

# UHC COMPENDIUM ARCHITECTURE

Version 1.1

<https://www.who.int/universal-health-coverage/compendium>

[DRAFT OUTLINE - not for citation,  
quotation or distribution]

World Health  
Organization

# 1. FOUNDATIONS OF CARE

## 1.1. CORE FUNCTIONS

### 1.1.1. First access, continuity and coordination

- 1.1.1.1. Longitudinal care planning
- 1.1.1.2. Referral planning
- 1.1.1.3. Early recognition and system activation for time-sensitive conditions
- 1.1.1.4. Promotion of self-care

## 1.2. INTEGRATED APPROACH TO COMMON PRESENTATIONS

### 1.2.1. Approach to emergency syndromes

- 1.2.1.1. Initial management of difficulty in breathing
- 1.2.1.2. Initial management of altered mental status
- 1.2.1.3. Initial management of shock
- 1.2.1.4. Initial management of serious injury
- 1.2.1.5. Initial management of sepsis

### 1.2.2. Approach to emergency syndromes

- 1.2.2.1. General approach to all common signs and symptoms
- 1.2.2.2. Approach to fever
- 1.2.2.3. Approach to weakness or fatigue
- 1.2.2.4. Approach to red eye and visual disturbances
- 1.2.2.5. Approach to ear pain and hearing disturbances
- 1.2.2.6. Approach to sinus, mouth and throat complaints
- 1.2.2.7. Approach to chest pain and palpitations
- 1.2.2.8. Approach to syncope
- 1.2.2.9. Approach to cough and dyspnoea
- 1.2.2.10. Approach to diarrhoea
- 1.2.2.11. Approach to nausea and vomiting
- 1.2.2.12. Approach to constipation
- 1.2.2.13. Approach to abdominal pain and gastrointestinal bleeding
- 1.2.2.14. Approach to genitourinary complaints
- 1.2.2.15. Approach to gynecologic complaints
- 1.2.2.16. Approach to headache
- 1.2.2.17. Approach to memory loss or attention problem
- 1.2.2.18. Approach to dizziness or vertigo
- 1.2.2.19. Approach to mood complaints
- 1.2.2.20. Approach to sleep disturbances
- 1.2.2.21. Approach to weight change
- 1.2.2.22. Approach to skin lesions and rash
- 1.2.2.23. Approach to swelling, lump or mass
- 1.2.2.24. Approach to musculoskeletal pain
- 1.2.2.25. Approach to general pain symptoms

## 2. REPRODUCTIVE AND SEXUAL HEALTH

### 2.1. PREGNANCY AND BIRTH

#### 2.1.1. Antenatal care

- 2.1.1.1. Routine care during pregnancy
- 2.1.1.2. Management of antenatal complications

#### 2.1.2. Labour and childbirth care

- 2.1.2.1. Routine care during labour and childbirth
- 2.1.2.2. Management of complications during labour and childbirth

#### 2.1.3. Postnatal care

- 2.1.3.1. Routine neonatal care
- 2.1.3.2. Routine postnatal care of the mother
- 2.1.3.3. Care for neonatal complications
- 2.1.3.4. Care for postnatal complications of the mother

#### 2.1.4. Abortion

- 2.1.4.1. Abortion related care
- 2.1.4.2. Care for complications of abortion

#### 2.1.5. Ectopic pregnancy

- 2.1.5.1. Prevention of ectopic pregnancy
- 2.1.5.2. Management of ectopic pregnancy

### 2.2. SEXUAL HEALTH AND FAMILY PLANNING

#### 2.2.1. Sexual health

- 2.2.1.1. Promotion of menstrual health
- 2.2.1.2. Information and communication on sexual health and wellbeing
- 2.2.1.3. Care for sexual functioning and wellbeing
- 2.2.1.4. Consensual gender affirming treatments and therapies

#### 2.2.2. Contraception and family planning

- 2.2.2.1. Screening, testing and counselling for choosing contraceptive methods
- 2.2.2.2. Management of family planning and contraception

#### 2.2.3. Infertility

- 2.2.3.1. Prevention of infertility
- 2.2.3.2. Diagnosis of infertility
- 2.2.3.3. Management of female infertility
- 2.2.3.4. Management of male infertility
- 2.2.3.5. Management of unexplained infertility

#### **2.2.4. Female genital mutilation (FGM)**

2.2.4.1. Prevention of FGM

2.2.4.2. Identification of FGM

2.2.4.3. Management of FGM

#### **2.2.5. Intimate partner and sexual violence (See also Violence section)**

2.2.5.1. Prevention of intimate partner and sexual violence, including rape

2.2.5.2. Documentation of intimate partner and sexual violence, including rape

2.2.5.3. Care and support for survivors of intimate partner and sexual violence, including rape

## 3. GROWTH, DEVELOPMENT, AND AGEING

### 3.1. NUTRITION, PHYSICAL ACTIVITY AND SLEEP

#### 3.1.1. Healthy Nutrition

- 3.1.1.1. Support for healthy nutrition
- 3.1.1.2. Preventive micro- and macronutrient supplementation
- 3.1.1.3. Under review

