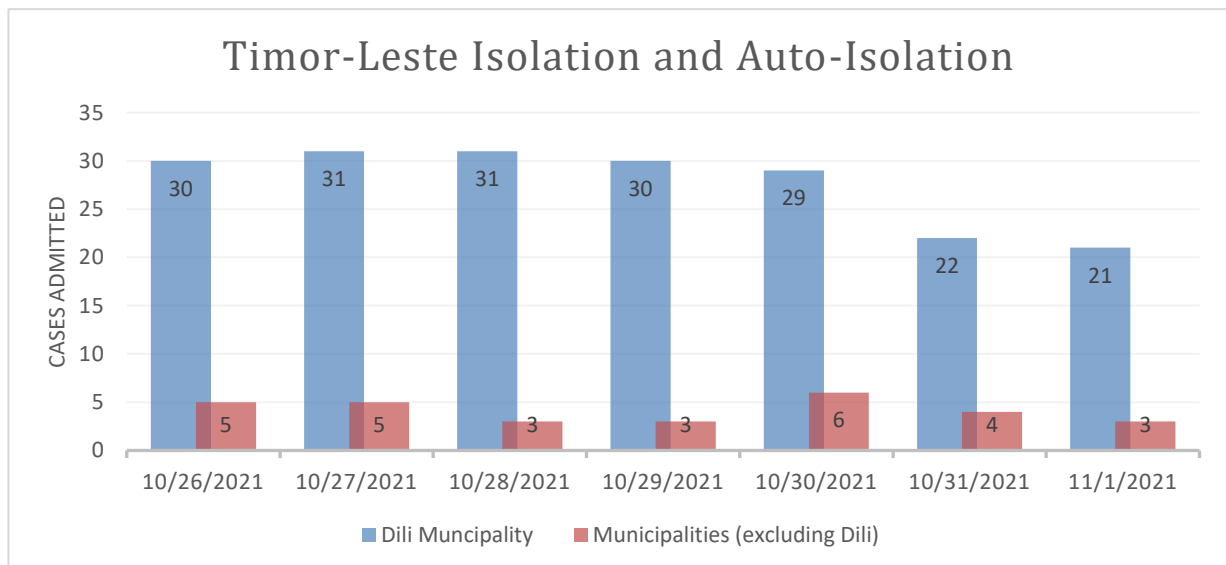

- During the current reporting period from 27 October to 2 November, 1,505 tests were conducted, as compared to 1,842 tests in the previous 7 days.

- The test positive rates of this reporting period averaged to 0.8%, a 69% reduction as compared to the previous reporting period.

CASE MANAGEMENT

- The isolation centre admissions in Dili continued to decrease steadily throughout October 2021. The numbers admitted to critical care isolation centres (Lahane and Vera Cruz) have also decreased and are between 3-5 patients. Since the start of the lockdown on 27 August 2021, there has been an overall decrease of 99% in admissions in Dili isolation centres.

- This chart shows the total number of people admitted to isolation centres and auto-isolation (at home) in 12 municipalities compared to Dili. Throughout Timor-Leste, patients admitted to isolation centres have steadily decreased.

VACCINATION

At the time of writing this report, in total, 934,127 COVID-19 vaccine doses comprising 568,214, first doses (coverage 74.4% among population aged 18 years and above and 3.8% among the population aged 12 years to <18 years) and 365,913 second dose (coverage 48.5% among population aged 18 years and above) were administered in Timor-Leste. The breakdown of the number of doses administered and coverage by vaccine product and vaccine dose is illustrated in Table 1.

Table 1: Number of COVID-19 vaccine doses administered and coverage in Dili and Timor-Leste by vaccine brand and doses as of 10:00hrs 02/11/2021

