Knowledge generation, synthesis and management

Networking

Knowledge communication and policy advocacy

Capacity building

Research: 35 projects (services, health related products, environment, cross-cutting issues)

ITH Conference: organized annually as a platform for knowledge sharing, capacity building and proposing policy recommendations

ITH Network Centres: Three centres established and contributing to research projects, expanding networking with partners, providing inputs to the work of ITH Programme

Knowledge management and communication: ITH book, research synthesis, policy briefs, publications, CPTPP series, ITH website

Capacity building: ITH training workshops (basic knowledge and specific issues), two online courses on ThaiMOOC

Policy advocacy: through NCITHS, MOPH and other channels