#### 3.1.2. Undernutrition

- 3.1.2.1. Screening and diagnosis of nutritional status
- 3.1.2.2. Management of micronutrient deficiencies
- 3.1.2.3. Management of moderate wasting
- 3.1.2.4. Management of severe wasting

#### 3.1.3. Overweight and obesity

- 3.1.3.1. Prevention of overweight and obesity
- 3.1.3.2. Diagnosis of overweight and obesity
- 3.1.3.3. Management of overweight and obesity

#### 3.1.4. Physical activity

- 3.1.4.1. Support for physical activity
- 3.1.4.2. [under review]

#### 3.1.5. Sleep

- 3.1.5.1. Support for healthy sleep
- 3.1.5.2. Identification and diagnosis of sleep disorders
- 3.1.5.3. Management of sleep disorders

### 3.2. INFANT CHILD AND ADOLESCENT GROWTH AND DEVELOPMENT

#### 3.2.1. Parenting relationships

- 3.2.1.1. Support for healthy parenting
- 3.2.1.2. Longitudinal assessment of parenting relationships

#### 3.2.2. Healthy growth and development in childhood and adolescence

- 3.2.2.1. Longitudinal assessment of childhood growth and development
- 3.2.2.2. Support for healthy growth and development

### 3.3. SPECIAL CONSIDERATIONS IN OLDER PEOPLE

#### 3.3.1. Mobility in older people

- 3.3.1.1. Identification of limited mobility and fall risk
- 3.3.1.2. Management of limited mobility and prevention of falls

#### 3.3.2. Cognitive capacity in older people

- 3.3.2.1. Identification of cognitive decline
- 3.3.2.2. Management of cognitive decline

#### 3.3.3. Social support for older people

- 3.3.3.1. Assessment of social support needs
- 3.3.3.2. Social care and support

### 3.4. SPECIAL CONSIDERATIONS AT THE END OF LIFE

#### 3.4.1. Care planning for people with life-limiting illness

- 3.4.1.1. Assessment of needs for people with life limiting illness
- 3.4.1.2. Support for patient and family for development of care plan

#### 3.4.2. End of life care

- 3.4.2.1. Care for physical needs at the end of life
- 3.4.2.2. Care for psychological and spiritual needs at the end of life

# 4. NONCOMMUNICABLE DISEASES AND MENTAL HEALTH

## 4.1. BLOOD DISORDERS (EXCLUDING CANCERS)

### 4.1.1. Anaemias

- 4.1.1.1. Prevention of anaemias
- 4.1.1.2. Screening and diagnosis of anaemias
- 4.1.1.3. Management of anaemias

### 4.1.2. Primary immunodeficiencies

- 4.1.2.1. Prevention of primary immunodeficiency disorders
- 4.1.2.2. Diagnosis of primary immunodeficiency disorders
- 4.1.2.3. Management of primary immunodeficiency disorders

### 4.1.3. Coagulation disorders

- 4.1.3.1. Diagnosis of coagulation disorders
- 4.1.3.2. Management of hypercoagulable states
- 4.1.3.3. Management of coagulation disorders

## 4.2. CANCERS

### 4.2.1. General management of cancers

- 4.2.1.1. [Under review]

### 4.2.2. Childhood cancers

- 4.2.2.1. Early detection, diagnosis and staging of Wilms tumour
- 4.2.2.2. Management of Wilms tumour (including metastatic disease)
- 4.2.2.3. Early detection, diagnosis and staging of retinoblastoma
- 4.2.2.4. Management of retinoblastoma
- 4.2.2.5. Early detection, diagnosis and staging of non-Hodgkin lymphoma
- 4.2.2.6. Management of non-Hodgkin lymphoma
- 4.2.2.7. Early detection, diagnosis and staging of acute lymphoblastic leukemia
- 4.2.2.8. Management of acute lymphoblastic leukemia
- 4.2.2.9. Early detection, diagnosis and staging of Burkitt lymphoma
- 4.2.2.10. Management of Burkitt lymphoma
- 4.2.2.11. Early detection, diagnosis and staging of low-grade glioma
- 4.2.2.12. Management of low-grade glioma

### 4.2.3. Lung cancers

- 4.2.3.1. Prevention of lung cancer
- 4.2.3.2. Early detection, diagnosis and staging of lung cancer
- 4.2.3.3. Management of lung cancer
- 4.2.3.4. Management of metastatic lung cancer]