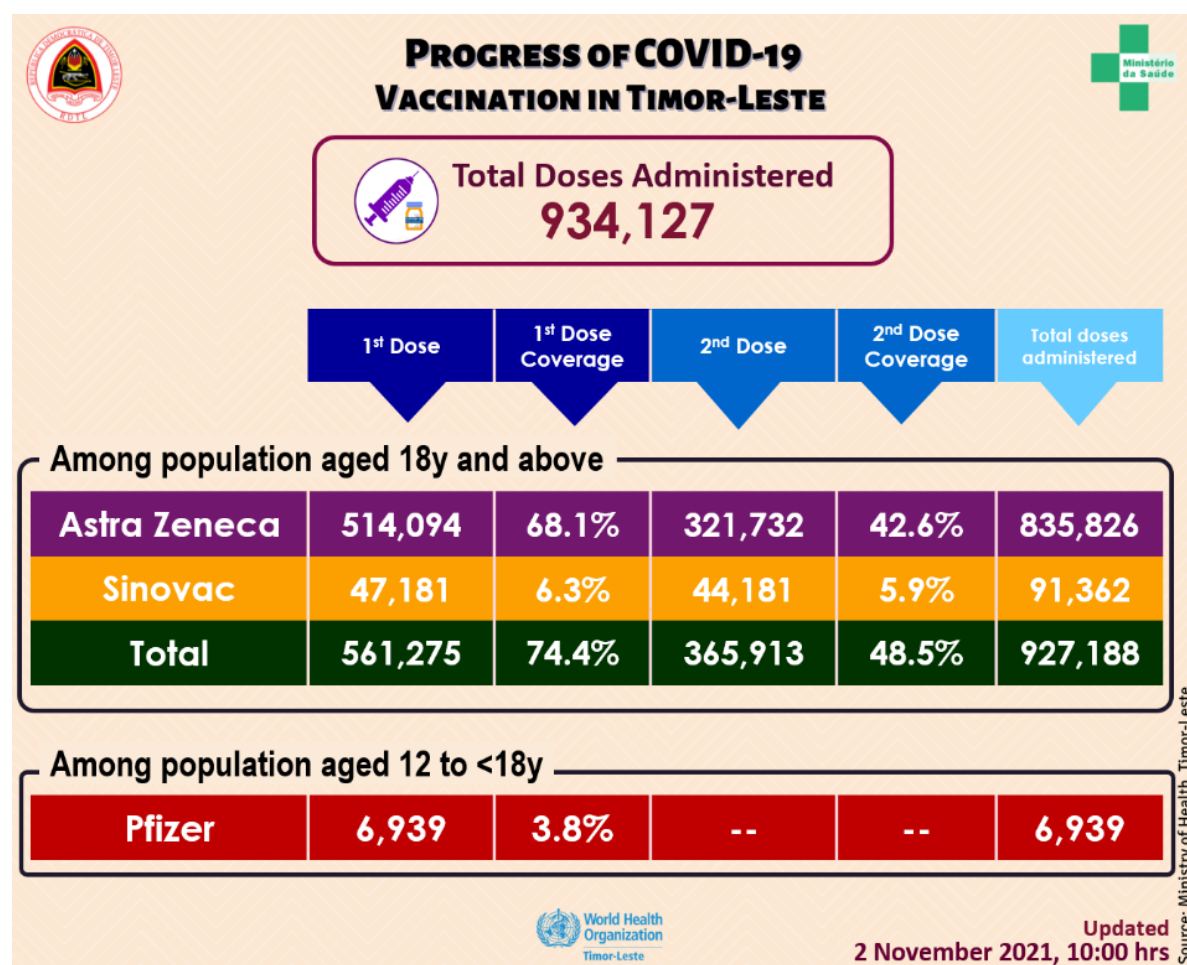

Figure 1: Coverage of COVID-19 vaccination by municipality in Timor-Leste as of 10:00hrs 02/11/2021

* Based on 2021 population projections

SITUATION ANALYSIS

- Number of new cases and active cases have reduced to a new low since the start of the current wave of transmission.
- Efforts are being made to rapidly expand the vaccination coverage across the country, and gaps are decreasing. With the launch of vaccination for adolescents aged 12-17, the population wide coverage stands to increase. The MoH, with support from WHO, UNICEF and other partners are conducting multi-pronged campaign to vaccinate the people before the available vaccines expire.
- Sustained focus to restore and resume the routine immunization and other essential health services is recommended to make up for the disruptions caused by the pandemic. The pandemic is far from over, it is essential to continue conducting surveillance and testing, implementation of public health and social measures, and enhancing the case management capacity across different levels.

CHANGES IN NATIONAL COVID-19 POLICIES/GUIDELINES

- The Government has lifted the sanitary fence in the capital Dili on 29 September 2021. The movement of the citizens between Dili and municipalities as well as between the municipalities across the territory is no longer prohibited. However, the Government called on communities to follow the COVID-19 guideline and safety regulations recommended by the MoH and WHO to keep fighting the spread of coronavirus. (source: [The government decided to lift the sanitary fence in Dili](#)).
- National Parliament authorized the President of the Republic to renew the State of Emergency for another 30 days between 00:00 hours 30 October 2021 and 23:59 hours 28 November 2021.
- Health workers working at isolation centres are no longer required to quarantine after completing their shift. A swab for COVID-19 test will be collected on the last day, and if tested negative, the health workers will return to their families.
