

**To contribute to accelerating progress towards TB, HIV, viral hepatitis and STI goals in my country, I personally commit to:**

- 1** convening relevant stakeholders to review progress towards our goals to end the diseases, and resetting immediate priorities for 2023;
- 2** protecting current funding and proposing an increase in public funding allocations for TB/HIV/viral hepatitis/STI programmes and services;
- 3** prioritizing services for key populations and those who are at increased risk of TB/HIV/viral hepatitis/STIs;
- 4** leading preparations for the 2023 United Nations High-Level Meeting of the General Assembly on TB, through multisectoral consultation, and mobilizing attendance of the highest political level at the meeting; and
- 5** planning to attend the meeting in person and reporting on progress at the subregional ministerial meeting on HIV, viral hepatitis and STIs.

## Resetting the course towards ending tuberculosis and AIDS, and eliminating the epidemics of viral hepatitis and sexually transmitted infections in the WHO European Region

By 2030, the world is expected to have significantly reduced the burden of tuberculosis (TB), AIDS, viral hepatitis and sexually transmitted infections (STIs). In the WHO European Region, most of the related 2020 targets have not been met and COVID-19 has reversed progress.

Recent advances provide an unprecedented opportunity to end TB, AIDS and the epidemics of viral hepatitis and STIs globally. Reaching the regional and global targets requires reinforcing strategic shifts, implementing bold actions and advancing sustained commitments.

**Information Sheet:**

Regional action plans for ending AIDS and the epidemics of viral hepatitis and sexually transmitted infections 2022-2030

**Information Sheet:**

Tuberculosis action plan for the WHO European Region 2023-2030

Chair: Dr Hans Kluge, WHO Regional Director for Europe

**Welcome and introductions** (2 min)

**People time:** *Video of XDR TB Survivor* (3 min)

**Setting the scene:** *The urgency to accelerate ending TB, AIDS, hepatitis and STIs* (5 min)

Dr Hans Kluge, WHO Regional Director for Europe

**Audience time:** *Rapid test availability* (5 min)

**Ministers time:** *Key ingredients for success and what is ahead* (15 min)

Speakers from Member States: Georgia, Kazakhstan, Spain (tbc), the United Kingdom of Great Britain and Northern Ireland (tbc)

**Partners' time: The road to success and key "asks" for**

**Member States** (15 min)

Lucica Ditiu, Stop TB Partnership

Dumitru Laticevschi, Global Fund

Carry James, World Hepatitis Alliance

Carolyn Wester, United States Centers for Disease Control and Prevention (video statement)

**Open floor** (10 min)

**Commitment time: Summing up and moving forward** (5 minutes)

Nino Berdzuli, Director, Country Health Programmes