#### **4.2.4. Gastrointestinal cancers**

- 4.2.4.1. Prevention of gastrointestinal cancers
- 4.2.4.2. Early detection, diagnosis and staging of colorectal cancers
- 4.2.4.3. Management of colorectal cancers
- 4.2.4.4. Management of metastatic colorectal cancers
- 4.2.4.5. Early detection, diagnosis and staging of liver cancers
- 4.2.4.6. Management of liver cancers
- 4.2.4.7. Management of metastatic liver cancers
- 4.2.4.8. Early detection, diagnosis and staging of gastric cancers
- 4.2.4.9. Management of gastric cancers
- 4.2.4.10. Management of metastatic gastric cancers

#### **4.2.5. Breast cancers**

- 4.2.5.1. Prevention of breast cancer
- 4.2.5.2. Early detection, diagnosis and staging of breast cancer
- 4.2.5.3. Management of breast cancer
- 4.2.5.4. Management of metastatic breast cancer

#### **4.2.6. Cervical cancers**

- 4.2.6.1. Prevention of cervical cancer
- 4.2.6.2. Early detection, diagnosis and staging of cervical cancer
- 4.2.6.3. Management of pre-invasive cervical lesion
- 4.2.6.4. Management of cervical cancer
- 4.2.6.5. Management of metastatic cervical cancer

#### **4.2.7. Uterine cancers**

- 4.2.7.1. Prevention of uterine cancers
- 4.2.7.2. Early detection, diagnosis and staging of uterine cancers
- 4.2.7.3. Management of uterine cancers
- 4.2.7.4. Management of metastatic uterine cancers

#### **4.2.8. Ovarian cancers**

- 4.2.8.1. Prevention of ovarian cancers
- 4.2.8.2. Early detection, diagnosis and staging of ovarian cancers
- 4.2.8.3. Management of ovarian cancers
- 4.2.8.4. Management of metastatic ovarian cancers

#### **4.2.9. Prostate cancers**

- 4.2.9.1. Prevention of prostate cancer
- 4.2.9.2. Early detection, diagnosis and staging of prostate cancer
- 4.2.9.3. Management of prostate cancer
- 4.2.9.4. Management of metastatic prostate cancer

#### **4.2.10. Testicular cancers**

- 4.2.10.1. Prevention of testicular cancers
- 4.2.10.2. Early detection, diagnosis and staging of testicular cancers
- 4.2.10.3. Management of testicular cancers
- 4.2.10.4. Management of metastatic testicular cancers

#### **4.2.11. Lymphomas**

- 4.2.11.1. Prevention of lymphomas
- 4.2.11.2. Early detection, diagnosis and staging of lymphomas
- 4.2.11.3. Management of lymphomas

#### **4.2.12. Leukemias**

- 4.2.12.1. Prevention of leukemias
- 4.2.12.2. Early detection, diagnosis and staging off leukemias
- 4.2.12.3. Management of leukemias

#### **4.2.13. Myeloma and myelodysplastic disorders**

- 4.2.13.1. Prevention of myeloma and myelodysplastic disorders
- 4.2.13.2. Early detection, diagnosis and staging of myeloma and myelodysplastic disorders
- 4.2.13.3. Management of myeloma and myelodysplastic disorders

#### **4.2.14. Brain cancers**

- 4.2.14.1. Prevention of brain cancers
- 4.2.14.2. Early detection, diagnosis and staging of brain cancers
- 4.2.14.3. Management of brain cancers
- 4.2.14.4. Management of metastatic brain cancers

#### **4.2.15. Oropharyngeal cancers**

- 4.2.15.1. Prevention of oropharyngeal cancers
- 4.2.15.2. Early detection, diagnosis and staging of oropharyngeal cancers
- 4.2.15.3. Management of oropharyngeal cancers
- 4.2.15.4. Management of metastatic oropharyngeal cancers

#### **4.2.16. Renal cancers**

- 4.2.16.1. Prevention of renal cancers
- 4.2.16.2. Early detection, diagnosis and staging of renal cancers
- 4.2.16.3. Management of renal cancers
- 4.2.16.4. Management of metastatic renal cancers

#### **4.2.17. Thyroid cancers**

- 4.2.17.1. Prevention of thyroid cancers
- 4.2.17.2. Early detection, diagnosis and staging of thyroid cancers
- 4.2.17.3. Management of thyroid cancers
- 4.2.17.4. Management of metastatic thyroid cancers

#### **4.2.18. Skin cancers**

- 4.2.18.1. Prevention of skin cancers
- 4.2.18.2. Early detection, diagnosis and staging of skin cancers
- 4.2.18.3. Management of skin cancers
- 4.2.18.4. Management of metastatic skin cancers

