A minimum of [70] points is required to pass the technical evaluation.

Please note that WHO is not bound to select any bidder and may reject all proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to WHO's general principles, including the principle of best value for money, WHO does not bind itself in any way to select the bidder offering the lowest price.

WHO may, at its discretion, ask any bidder for clarification of any part of its proposal. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

3. Accept or reject any proposal, and to annul the solicitation process and reject all proposals at any time prior to award of contract, without thereby incurring any liability to the affected bidder or bidders and without any obligation to inform the affected bidder or bidders of the grounds for WHO's action;
4. Award the contract on the basis of the Organization's particular objectives to a bidder whose proposal is considered to be the most responsive to the needs of the Organization and the activity concerned;
5. Not award any contract at all.

WHO has the right to eliminate bids for technical or other reasons throughout the evaluation/selection process. WHO shall not in any way be obliged to reveal, or discuss with any bidder, how a proposal was assessed, or to provide any other information relating to the evaluation/selection process or to state the reasons for elimination to any bidder.

NOTE: WHO is acting in good faith by issuing this RFP. However, this document does not oblige WHO to contract for the performance of any work, nor for the supply of any products or services.

At any time during the evaluation/selection process, WHO reserves the right to modify the scope of the work, services and/or goods called for under this RFP. WHO shall notify the change to only those bidders who have not been officially eliminated due to technical reasons at that point in time.

WHO reserves the right at the time of award of contract to extend, reduce or otherwise revise the scope of the work, services and/or goods called for under this RFP without any change in the base price or other terms and conditions offered by the selected bidder.

WHO also reserves the right to enter into negotiations with one or more bidders of its choice, including but not limited to negotiation of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP.

Within 30 days of receipt of the contract between WHO and the successful bidder (the "Contract"), the successful bidder shall sign and date the Contract and return it to WHO according to the instructions provided at that time. If the bidder does not accept the Contract terms without changes, then WHO has the right not to proceed with the selected bidder and instead contract with another bidder of its choice. The Contract will include, without limitation, the provisions set forth in Annex 3.

Any and all of the contractor's (general and/or special) conditions of contract are hereby explicitly excluded from the Contract, i.e., regardless of whether such conditions are included in the Contractor's offer, or printed or referred to on the Contractor's letterhead, invoices and/or other material, documentation or communications.

We look forward to receiving your response to this RFP.

Yours sincerely,
Mrs Ying Chen, PMAO

Annex 1: Detailed Terms of Reference

1. Purpose of the APW

The World Health Organization (WHO) Philippines is searching for an institutional contractual partner to support the conduct of the National HIV Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP) program implementation assessment and to update the National HIV PrEP and PEP policy under an Agreement Performance of Work (APW).

2. Background

The Philippines has the fastest-growing HIV epidemic in the Asia and Pacific Region with a 237% increase in annual new HIV infections from 2010 to 2020. Further, the COVID-19 pandemic impacted HIV prevention coverage and service delivery resulting in the doubling of new HIV infections from 2019-2020 (10%) to 2020-2021(21%). As an intervention, the Department of Health (DOH) has expanded its combination prevention strategies including HIV PrEP and PEP in the country. DOH started implementing the HIV PrEP program last March 2021 to reduce new HIV infections. It was targeted in the HIV Health Sector Plan (HSP) 2020 – 2022 to initiate 10,000 men who have sex with men (MSM) and transgender women (TGW) on PrEP. As of December 2022, there were already 12,906 Filipinos initiated on PrEP. Though the country has achieved its HSP target, the PrEP program needs to be enhanced to be able to provide PrEP to more Filipinos as simple and as close as we can to the key populations (KPs). Moving forward, the country initially plans to scale up PrEP services to as many as 150,000 Filipinos on PrEP by the end of 2026. On the other hand, HIV PEP for occupational and non-occupational exposure programs should be strengthened to maximize the benefits of HIV anti-retroviral drugs for HIV prevention. To expand, a thorough assessment of its current implementation needs to be conducted to ensure evidence-informed expansion of the program in adherence to national and global guidelines, and in alignment with DOH directions and universal health care (UHC).

The importance of offering and expanding HIV PrEP and PEP services has been underscored in various documents such as World Health Organization (WHO) Global Health Sector Strategies (GHSS) 2022 – 2030, WHO simplified and differentiated service delivery of PrEP 2022, DOH Omnibus Health Guidelines 2022, and Joint TBHIV Program Review recommendations. This is aligned with the DOH's thrust in its Health Sector Strategy 2023 – 2028 that Filipinos are among the healthiest people in Asia by 2040.

This technical assistance will support the Department of Health in updating the national HIV PrEP and PEP policy. The project will look into program implementation, its best implementation models, and its areas of improvement and expansion of PrEP modalities (e.g. demedicalization, simplified, and differentiated service delivery such as pharmacy-led and community PrEP). Also, the project will look into evidence and implementation models from other countries and will include but limited to an analysis of the feasibility of innovative PrEP delivery such as event-driven PrEP, Dapivirine Ring, and long-acting injectable PrEP. This project shall follow two tracks: a policy brief to document the findings and recommendations of this project and to update the HIV PrEP and PEP policy that will be the basis of programmatic implementation and scale-up in the country. The updated policy will serve as a general anchor of HIV PrEP and PEP work and shall exclude dissemination activities, detailed communication, and operational planning.

The objective of this technical assistance is to develop an updated national HIV PrEP and PEP Policy.

3. Planned timelines

The implementation timeline for this project is from **July to September 2023**.