## 4.3. CARDIOVASCULAR DISEASES

### 4.3.1. Assessment of cardiovascular risks

#### 4.3.1.1. Assessment of cardiovascular risks

### 4.3.2. Hypertension

#### 4.3.2.1. Prevention of hypertension

#### 4.3.2.2. Screening and diagnosis of hypertension

#### 4.3.2.3. Longitudinal management of hypertension

#### 4.3.2.4. Management of acute hypertensive urgencies and emergencies

### 4.3.3. Ischaemic heart disease

#### 4.3.3.1. Prevention of ischaemic heart disease

#### 4.3.3.2. Screening and diagnosis of ischaemic heart disease

#### 4.3.3.3. Longitudinal management of ischaemic heart disease

#### 4.3.3.4. Management of acute exacerbations of ischaemic heart disease

### 4.3.4. Heart failure

#### 4.3.4.1. Prevention of heart failure

#### 4.3.4.2. Diagnosis of heart failure

#### 4.3.4.3. Longitudinal management of heart failure

#### 4.3.4.4. Management of acute heart failure

#### 4.3.4.5. Management of cardiomyopathy

### 4.3.5. Cerebrovascular disease

#### 4.3.5.1. Prevention of stroke

#### 4.3.5.2. Early identification and diagnosis of stroke

#### 4.3.5.3. Longitudinal management of stroke

#### 4.3.5.4. Management of acute stroke

### 4.3.6. Other vascular diseases (excluding cerebrovascular and ischaemic heart disease)

#### 4.3.6.1. Prevention of arterial occlusive disease

#### 4.3.6.2. Diagnosis of arterial occlusive disease

#### 4.3.6.3. Longitudinal management of arterial occlusive disease

#### 4.3.6.4. Management of acute complications of arterial occlusive disease

#### 4.3.6.5. Management of aneurysms

#### 4.3.6.6. Prevention of venous thrombosis and thromboembolism

#### 4.3.6.7. Diagnosis of venous thrombosis and thromboembolism

#### 4.3.6.8. Management of venous thrombosis and thromboembolism

### 4.3.7. Arrhythmias

#### 4.3.7.1. Prevention of arrhythmias

#### 4.3.7.2. Screening and diagnosis of arrhythmias

#### 4.3.7.3. Longitudinal management of arrhythmias

#### 4.3.7.4. Management of acute arrhythmias

#### **4.3.8. Structural heart disease**

- 4.3.8.1. Prevention of structural heart disease
- 4.3.8.2. Screening and diagnosis of structural heart disease
- 4.3.8.3. Longitudinal management of structural heart disease
- 4.3.8.4. Management of acute exacerbations of structural heart disease

#### **4.3.9. Rheumatic heart disease**

- 4.3.9.1. Prevention of rheumatic heart disease
- 4.3.9.2. Screening and diagnosis of rheumatic heart disease
- 4.3.9.3. Longitudinal management of rheumatic heart disease
- 4.3.9.4. Management of acute exacerbations of rheumatic heart disease

### **4.4. CHRONIC MUSCULOSKELETAL DISEASES**

#### **4.4.1. Noninflammatory arthropathies**

- 4.4.1.1. Prevention of noninflammatory arthropathies
- 4.4.1.2. Diagnosis of noninflammatory arthropathies
- 4.4.1.3. Longitudinal management of non inflammatory arthropathies

#### **4.4.2. Noninflammatory spinal disorders**

- 4.4.2.1. Prevention of noninflammatory spinal disorders
- 4.4.2.2. Diagnosis of noninflammatory spinal disorders
- 4.4.2.3. Longitudinal management of non inflammatory spinal disorders

#### **4.4.3. Chronic extremity disorders**

- 4.4.3.1. Longitudinal management of amputation
- 4.4.3.2. Longitudinal management of congenital limb abnormalities
- 4.4.3.3. Under review

### **4.5. CHRONIC RESPIRATORY DISEASES**

#### **4.5.1. COPD**

- 4.5.1.1. Prevention of COPD
- 4.5.1.2. Diagnosis of COPD
- 4.5.1.3. Longitudinal management of COPD
- 4.5.1.4. Management of acute COPD exacerbations

#### **4.5.2. Asthma**

- 4.5.2.1. Prevention of asthma
- 4.5.2.2. Diagnosis of asthma
- 4.5.2.3. Longitudinal management of asthma
- 4.5.2.4. Management of acute asthma exacerbations

#### **4.5.3. Other chronic respiratory diseases**

- 4.5.2.1. Prevention of chronic respiratory diseases
- 4.5.2.2. Diagnosis of other chronic respiratory diseases
- 4.5.2.3. Longitudinal management of other chronic respiratory diseases
- 4.5.2.4. Management of acute exacerbations of other chronic respiratory diseases

### **4.6. DIGESTIVE DISEASES (SEE ALSO COMMUNICABLE DISEASES)**

#### **4.6.1. Oral diseases and conditions**

- 4.6.1.1. Prevention of oral diseases
- 4.6.1.2. Screening and diagnosis of oral diseases
- 4.6.1.3. Longitudinal management of oral diseases
- 4.6.1.4. Management of acute exacerbations of oral diseases

#### **4.6.2. Diseases of the oesophagus, stomach, liver, gallbladder, pancreas and intestines**

- 4.6.2.1. Prevention of gastrointestinal diseases
- 4.6.2.2. Diagnosis of gastrointestinal diseases
- 4.6.2.3. Management of gastroesophageal reflux disease
- 4.6.2.4. Management of gastritis, peptic ulcer disease, and duodenitis
- 4.6.2.5. Management of ileus and intestinal obstruction
- 4.6.2.6. Management of appendicitis
- 4.6.2.7. Management of hernias (including inguinal, femoral, abdominal)
- 4.6.2.8. Management of gallbladder and biliary diseases
- 4.6.2.9. Management of cirrhosis and other chronic liver diseases
- 4.6.2.10. Management of pancreatitis
- 4.6.2.11. Management of acute complications of gastrointestinal diseases

### **4.7. ENDOCRINE, METABOLIC, AND AUTOIMMUNE DISORDERS**

#### **4.7.1. Diabetes mellitus**

- 4.7.1.1. Prevention of diabetes mellitus
- 4.7.1.2. Screening and diagnosis of diabetes mellitus
- 4.7.1.3. Longitudinal management of diabetes mellitus
- 4.7.1.4. Management of acute hyperglycaemia
- 4.7.1.5. Management of acute hypoglycaemia

#### **4.7.2. Thyroid disorders**

- 4.7.2.1. Prevention of thyroid disorders
- 4.7.2.2. Screening and diagnosis of thyroid disorders
- 4.7.2.3. Management of thyroid disorders

#### **4.7.3. Other endocrine and metabolic disorders**

- 4.7.3.1. Prevention of other endocrine and metabolic disorders
- 4.7.3.2. Screening and diagnosis of other endocrine and metabolic disorders
- 4.7.3.3. Management of adrenal disorders
- 4.7.3.4. Longitudinal management of other endocrine and metabolic disorders
- 4.7.3.5. Management of acute complications of endocrine and metabolic disorders

#### **4.7.4. Systemic autoimmune and other inflammatory disorders**

- 4.7.4.1. Prevention of autoimmune and inflammatory disorders
- 4.7.4.2. Management of inflammatory bowel diseases
- 4.7.4.3. Management of inflammatory arthritis (including rheumatoid arthritis and ankylosing spondylitis)
- 4.7.4.4. Management of multisystem autoimmune disorders (including systemic lupus erythematosus)
- 4.7.4.5. Management of inflammatory demyelinating diseases (including multiple sclerosis)

### **4.8. GENITOURINARY DISORDERS**

#### **4.8.1. Disorders of the urinary system**

- 4.8.1.1. Prevention of urinary system disorders
- 4.8.1.2. Diagnosis of urinary system disorders
- 4.8.1.3. Management of urinary retention or obstruction
- 4.8.1.4. Management of urinary incontinence
- 4.8.1.5. Longitudinal management of kidney disease
- 4.8.1.6. Management of acute kidney injury

#### **4.8.2. Noninfectious disorders of female genital system**

- 4.8.2.1. Prevention of disorders of the female genital system
- 4.8.2.2. Diagnosis of disorders of the female genital system
- 4.8.2.3. Management of uterine fibroids
- 4.8.2.4. Management of ovarian disorders
- 4.8.2.5. Management of polycystic ovary syndrome
- 4.8.2.6. Management of genital prolapse and fistulae
- 4.8.2.7. Management of endometriosis

#### **4.8.3. Noninfectious disorders of male genital system**

- 4.8.3.1. Prevention of disorders of the male genital system
- 4.8.3.2. Diagnosis of disorders of the male genital system
- 4.8.3.3. Management of benign prostatic hyperplasia
- 4.8.3.4. Management of testicular torsion

## 4.9. MENTAL DISORDERS

### 4.9.1. Depression

- 4.9.1.1. Assessment for depression
- 4.9.1.2. Management of depression

### 4.9.2. Emotional disorders in children and adolescents

- 4.9.2.1. Promotive and preventive mental health services for children and adolescents
- 4.9.2.2. Assessment for emotional disorders in children and adolescents
- 4.9.2.3. Management of emotional problems and disorders in children and adolescents

### 4.9.3. Behavioural disorders

- 4.9.3.1. Promotive and preventive mental health services
- 4.9.3.2. Identification of behavioural disorders
- 4.9.3.3. Management of behavioural disorders

### 4.9.4. Anxiety disorders (including PTSD)

- 4.9.4.1. Assessment for anxiety disorders (including PTSD)
- 4.9.4.2. Management of anxiety disorders (including PTSD)

### 4.9.5. Psychotic disorders

- 4.9.5.1. Assessment for psychotic disorders
- 4.9.5.2. Management of psychotic disorders

### 4.9.6. Bipolar disorders

- 4.9.6.1. Assessment for bipolar disorders
- 4.9.6.2. Management of bipolar disorders

### 4.9.7. Self-harm and suicide

- 4.9.7.1. Assessment of self-harm/suicide risk
- 4.9.7.2. Management of self-harm/suicide risk

## 4.10. SUBSTANCE USE DISORDERS

### 4.10.1. Alcohol use disorders

- 4.10.1.1. Screening and diagnosis of alcohol use disorders
- 4.10.1.2. Longitudinal management of alcohol use disorders
- 4.10.1.3. Management of acute conditions related to alcohol use and alcohol use disorders

### 4.10.2. Drug use disorders

- 4.10.2.1. Screening and diagnosis of drug use disorders
- 4.10.2.2. Longitudinal management of drug use disorders
- 4.10.2.3. Management of acute conditions related to drug use and drug use disorders

### 4.10.3. Tobacco use disorders

- 4.10.3.1. Prevention of tobacco use disorders
- 4.10.3.2. Screening and diagnosis of tobacco use disorders
- 4.10.3.3. Longitudinal management of tobacco use disorders

## 4.11. NEUROLOGIC DISORDERS

### 4.11.1. Neurodevelopmental disorders

- 4.11.1.1. Screening and diagnosis of neurodevelopmental disorders
- 4.11.1.2. Management of neurodevelopmental disorders

### 4.11.2. Neurodegenerative disorders

- 4.11.2.1. Prevention of neurodegenerative disorders
- 4.11.2.2. Diagnosis of neurodegenerative disorders
- 4.11.2.3. Management of dementia (including Alzheimer disease)
- 4.11.2.4. Management of Parkinson disease
- 4.11.2.5. Management of motor neuron diseases

### 4.11.3. Acute convulsive seizures and epilepsy

- 4.11.3.1. Prevention of epilepsy
- 4.11.3.2. Diagnosis of epilepsy
- 4.11.3.3. Management of epilepsy and seizures

### 4.11.4. Headache disorders

- 4.11.4.1. Prevention of headache disorders
- 4.11.4.2. Diagnosis of headache disorders
- 4.11.4.3. Management of headache disorders

## 4.12. SENSE ORGAN DISEASES

### 4.12.1. Eye conditions and vision impairment

- 4.12.1.1. Prevention of eye conditions and vision impairment
- 4.12.1.2. Screening and diagnosis of eye conditions and vision impairment
- 4.12.1.3. Management of refractive error, amblyopia and strabismus
- 4.12.1.4. Management of vitreo-retinal diseases
- 4.12.1.5. Management of cataract
- 4.12.1.6. Management of glaucomas
- 4.12.1.7. Management of disorders of the ocular surface, eyelid and lacrimal system
- 4.12.1.8. General management of visual impairment

### 4.12.2. Ear diseases and hearing impairment

- 4.12.2.1. Prevention of ear diseases and hearing impairment
- 4.12.2.2. Screening and diagnosis of ear diseases and hearing impairment
- 4.12.2.3. Management of external and middle ear diseases
- 4.12.2.4. Management of hearing impairment

### 4.12.3. Other sense organ diseases

- 4.12.3.1. [Under review]

## 4.13. SKIN AND SUBCUTANEOUS DISEASES

### 4.13.3. Inflammatory disorders of the skin

- 4.13.1.1. Prevention of skin and soft tissue infections
- 4.13.1.2. Diagnosis of inflammatory skin diseases
- 4.13.1.3. Management of dermatitis (including atopic, contact, seborrheic)
- 4.13.1.4. Management of acne
- 4.13.1.5. Management of urticaria
- 4.13.1.6. Management of psoriasis
- 4.13.1.7. Management of rosacea
- 4.13.1.8. Management of alopecia

## 4.14. CONGENITAL ABNORMALITIES

### 4.14.1. Under review

### 4.14.2. Under review

## 5. VIOLENCE AND INJURY

### 5.1. INTERPERSONAL VIOLENCE

#### 5.1.1. Approach to interpersonal violence

5.1.1.1. Prevention and early recognition of violence

5.1.1.2. Safe and confidential access to health services for conditions related to violence

#### 5.1.2. Child maltreatment and youth violence

5.1.2.1. Prevention of child maltreatment and youth violence

5.1.2.2. Identification of child maltreatment and youth violence

5.1.2.3. Management of child maltreatment and youth violence

#### 5.1.3. Violence against older people

5.1.3.1. Prevention of violence against older people

5.1.3.2. Identification of violence against older people

5.1.3.3. Management of violence against older people

#### 5.1.4. Sexual and intimate partner violence (see section 2.2.5)

### 5.2. INJURY

#### 5.2.1. Mechanical injury

5.2.1.1. Counseling for injury prevention

5.2.1.2. General approach to serious injury

5.2.1.3. Management of head and face injury (including ocular injury)

5.2.1.4. Management of spinal injury (including neck injury)

5.2.1.5. Management of thoracoabdominal injury

5.2.1.6. Management of pelvic injury (including urogenital)

5.2.1.7. Management of extremity injury

5.2.1.8. Management of wounds (excluding burns)

#### 5.2.2. Thermal and chemical injuries (burns)

5.2.2.1. Counselling for prevention of burns

5.2.2.2. Management of burns

#### 5.2.3. Envenomation injuries

5.2.3.1. Counseling for prevention of bite and envenoming injuries

5.2.3.2. Management of bites and envenoming injuries

#### 5.2.4. Poisoning, toxic and environmental injuries (including drowning)

5.2.4.1. Counseling for poisoning, toxic and environmental injury prevention

5.2.4.2. Management of poisoning, toxic and environmental exposure

## 6. COMMUNICABLE DISEASES

### 6.1. COMMUNICABLE DISEASE PREVENTION

#### 6.1.1. Infection prevention and control measures

6.1.1.1. [Under review]

6.1.1.2. [Under review]

#### 6.1.2. Vaccinations

6.1.2.1. General vaccine administration practices

6.1.2.2. Vaccinations based on individual characteristics

#### 6.1.3. Surveillance for conditions of public health concern

6.1.3.1. Case-based recognition and reporting

### 6.2. NEGLECTED TROPICAL DISEASES (NTDS)

#### 6.2.1. Surveillance for conditions of public health concern

6.2.1.1. Prevention of dracunculiasis

6.2.1.2. Screening and diagnosis of dracunculiasis

6.2.1.3. Management of dracunculiasis

#### 6.2.2. Yaws

6.2.2.1. Prevention of yaws

6.2.2.2. Screening and diagnosis of yaws

6.2.2.3. Management of yaws

#### 6.2.3. Trypanosomiasis (rhodesiense and gambiense)

6.2.3.1. Prevention of trypanosomiasis

6.2.3.2. Screening and diagnosis of trypanosomiasis

6.2.3.3. Management of trypanosomiasis

#### 6.2.4. Leprosy

6.2.4.1. Prevention of leprosy

6.2.4.2. Screening and diagnosis of leprosy

6.2.4.3. Management of leprosy

#### 6.2.5. Onchocerciasis

6.2.5.1. Prevention of onchocerciasis

6.2.5.2. Screening and diagnosis of onchocerciasis

6.2.5.3. Management of onchocerciasis

#### 6.2.6. Chagas disease

6.2.6.1. Prevention of Chagas

6.2.6.2. Screening and diagnosis of Chagas

6.2.6.3. Management of Chagas

#### **6.2.7. Leishmaniasis (visceral and cutaneous)**

- 6.2.7.1. Prevention of leishmaniasis
- 6.2.7.2. Screening and diagnosis of leishmaniasis
- 6.2.7.3. Management of leishmaniasis

#### **6.2.8. Lymphatic filariasis**

- 6.2.8.1. Prevention of lymphatic filariasis
- 6.2.8.2. Screening and diagnosis of lymphatic filariasis
- 6.2.8.3. Management of lymphatic filariasis

#### **6.2.9. Rabies**

- 6.2.9.1. Prevention of rabies
- 6.2.9.2. Screening and diagnosis of rabies
- 6.2.9.3. Postexposure prophylaxis of rabies
- 6.2.9.4. Palliative care of rabies patient

#### **6.2.10. Schistosomiasis**

- 6.2.10.1. Prevention of schistosomiasis
- 6.2.10.2. Screening and diagnosis of schistosomiasis
- 6.2.10.3. Management of schistosomiasis

#### **6.2.11. Soil-transmitted helminthiases**

- 6.2.11.1. Prevention of helminthiases
- 6.2.11.2. Screening and diagnosis of helminthiases
- 6.2.11.3. Management of helminthiases

#### **6.2.12. Trachoma**

- 6.2.12.1. Prevention of trachoma
- 6.2.12.2. Screening and diagnosis of trachoma
- 6.2.12.3. Management of trachoma

#### **6.2.13. Buruli ulcer**

- 6.2.13.1. Prevention of buruli ulcer
- 6.2.13.2. Screening and diagnosis of buruli ulcer
- 6.2.13.3. Management of buruli ulcer

#### **6.2.14. Dengue and chikungunya**

- 6.2.14.1. Prevention of dengue and chikungunya
- 6.2.14.2. Screening and diagnosis of dengue and chikungunya
- 6.2.14.3. Management of dengue and chikungunya

#### **6.2.15. Echinococcosis**

- 6.2.15.1. Prevention of echinococcosis
- 6.2.15.2. Management of echinococcosis

### **6.2.16. Foodborne trematodiasis**

- 6.2.16.1. Prevention of trematodiasis
- 6.2.16.2. Screening and diagnosis of trematodiasis
- 6.2.16.3. Management of trematodiasis

### **6.2.17. Deep mycoses**

- 6.2.17.1. Prevention of deep mycoses
- 6.2.17.2. Screening and diagnosis of deep mycoses
- 6.2.17.3. Management of deep mycoses

### **6.2.18. Scabies**

- 6.2.18.1. Prevention of scabies
- 6.2.18.2. Screening and diagnosis of scabies
- 6.2.18.3. Management of scabies

### **6.2.19. Taeniasis and cysticercosis**

- 6.2.19.1. Screening and diagnosis of taeniasis and cysticercosis
- 6.2.19.2. Management of taeniasis and cysticercosis

## **6.3. COMMUNICABLE DISEASES EXCLUDING NTDS**

### **6.3.1. Human immunodeficiency virus disease**

- 6.3.1.1. Prevention of HIV
- 6.3.1.2. Screening and diagnosis of HIV
- 6.3.1.3. Management of HIV
- 6.3.1.4. Management of complications of HIV

### **6.3.2. Tuberculosis**

- 6.3.2.1. Prevention of tuberculosis
- 6.3.2.2. Case detection and diagnosis of tuberculosis
- 6.3.2.3. Management of HIV

### **6.3.3. Malaria**

- 6.3.3.1. Prevention of malaria
- 6.3.3.2. Management of uncomplicated malaria
- 6.3.3.3. Management of severe malaria and complications (p. falciparum and non-falciparum)

### **6.3.4. Viral hepatitis**

- 6.3.4.1. Prevention of viral hepatitis
- 6.3.4.2. Screening and diagnosis of viral hepatitis
- 6.3.4.3. Longitudinal management of viral hepatitis
- 6.3.4.4. Management of acute viral hepatitis

### **6.3.5. Lower respiratory infections (excluding TB)**

- 6.3.5.1. Prevention of respiratory infections
- 6.3.5.2. Diagnosis of lower respiratory infections
- 6.3.5.3. Management of acute lower respiratory infections

### **6.3.6. Enteric and diarrhoeal infections**

- 6.3.6.1. Prevention of enteric and diarrhoeal infections
- 6.3.6.2. Diagnosis of enteric and diarrhoeal infections
- 6.3.6.3. Management of enteric and diarrhoeal infections

### **6.3.7. Sexually transmitted and reproductive tract infections**

- 6.3.7.1. Prevention of STIs and reproductive tract infections
- 6.3.7.2. Screening and diagnosis of STIs and reproductive tract infections
- 6.3.7.3. Management of STIs, reproductive tract infections and complications of STIs
- 6.3.7.4. Management of prostatitis
- 6.3.7.5. [Under review]

### **6.3.8. Urinary tract infections**

- 6.3.8.1. Prevention of urinary tract infections
- 6.3.8.2. Screening and diagnosis of urinary tract infections
- 6.3.8.3. Management of urinary tract infections

### **6.3.9. Central nervous system infections**

- 6.3.6.1. Prevention of CNS infections
- 6.3.6.2. Diagnosis of CNS infections
- 6.3.6.3. Management of CNS infections

### **6.3.10. Ear, nose, and throat (ENT) infections**

- 6.3.10.1. Prevention of ENT infections
- 6.3.10.2. Diagnosis of ENT infections
- 6.3.10.3. Management of ear infections and complications
- 6.3.10.4. Management of sinusitis
- 6.3.10.5. Management of pharyngitis and tonsillitis
- 6.3.10.6. Management of deep neck and airway infections

### **6.3.11. Eye infections**

- 6.3.11.1. Prevention of eye infections
- 6.3.11.2. Diagnosis of eye infections
- 6.3.11.3. Management of eye infections

### **6.3.12. Skin and soft tissue infections**

- 6.3.12.1. Prevention of skin and soft tissue infections
- 6.3.12.2. Diagnosis of skin and soft tissue infections
- 6.3.12.3. Management of skin and soft tissue infections

### **6.3.13. Musculoskeletal infections**

- 6.3.13.1. Diagnosis of musculoskeletal infections
- 6.3.13.2. Management of musculoskeletal infections

### **6.3.14. Other viral infections**

- 6.3.14.1. Under review
- 6.3.14.2. Under review
- 6.3.14.3. Under review
